WHEREAS, walking is a great form of exercise and reduces carbon emissions; and

WHEREAS, pedestrian safety is very important. Greater awareness of the White Cane Law leads to safer, more attentive driving; and

WHEREAS, according to the 2020 U.S. Census, there are 42,950 people in Palm Beach County who reported having a vision difficulty; and

WHEREAS, the white cane, which every blind citizen of in our city has the right to carry, demonstrates and symbolizes the ability to achieve a full and independent life and the capacity to work productively in competitive employment; and

WHEREAS, the white cane, by allowing every blind person to move freely and safely from place to place, makes it possible for the blind to fully participate in and contribute to our society, and

WHEREAS, every citizen should be aware that the law requires that motorists exercise appropriate caution when approaching a blind person carrying a white cane or guided by a guide dog; and

WHEREAS, drivers must always yield the right-of-way to persons who are blind. When a pedestrian is crossing a street or highway guided by a dog or carrying a white cane (or a white cane with a red tip), vehicles must come to a complete stop; and

WHEREAS, the National Federation of the Blind believes in the full capacity of blind people, and has the power, influence, diversity, and determination to help transform dreams into reality by acknowledging that blindness is not the characteristic that defines a person or their future. Every day the Federation raises the expectations of blind people, because low expectations create obstacles between blind people and their dreams.

Commission Meeting Date: 10/18/2022

Requested Action by Commission:

Proposed Resolution No. R22-146 - Approve a grant adjustment modification (GAM) for the 2020 Edward Byrne Justice Assistance Grant (JAG).

Explanation of Request: The 2020 JAG award was previously approved under Resolution No. R20-131. Due to restrictions during the COVID pandemic, the victim advocate and Officers were not able to obtain the required training needed to implement the previously proposed Empowerment-Based Self-Defense Program. In September 2022, Boynton Beach Police Department submitted a scope change request to the Bureau of Justice Assistance, JAG Program to instead utilize the allotted funding towards the purchase of outer vest carriers for the officers' ballistic vests. The City is respectfully requesting the Commission to approve the Grant Adjustment Modification pending approval of the BJA.

How will this affect city programs or services? There are several practical advantages to the outer vest carrier. The vest is easier to adjust throughout the Officer's shift and can easily be removed while in a safe location to get relief from the heat. More importantly, outer vest carriers are designed to spread out the weight of the gear the officers carry and put less weight and stress on the Officers' hips and back, reducing the chance for injuries. In the event that an officer is injured, an outer vest carrier offers several advantages over the traditional inner vest carrier. The Officer tourniquet and other first-aid items will be easier to access on the outer vest carrier. Should an Officer be injured, the outer vest carrier can be removed more quickly by responding Officers.

Fiscal Impact: There is no fiscal impact to the budget for this item.

Alternatives: Not approve the Grant Award Modification for the drawdown of grant funds.

Strategic Plan: Public Health and Safety

Strategic Plan Application: N/A

Climate Action Application: N/A

Is this a grant? Yes

Grant Amount: \$32,298

Commission Meeting Date: 10/18/2022

Requested Action by Commission:

Proposed Resolution No. R22-147 - Authorize the City Manager to sign all documents associated with the acceptance and subcontract agreement for the Florida Department of Transportation (FDOT) Florida Bicycle Pedestrian Focused Initiative: Communication and High Visibility Enforcement grant.

Explanation of Request:

The Florida Department of Transportation (FDOT) through a grant with the University of North Florida Training and Services Institute, Inc. d/b/a Institute of Police Technology and Management (IPTM); Project #433144-1-8404, Contract #G2A92 utilizes law enforcement support to reinforce safe pedestrian, bicyclist, and driver behaviors in priority counties in Florida. The goal of this effort is to reduce traffic crashes resulting in serious and fatal injuries to pedestrians and bicyclists using high visibility education and enforcement details. The Boynton Beach Police Department (BBPD) is allocated \$9,542.22 toward overtime to support these efforts. Approval of this subcontract will allow BBPD to conduct education and enforcement operations in areas specified as high frequency crash fatality locations for pedestrians and bicyclist. BBPD has a long-standing history of successful programs through FDOT with this award as the first for the Florida Bicycle Pedestrian Focused Initiative subcontract with IPTM.

