G-XCEL® STYLE JACKET

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

Lightweight and flexibility are hallmarks of this all-new chassis. With a longer back and shorter front, you get more overlap where you need it with less where you don't. So everything about this contemporary design feels just right.

G-XCEL[®] PANTS

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

This low-rise style provides a modern "street" fit and with the added length you need for mobility in the knee and seat to bend, the pants don't ride down. Together with the extended back on the jacket, you can maintain generous overlap even with these lower rise pants.

| NOMEX® belt with dee ring | Reversed closures |
| All mask pouch pockets –
sewn or detachable | Environmental Seal |
| All escape belt pants | Insert Torso pocket |

G-XCEL® LETTERING GUIDELINES

BASED ON SIZE 44

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

- A CHEST** – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).
- B SLEEVE** – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.
- C WAIST** – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applic:
- D INSEAM** – Wearing normal station wear, measure from crotch inner seam to ankle bone.
- E HIPS** – Measure around fullest part of hips.

- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.

B MEASUREMENT
(begin at center of back of neck low diagram as instructions, en midway betwe wrist bone and knuckles)

G-XTREME® 3.0 STYLE JACKET

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

With all the features of our original G-XTREME® including Globe's exclusive AXTION® Back and Sleeve, the new G-XTREME® 3.0 jacket is retailored in the chest, shoulder, and sleeve for even more mobility. The lower collar with a deeper neck opening is more flexible, less restrictive, and better fitting, even with your hood on. And like the original, G-XTREME® 3.0 comes in SHAPES to fit your body better.

G-XTREME® 3.0 LETTERING GUIDELINES

AVERAGE MAXIMUM LETTERS		
Per 1-Line	2"	3"
Row A	12	8
Row B	13	9
Row C	13	9
Row D	13	9
Row E	12	8
Row F	12	8
Row G	12	8

BASED ON SIZE 44

This chart provides basic guidelines for the amount of lettering available in specific locations. It also reflects available space on a 1-line letter patch. In some cases, more room is available when the lettering is applied directly to the back of the Jacket and not on a patch. If more room is required, arching the letters may be a solution.

ZIPPERGRIPPER™ (Optional)

AXTION® Back

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

- A CHEST** – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).
- B SLEEVE** – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.
- C WAIST** – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.
- D INSEAM** – Wearing normal station wear, measure from crotch inner seam to ankle bone.
- E HIPS** – Measure around fullest part of hips.

- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.

B

MEASUREMENT

(begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

IH™ READY, LH, AFL PANTS

OVERSIZE CHARGE – ADD 30% FOR SIZE 60+

Your choice of internal Class 2 Seat Harnesses or a Personal Escape Belt certified to NFPA 1983 (Life Safety Rope and Equipment). Harnesses feature our patented floating leg loop system. Leg loops stay down out of your business except when you load the harness, pulling them up into the correct seat position and equalizing the load. Leg loops are hardware-free so there's nothing to dig into your legs. Made from KEVLAR®, these harnesses meet NFPA 1971 (Structural Fire Fighting) requirements when installed in the pants. Not ready to upgrade to an internal harness? Add it later without alteration.

GLOBE MEASUREMENT INSTRUCTIONS

IMPORTANT: Globe turnouts are custom-tailored and sizes differ from street clothes. Extra care in measuring is needed to assure accurate fit. PLEASE USE ACTUAL MEASUREMENTS AS INDICATED BELOW.

A CHEST – Have firefighter take and hold a deep breath. Measure under arms and around fullest part of chest (bust).

B SLEEVE – **No need to measure** since sleeves are designed proportionate to chest size. However, if unusually short or long arms: bend elbow and hook thumb under belt buckle, and beginning at center of back of neck, measure across top of shoulders, around point of elbow to midpoint from wrist bone to knuckles.

C WAIST – Be sure tools (belt buckles, beepers, etc.) are taken into consideration when applicable.

D INSEAM – Wearing normal station wear, measure from crotch inner seam to ankle bone.

E HIPS – Measure around fullest part of hips.

- ▶ DO NOT take own measurements.
- ▶ Stand straight but relaxed, feet about 12" apart.
- ▶ Wear identical clothing and accessories that will be worn under turnout.
- ▶ Use a high quality non-stretch tape, holding it straight and snug so that it lies smooth without indenting the body. (Be sure you start with low end numbers.)
- ▶ List any special considerations such as unusual height, weight or physical characteristics.

B MEASUREMENT
(begin at center of back of neck, follow diagram and instructions, end midway between wrist bone and knuckles)

Re: 2016 Price Increase

Dear Danny,

Our new **Globe Turnout Gear, Globe Cairns Turnout Gear, RescueGear and FootGear Price Lists** with an effective date of February 1, 2016 are now available on our Globe Dealer ShareFile.

The price increases for turnout gear are higher this year than they have been over the past few years due primarily to fiber cost increases from DuPont. While the increases vary by style and across fabrics, the general range is 3-5% for most items.

Due to these cost increases, we are now pricing the new G-XTREME® 3.0 garments separately from the established G-XTREME® garments. The new G-XTREME® 3.0 pricing is approximately 2% higher than G-XTREME®.

For our RescueGear products (EMSRESCUE and TECHRESCUE) prices are up 2-4%. Footgear prices increased this year by approximately 3% due to higher material and labor costs.