Previous Years Awarded:

FY 21/22 \$6,831.51

How will this affect city programs or services?

With rapid growth and expansion there comes a need to further enhance our efforts to reduce traffic crashes, fatalities and injuries related to pedestrians and bicyclist through education and enforcement. Pedestrians and bicyclists are more vulnerable than all other road users. Traffic crashes involving pedestrians and bicyclists are more likely to result in fatal or serious injuries than any type of traffic crashes.

Fiscal Impact: There's no fiscal impact to the budget for this item.

Alternatives:

The Police Department would need to rely on the general fund operating budget to support these enhanced public safety activities.

6.A. Consent Agenda 1/19/2021

City of Boynton Beach Agenda Item Request Form

Commission Meeting Date: 1/19/2021

Requested Action by Commission: Proposed Resolution No. R21-013 - Approve utilizing City of Punta Gorda Agreement # R2017112/SVC-TIRES/17/18 with Boulevard Tire Center for the purchase of Recap/Retread Tires for an estimated annual expenditure of \$70,000. The City of Punta Gorda's process satisfies the City's competitive bid requirements.

Explanation of Request:

Contract Term: December 10, 2018 to December 9, 2023

The City intends to utilize this contract to purchase recap/retread tires sizes 11R22.5 and 295/80R22.5 for the City's Fleet. A recap/retread tire is made via the process of placing a new tread on an existing casing. Once a new tire has been used and is in need of replacing, instead of replacing it with a new tire, we send the casing to be recapped/retreaded.

The life cycle of the recap/retread tire is equivalent to a new tire. Cost comparison for the 11R22.5 size between a new tire (\$522.48) versus a recap/retread tire (\$167.62) results in a \$354.86 savings per tire. A casing can be recapped/retreaded a total of three times. The City purchased 319 11R22.5 tires last year.

This agreement has a renewal option for additional (5) five years.

How will this affect city programs or services?

This will enable the purchase of recap/retread tires for the City's fleet at a significant cost savings.

Fiscal Impact: Budgeted

Funds are budgeted and available for account 502-0000-141-0100 for the estimated expenditure of \$70,000.

FY 18/19 expenditures were \$55,973.53 FY 19/20 expenditures were \$57,690.60

Alternatives:

To not approve utilizing this agreement and only purchase new tires.

THIS AGREEMENT IS ENTERED INTO BASED ON THE FOLLOWING REPRESENTATIONS:

WHEREAS, pursuant to Public Law (P.L.) P.L. 115-123 Bipartisan Budget Act of 2018 and Additional Supplemental Appropriations for Disaster Relief Act 2018 (approved February 9, 2018), and P.L. 116-20 Supplemental Appropriations for Disaster Relief Requirements Act, 2019 (approved June 6, 2019), Division B, Subdivision 1 of the Bipartisan Budget Act of 2018, P.L. 115-56, the "Continuing Appropriations Act, 2018"; and the requirements of the Federal Register (FR) notices entitled "Allocations, Common Application, Waivers, and Alternative Requirements for Community Development Block Grant Mitigation Grantees", 84 FR 45838 (August 30, 2019) and "Allocations, Common Application, Waivers, and Alternative Requirements for Community Development Block Grant Disaster Recovery Grantees" (CDBG Mitigation) 86 FR 561 (January 6, 2021); (hereinafter collectively referred to as the "Federal Register Guidance"), the U.S. Department of Housing and Urban Development (hereinafter referred to as "HUD") has awarded Community Development Block Grant-Mitigation (CDBG-MIT) funds to DEO for mitigation activities authorized under Title I of the Housing and Community Development Act of 1974 (HCDA) (42 United States Code (U.S.C.) § 5301 et seq.) and applicable implementing regulations at 24 C.F.R. part 570 and consistent with the Appropriations Act.

WHEREAS, CDBG-MIT funds made available for use by the Subrecipient under this Agreement constitute a subaward of the DEO Federal award, the use of which must be in accordance with requirements imposed by Federal statutes, regulations and the terms and conditions of DEO's Federal award.

WHEREAS, all CDBG-MIT activities carried out by the Subrecipient will: (1) meet the definition of mitigation activities. For the purpose of this funding, mitigation activities are defined as those activities that increase resilience to disasters and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship, by lessening the impact of future disasters; (2) address the current and future risks as identified in DEO's Mitigation Needs Assessment of most impacted and distressed area(s); (3) be CDBG-eligible activities under the HCDA or otherwise eligible pursuant to a waiver or alternative requirement; and (4) meet a national objective, including additional criteria for mitigation activities and a Covered Project.

NOW THEREFORE, DEO and the Subrecipient agree to the following:

The Scope of Work for this Agreement includes Attachment A, Project Description and Deliverables. With respect to Attachment B, Project Budget, and Attachment C, Activity Work Plan, the Subrecipient shall submit to DEO such Attachments in conformity with the current examples attached hereto as necessary and appropriate. Provided further, if there is a disagreement between the Parties, with respect to the formatting and contents of such attachments, then DEO's decisions with respect to same shall prevail, at DEO's sole and absolute discretion.

(2) INCORPORATION OF LAWS, RULES, REGULATIONS AND POLICIES

Subrecipient has diligently reviewed this Agreement and is a sophisticated organization having experience managing projects with funds made available through federal grants. Subrecipient is familiar with DEO's grant agreement with HUD, has reviewed applicable CDBG-MIT regulations and guidelines, will conduct, and will ensure its activities are in compliance with DEO's grant agreement with HUD and all applicable CDBG-MIT regulations and guidelines. (3) PERIOD OF AGREEMENT

This Agreement is effective as of the date DEO executes this Agreement (the "Effective Date") and ends forty-eight (48) months after execution by DEO, unless otherwise terminated as set forth herein.

(4) RENEWAL AND EXTENSION

This Agreement shall not be renewed. DEO shall not grant any extension of this Agreement unless the Subrecipient provides justification satisfactory to DEO in its sole discretion and DEO's Director of the Division of Community Development approves such extension in writing

(5) MODIFICATION OF AGREEMENT

Modifications to this Agreement shall be valid only when executed in writing by the Parties. Any modification request by the Subrecipient constitutes a request to negotiate the terms of this Agreement. DEO may accept or reject any proposed modification based on DEO's sole determination and absolute discretion, that any such acceptance or rejection is in the State's best interest.

they may relate to this Agreement, for the purposes of conducting audits or examinations or making excerpts or transcriptions.

The Subrecipient shall further ensure that audit working papers are available upon request for a period of six (6) years from the date DEO issues the final closeout of this Agreement, unless extended in writing by DEO. The six-year period may be extended for the following reasons:
 - 1. Litigation, claim or audit initiated before the six-year period expires or extends beyond the six-year period, in which case the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
 - 2. Records for the disposition of non-expendable personal property valued at \$1,000 or more at the time of acquisition shall be retained for six (6) years after final disposition.

- (g) The Subrecipient shall either (i) maintain all funds provided under this Agreement in a separate bank account or (ii) ensure that the Subrecipient's accounting system shall have sufficient internal controls to separately track the expenditure of all funds from this Agreement. Provided further, that the only option available for advanced funds is to maintain such advanced funds in a separate bank account. There shall be no commingling of funds provided under this Agreement with any other funds, projects or programs. DEO may, in its sole discretion, disallow costs made with commingled funds and require reimbursement for such costs as described herein, Subparagraph (22)(e), Repayments.
- (h) The Subrecipient, including all of its employees or agents, contractors, subcontractors and consultants to be paid from funds provided under this Agreement, shall allow access to its records at reasonable times to representatives of DEO, the Chief Financial Officer of the State of Florida, the Auditor General of the State of Florida, the Florida Office of Program Policy Analysis and Government Accountability or representatives of the Federal government or their duly authorized representatives. "Reasonable" shall ordinarily mean during normal business hours of 8:00 a.m. to 5:00 p.m., local time, Monday through Friday.

(7) AUDIT REQUIREMENTS

- (a) The Subrecipient shall conduct a single or program-specific audit in accordance with the provisions of 2 CFR part 200 if it expends seven hundred fifty thousand dollars (\$750,000) or more in Federal awards from all sources during its fiscal year.
- (b) Within sixty (60) calendar days of the close of Subrecipient's fiscal year, on an annual basis, the Subrecipient shall electronically submit a completed Audit Compliance Certification to audit@deo.myflorida.com, and DEO's grant manager; a blank version of which is attached hereto as Attachment J. The Subrecipient's timely submittal of one completed Audit Compliance Certification for each applicable fiscal year will fulfill this requirement within all agreements (e.g., contracts, grants,

memorandums of understanding, memorandums of agreement, economic incentive award agreements, etc.) between DEO and the Subrecipient.