Valid orders received at our plant by end of day January 31st, and with all questions answered by February 7th, will be processed at current prices. Orders received beginning February 1, 2016 will be processed at the new prices unless we have committed to price protection in a written quotation.

We recognize that the magnitude and timing of this year's increases may create some challenges on your end. If you run into issues please contact our customer service team and we will do our best to work with you.

Please remember that our delivery cycles are usually lengthened at price increase time due to the surge of incoming orders, and we ask that you keep this in mind when quoting delivery times to your customers. Thank you for your business. As always, please call us with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Welch", written over a white background.

Donald D. Welch, II

TenCate Protective Fabrics

December 17, 2015

Globe Manufacturing Company, LLC
Mr. Don Welch
37 Loudon Road
Pittsfield, NH 03263

Dear Mr. Welch,

On behalf of all of us at TenCate Protective Fabrics, I would like to thank you for your business in 2015. It is our goal to bring superior value as your supplier as well as providing innovative fabric offerings to the Fire Service market.

This letter is to inform you that we have received a significant price increase from DuPont for fibers used in Fire Service products. Since DuPont fibers are used in virtually every fabric made for the Fire Service, this increase had a significant impact on our costs. We have done everything possible to mitigate the impact of the increase but have no choice but to pass along some to the market.

We are also informing you that PBI has indicated that they are also considering a price increase in the first half of 2016. That increase is not factored into your current pricing and thus it may be revised if they follow through and do in fact raise their price.

Attached is a revised price list for your 2016 program. This new pricing will be effective for all shipments on or after February 1, 2016. Also, our standard terms and conditions can found on our web site at: <http://www.tencateprotectivefabrics.com/usa-terms>.

Please let your customer service representative or I know if you have any questions and as always thank you for supporting TenCate.

Kind regards,

A handwritten signature in black ink, appearing to read 'Eric Baker'.

January 6, 2016

Mr. Don Welch
Globe Manufacturing Company, LLC
37 Loudon Road
Pittsfield, NH 03263

Dear Don:

I am following up on your recent email request regarding Gore's moisture barrier pricing for Calendar 2016. As mentioned in the pricing letter, Gore's moisture barrier laminates for use in NFPA 1971 compliant ensembles had price increases greater than Gore's historical average. The price increase was primarily due to the increase in raw textile prices Gore received from our suppliers.

We appreciate Globe's business and look forward to continue to work closely with you in 2016.

Regards,

A handwritten signature in black ink that reads "Bob Towe".

Mr. Don Welch
Globe Manufacturing, LLC
37 Loudon Road
Pittsfield, NH 03262

Dear Don,

We are announcing a price increase for DuPont™ Nomex® and Kevlar® products sold into the Fire Service market segment. The increase is effective with fiber shipments on January 1, 2016.

This increase will help support our investment in people and technology to address the growing demands in the Fire Service industry and to improve the functionality of our Nomex® and Kevlar® products. These investments involve research on our fiber platforms and in new sub-micron fiber-based sheet structures.

Please be assured that DuPont Protection Technologies values our relationship with you and appreciates your continued use of DuPont products in the solutions you provide to help protect those who protect us.

Best Regards,

DuPont Protection Technologies

- Cadet – Same “body” as Regular, but shorter fingers/thumb
- Special – Shorter fingers/thumb with extended body size
- Small – Fits smaller than “Regular” NFPA sizing
- Unique – Slightly shorter fingers and unique “swing thumb”
- Extra – Fits much larger than “Regular” sizing

GenTex is the only manufacturer of third party certified Aluminized shell material. As the Manufacturer of the fabric they have chosen to exercise their right granted in NFPA 1851 to define how their product is cleaned and warranted. They are now limiting their warranty to 12 months from the date of manufacturer, even when following their exact cleaning and storage guidelines*, and then the warranty only covers the actual cost of the material excluding manufacturing costs.

* Clean only with a soft cloth or sponge and mild soap. Rinse thoroughly. DO NOT MACHINE WASH. Dry by hanging in a well ventilated shaded area. Use a fan to circulate the air. Do not store when wet or with any chemical contamination. Do Not clean with any compounds containing ammonia, chlorine, other oxidizing or abrasive agents. Never store folded.

HD-Reed	Reed 3-Layer – Bronze Pbi™ Outer Shell, Crosstech® on Nomex® Facecloth Moisture Barrier, Platinum Semi-slick Light Batt Aralite Inner Liner	\$ 385.85
HD-Reed3	Reed 2-Layer Bronze Pbi™ Outer Shell, No Moisture Barrier, Platinum Semi-slick Heavy Batt	\$ 283.22

REED HOOD SIZES: Reed Hoods come in sizes from XS through XXXL.

TYPE OF MASKS: The Reed Hood was originally designed to fit SCOTT AV-2000 masks. New production models have been adjusted so they can usually work with both AV-2000 and AV-3000 masks. When properly fitted they can work with many other masks too.

FITTING: Due to variations in head and mask sizes, individuals should be fitted while wearing their actual equipment. Therefore, we will be pleased to exchange any Reed Hoods that are returned in like new, unused condition with the original packaging for Reed Hoods of the same spec and current NFPA Edition, but in a different size. Contact your regional team to pre-arrange this service should you need it.