- (c) In addition to the submission requirements listed in Attachment I, Audit Requirements, the Subrecipient shall send an electronic copy of its audit report to DEO's grant manager for this Agreement by June 30 following the end of each fiscal year in which it had an open CDBG-MIT subgrant.
- (d) Subrecipient shall also comply with the Federal Audit Clearinghouse rules and directives, including but not limited to the pertinent Report Submissions provisions of 2 C.F.R 200.512, when such provisions are applicable to this Agreement.

(8) REPORTS

Subrecipient shall provide DEO with all reports and information set forth in Attachment G, Reports. The monthly reports and administrative closeout reports must include the current status and progress of Subrecipient and all subcontractors in completing the work described in Attachment A, Scope of Work, and the expenditure of funds under this Agreement. Within 10 calendar days of a request by DEO, Subrecipient shall provide additional program updates or information. Without limiting any other remedy available to DEO, if all required reports and copies are not sent to DEO or are not completed in a manner acceptable to DEO, payments may be withheld until the reports are completed to DEO's satisfaction. DEO may also take other action as stated in Paragraph (13) Remedies or otherwise allowable by law.

(9) INSPECTIONS AND MONITORING

- (a) Subrecipient shall cooperate and comply with DEO, HUD, and auditors with any inspections and will immediately provide access to records and financial statements as deemed necessary by DEO, HUD, and their respective auditors at least in accordance with requirements of 2 CFR part 200 and 24 CFR 570.489.
- (b) Subrecipient shall cooperate and comply with monitoring of its activities as deemed necessary by DEO to ensure that the subaward is used for authorized purposes in compliance with federal statutes, regulations, and this Agreement.
- (c) Without limiting the actions DEO, HUD, or their respective investigators may take, monitoring procedures will include at a minimum: (1) reviewing financial and performance reports required by DEO; (2) following-up and ensuring Subrecipient takes timely and appropriate action on all deficiencies pertaining to the federal award provided to Subrecipient from DEO as detected through audits, on-site reviews and other means; and (3) issuing a management decision for audit findings pertaining to this Federal award provided to Subrecipient from DEO as required by 2 CFR §200.521.
- (d) Corrective Actions: DEO may issue management decisions and may consider taking enforcement actions if noncompliance is detected during audits. DEO may require Subrecipient to take timely and appropriate action on all deficiencies pertaining to the federal award provided to Subrecipient from the pass-through entity as detected through audits, on-site reviews and other means. In response to audit deficiencies or other findings of noncompliance with this agreement, DEO may in its sole discretion and without advance notice, impose additional conditions on the use of the CDBG-MIT funds to ensure future compliance or provide training and technical assistance as needed to correct noncompliance. DEO may also take other action as stated in Paragraph (13) Remedies or otherwise allowable by law.

(10) DUPLICATION OF BENEFITS

Subrecipient shall not carry out any of the activities under this Agreement in a manner that results in a prohibited duplication of benefits as defined by Section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (42 U.S.C. 5155 et seq.) and described in Appropriations Acts. Subrecipient must comply with HUD's requirements for duplication of benefits, as described in the Federal Register and HUD guidance (including HUD training materials). Subrecipient shall carry out the activities under this Agreement in compliance with DEO's procedures to prevent duplication of benefits. Subrecipient shall sign a Subrogation Agreement (See Attachment M).

(11) LIABILITY

- (a) If Subrecipient is a state agency or subdivision, as defined in Section 768.28(2), F.S., pursuant to Section 768.28(19), F.S., neither Party indemnifies nor insures or assumes any liability for the other Party for the other Party's negligence.
- (b) Subrecipient assumes sole responsibility for the training and oversight of the parties it deals with or employs to carry out the terms of this Agreement to the extent set forth in Section 768.28, Florida Statutes. Subrecipient shall hold DEO harmless against all claims of whatever nature arises from the work and services performed by third parties under this Agreement. For purposes of this Agreement, Subrecipient agrees that it is not an employee or agent of DEO but is an independent contractor.
- (c) Subrecipient agrees to be fully responsible for its negligent or tortious acts or omissions, which result in claims or suits against DEO. Subrecipient agrees to be liable for any damages proximately caused by the acts or omissions to the extent set forth in Section 768.28, F.S. Nothing herein shall be construed as consent by DEO to be sued by third parties in any matter arising out of any agreement, contract or subcontract.
- (d) Nothing herein is intended to serve as a waiver of sovereign immunity by DEO or the Subrecipient.

(12) EVENTS OF DEFAULT

If any of the following events occur ("Events of Default"), DEO may, in its sole and absolute discretion, elect to terminate any obligation to make any further payment of funds, exercise any of the remedies available through this Agreement or pursue any remedy at law or in equity, without limitation:

- (a) Any warranty or representation made by Subrecipient, in this Agreement or any previous agreement with DEO, is or becomes false or misleading in any respect, or if Subrecipient fails to keep or perform any of the obligations, terms, or covenants in this Agreement or any previous agreement with DEO or HUD, and/or has not cured them in timely fashion and/or is unable or unwilling to meet its obligations under this Agreement and/or as required by statute, rule, or regulation;
- (b) Any material adverse change occurs in the financial condition of Subrecipient at any time during the term of this Agreement and the Subrecipient fails to cure this adverse change within thirty (30) calendar days from the date written notice is sent by DEO;
- (c) If Subrecipient fails to submit any required report or submits any required report with incorrect, incomplete, or insufficient information or fails to submit additional information as requested by DEO;
- (d) If Subrecipient fails to perform or timely complete any of its obligations under this Agreement, including participating in DEO's Implementation Workshop. The Parties agree that in the event DEO elects to make payments or partial payments after any Events of Default, it does so without waiving the right to exercise any remedies allowable herein or at law and without becoming liable to make any further payment.
- (e) Neither Party shall be liable to the other for any delay or failure to perform under this Agreement if such delay or failure is neither the fault nor the negligence of the Party or its employees or agents and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Party's control or for any of the foregoing that affects subcontractors or suppliers if no alternate source of supply is available. However, in the event of delay from the foregoing causes, the Party shall take all reasonable measures to mitigate any and all resulting delay or disruption in the Party's performance obligation under this Agreement. If the delay is excusable under this paragraph, the delay will not result in any additional charge or cost under the Agreement to either Party. In the case of any delay the Subrecipient believes is excusable under this paragraph, Subrecipient shall notify DEO in writing of the delay or potential delay and describe the cause of the delay either: (1) within ten (10) calendar days after the cause that creates or will create the delay first arose, if Subrecipient could reasonably foresee that

a delay could occur as a result or (2) within five (5) calendar days after the date Subrecipient first had reason to believe that a delay could result, if the delay is not reasonably foreseeable. THE FOREGOING SHALL CONSTITUTE SUBRECIPIENT'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. DEO, in its sole discretion, will determine if the delay is excusable under this paragraph and will notify Subrecipient of its decision in writing. No claim for damages, other than an extension of time, shall be asserted against DEO. Subrecipient shall not be entitled to an increase in the Agreement price or payment of any kind from DEO for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency arising because of delay, disruption, interference or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist, Subrecipient shall perform at no increased cost, unless DEO determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to DEO or the State, in which case, DEO may do any or all of the following: (1) accept allocated performance or deliveries from Subrecipient, provided that Subrecipient grants preferential treatment to DEO with respect to products or services subjected to allocation; (2) purchase from other sources (without recourse to and by Subrecipient for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity or (3) terminate the Agreement in whole or in part.

(13) REMEDIES

If an Event of Default occurs, DEO may in its sole discretion and without limiting any other right or remedy available, provide thirty (30) calendar days written notice to the Subrecipient and if the Subrecipient fails to cure within those thirty (30) calendar days DEO may choose to exercise one or more of the following remedies, either concurrently or consecutively:

- (a) Terminate this Agreement upon written notice by DEO sent in conformity with Paragraph (17) Notice and Contact;
 - (b) Begin any appropriate legal or equitable action to enforce performance of this Agreement;
 - (c) Withhold or suspend payment of all or any part of a request for payment;
- (d) Demand Subrecipient return to DEO any funds used for ineligible activities or unallowable costs under this Agreement or any applicable law, rule or regulation governing the use of the funds; and
 - (e) Exercise any corrective or remedial actions, including but not limited to:
 - 1. Request additional information from the Subrecipient to determine the reasons for or the extent of non-compliance or lack of performance;
 - 2. Issue a written warning to advise that more serious measures may be taken if the situation is not corrected; and/or
 - 3. Advise the Subrecipient to suspend, discontinue or refrain from incurring costs for any activities in question.
 - (f) Exercise any other rights or remedies which may be otherwise available under law.

Pursuit of any of the above remedies does not preclude DEO from pursuing any other remedies in this Agreement or provided at law or in equity. Failure to exercise any right or remedy in this Agreement or failure by DEO to require strict performance does not affect, extend or waive any other right or remedy available or affect the later exercise of the same right or remedy by DEO for any other default by the Subrecipient.

DEO Agreement No.: I0124

(14) DISPUTE RESOLUTION

DEO shall decide disputes concerning the performance of the Agreement, and document dispute decisions in writing and serve a copy of same to Subrecipient. All decisions are final and conclusive unless the Subrecipient files a petition for administrative hearing with DEO within twenty-one (21) days from the date of receipt of the decision. Exhaustion of administrative remedies prescribed in Chapter 120, F.S., is an absolute condition precedent to Subrecipient's ability to pursue any other form of dispute resolution; provided however, that the Parties may mutually agree to employ the alternative dispute resolution procedures outlined in Chapter 120, F.S.

(15) CITIZEN COMPLAINTS

The goal of DEO is to provide an opportunity to resolve complaints in a timely manner, usually within fifteen (15) business days of the receipt of the complaint as expected by HUD, if practicable, and to provide the right to participate in the process and appeal a decision when there is reason for an applicant to believe its application was not handled according to program policies. All applications, guidelines and websites will include details on the right to file a complaint or appeal and the process for filing a complaint or beginning an appeal.

Applicants are allowed to appeal program decisions related to one of the following activities:

- (a) A program eligibility determination,
- (b) A program assistance award calculation, or
- (c) A program decision concerning housing unit damage and the resulting program outcome.

Citizens may file a written complaint or appeal through the Office of Long-Term Resiliency email at CDBG-DR@deo.myflorida.com or submit by postal mail to the following address:

The subrecipient will handle citizen complaints by conducting:

- (a) Investigations as necessary,
- (b) Resolution, and
- (c) Follow-up actions.

If the complainant is not satisfied by Subrecipient's determination, then the complainant may file a written appeal by following the instructions issued in the letter of response. If, at the conclusion of the appeals process, the complainant has not been satisfied with the response, a formal complaint may then be addressed directly to DEO at:

(16) TERMINATION

- (a) DEO may immediately suspend or terminate this Agreement for cause by providing written notice, from the date notice is sent by DEO. Cause includes, but is not limited to: an Event of Default as set forth in this Agreement; Subrecipient's improper or ineffective use of funds provided under this Agreement; fraud; lack of compliance with any applicable rules, regulations, statutes, executive orders, HUD guidelines, policies, directives or laws; failure, for any reason, to timely and/or properly perform any of the Subrecipient's obligations under this Agreement; submission of reports that are incorrect or incomplete in any material respect and refusal to permit public access to any document, paper, letter or other material subject to disclosure under law, including Chapter 119, F.S., as amended. The aforementioned reasons for termination are listed in the immediately preceding sentence for illustration purposes but are not limiting DEO's sole and absolute discretion with respect to DEO's right to terminate this Agreement. In the event of suspension or termination, Subrecipient shall not be entitled to recover any cancellation charges or unreimbursed costs.
- (b) DEO may unilaterally terminate this Agreement, in whole or in part, for convenience by providing Subrecipient fourteen (14) days written notice from the date notice is sent by DEO, setting forth the reasons for such termination, the effective date and, in the case of partial termination, the portion to be terminated. However, if in the case of partial termination, DEO determines that the remaining portion of the award will not accomplish the purpose for which the award was made, DEO may terminate the portion of the award which will not accomplish the purpose for which the award was made. Subrecipient shall continue to perform any work not terminated. In the event of termination for convenience, Subrecipient shall not be entitled to recover any cancellation charges or unreimbursed costs for the terminated portion of work.
- (c) The Parties may terminate this Agreement for their mutual convenience in writing, in the manner agreed upon by the Parties, which must include the effective date of the termination.
- (d) In the event that this Agreement is terminated, Subrecipient shall not incur new obligations under the terminated portion of the Agreement after the date Subrecipient has received the notification of termination. Subrecipient shall cancel as many outstanding obligations as possible. DEO shall disallow all costs incurred after Subrecipient's receipt of the termination notice. DEO may, to the extent authorized by law, withhold payments to Subrecipient for the purpose of set-off until the exact amount of damages due to DEO from Subrecipient is determined.
- (e) Upon expiration or termination of this Agreement, Subrecipient shall transfer to DEO any CDBG-MIT funds on hand at the time of expiration or termination and any accounts receivable attributable to the use of CDBG-MIT funds.
- (f) Any real property under Subrecipient's control that was acquired or improved in whole or in part with CDBG-MIT funds (including CDBG-MIT funds provided to the subrecipient in the form of a loan) in excess of \$25,000 must either:
 - 1. Be used to meet a national objective until five years after expiration or termination of this Agreement, unless otherwise agreed upon by the Parties, or except as otherwise set forth herein; or
 - 2. If not used to meet a national objective, Subrecipient shall pay to DEO an amount equal to the current market value of the property less any portion of the value attributable to expenditures of non-CDBG-MIT funds for the acquisition or improvement of the property for five years after expiration or termination of this Agreement.
- (g) The rights and remedies under this clause are in addition to any other rights or remedies provided by law or under this Agreement.

Failure to identify the legal basis for each exemption from the requirements of Chapter 119, F.S., prior to submittal of the record to DEO serves as the Subrecipient's waiver of a claim of exemption. Subrecipient shall ensure public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Agreement term and following completion of this Agreement if the Subrecipient-contractor does not transfer the records to DEO upon completion, including termination, of this Agreement.

DEO, in its sole discretion, has the right, but not the obligation, to enforce this indemnification provision.
- (k) DEO does not endorse any Subrecipient, commodity, or service. Subject to Chapter 119, F.S., Subrecipient shall not publicly disseminate any information concerning this Agreement without prior written approval from DEO, including, but not limited to, mentioning this Agreement in a press release or other promotional material, identifying DEO or the State as a reference, or otherwise linking Subrecipient's name and either a description of the Agreement or the name of DEO or the State in any material published, either in print or electronically, to any other entity that is not a Party to this Agreement, except potential or actual employees, agents, representatives or subcontractors with the professional skills necessary to perform the work services required by the Agreement.
- (l) Subrecipient shall comply with the requirements set forth in Section 119.0701, F.S., when entering into any public agency contract for services after the Effective Date of this Agreement. Subrecipient shall amend each of the Subrecipient's public agency contracts for services already in effect as of the Effective Date of this Agreement and which contract will or may be funded in whole or in part with any public funds. Activities to mitigate wind damage include:
 - A. Replacement of the eight (8) overhead roll up garage bay doors for fire apparatus access to provide protection for the largest opening(s) in this critical facility, ensuring rescue equipment is functional following a natural or man-made disaster. The project is projected to begin November 1, 2021 and be completed within 48 months after date of execution. The Subrecipient will comply with 24 CFR part 6, which implements the provisions of section 109 of title I of the Housing and Community Development Act of 1974 (Title I) (42 U.S.C. 5309). Section 109 provides that no person in the United States shall, on the ground of race, color, national origin, religion or sex, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any program or activity funded in whole or in part with Federal financial assistance. The Subrecipient will adhere to the prohibitions against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101-6107) (Age Discrimination Act) and the prohibitions against discrimination on the basis of disability under section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) (Section 504). Section 109 of the HCDA makes these requirements applicable to programs or activities funded in whole or in part with CDBG-MIT funds. Thus, the Subrecipient shall comply with regulations of 24 CFR part 8, which implement Section 504 for HUD programs, and the regulations of 24 CFR part 146, which implement the Age Discrimination Act for HUD programs.

b. Architectural Barriers Act and the Americans with Disabilities Act

The Subrecipient shall ensure that its activities are consistent with requirements of Architectural Barriers Act and the Americans with Disabilities Act. The Architectural Barriers Act of 1968 (42 U.S.C. 4151-4157) requires certain Federal and Federally funded buildings and other facilities to be designed, constructed, or altered in accordance with standards that ensure accessibility to, and use by, physically handicapped people. A building or facility designed, constructed or altered with funds allocated or reallocated under this part after December 11, 1995 and meets the definition of "residential structure" as defined in 24 CFR 40.2 or the definition of "building" as defined in 41 CFR 101-19.602(a) is subject to the requirements of the Architectural Barriers Act of 1968 (42 U.S.C. 4151-4157) and shall comply with the Uniform Federal Accessibility Standards (appendix A to 24 CFR part 40 for residential structures, and appendix A to 41 CFR part 101-19, subpart 101-19.6, for general type buildings).

The Americans with Disabilities Act (42 U.S.C. 12131; 47 U.S.C. 155, 201, 218 and 225) (ADA) provides comprehensive civil rights to individuals with disabilities in the areas of employment, public accommodations, State and local government services and telecommunications. It further provides that discrimination includes a failure to design and construct facilities for first occupancy no later than January 26, 1993, that are readily accessible to and usable by individuals with disabilities. Further, the ADA requires the removal of architectural barriers and communication barriers that are structural in nature in existing facilities, where such removal is readily achievable—that is, easily accomplishable and able to be carried out without much difficulty or expense.

c. State and Local Nondiscrimination Provisions

The Subrecipient must comply with the Florida Small and Minority Business Assistance Act (§§ 288.703-288.706, F.S.); Title VI of the Civil Rights Act of 1964 (24 CFR part 1)

(1) General Compliance

The Subrecipient shall comply with the requirements of Title VI of the Civil Rights Act of 1964 (P.L. 88-352), as amended. No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity funded by this agreement. The specific nondiscrimination provisions at 24 CFR 1.4 apply to the use of these funds. The Subrecipient shall not intimidate, threaten, coerce or discriminate against any person for the purpose of interfering with any right or privilege secured by title VI of the Civil Rights Act of 1964 or 24 CFR part 1, or because he has made a complaint, testified, assisted or participated in any manner in an investigation, proceeding or hearing under 24 CFR part 1. The identity of complainants shall

be kept confidential except to the extent necessary to carry out the purposes of 2 CFR part 1, including the conduct of any investigation, hearing or judicial proceeding arising thereunder.

(2) Assurances and Real Property Covenants

As a condition to the approval of this Agreement and the extension of any Federal financial assistance, the Subrecipient assures that the program or activities described in this Agreement will be conducted and the housing, accommodations, facilities, services, financial aid or other benefits to be provided will be operated and administered in compliance with all requirements imposed by or pursuant to this part 1.

If the Federal financial assistance under this agreement is to provide or is in the form of personal property or real property or interest therein or structures thereon, the Subrecipient's assurance herein shall obligate the Subrecipient or, in the case of a subsequent transfer, the transferee, for the period during which the property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits, or for as long as the recipient retains ownership or possession of the property, whichever is longer. In all other cases, the assurance shall obligate the Subrecipient for the period during which Federal financial assistance is extended pursuant to the contract or application. This assurance gives DEO and the United States a right to seek judicial enforcement of the assurance and the requirements on real property.

In the case of real property, structures or improvements thereon, or interests therein, acquired with Federal financial assistance under this Agreement or acquired with CDBG-MIT funds and provided to the Subrecipient under this Agreement, the instrument effecting any disposition by the Subrecipient of such real property, structures or improvements thereon, or interests therein, shall contain a covenant running with the land assuring nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. If the Subrecipient receives real property interests or funds or for the acquisition of real property interests under this Agreement, to the extent that rights to space on, over, or under any such property are included as part of the program receiving such assistance, the nondiscrimination requirements of this part 1 shall extend to any facility located wholly or in part in such space.

d. Affirmative Action

(1) Approved Plan

The Subrecipient agrees that it shall carry out pursuant to DEO's specifications an Affirmative Action Program in compliance with the President's Executive Order 11246 of September 24, 1966, as amended, and implementing regulations at 42 CFR 60. DEO shall provide Affirmative Action guidelines to the Subrecipient to assist in the formulation of such program. The Subrecipient shall submit a plan for an Affirmative Action Program for approval prior to the release of funds under this agreement.

(2) Women- and Minority-Owned Businesses (W/MBE)

The Subrecipient shall take the affirmative steps listed in 2 CFR 200.321(b)(1) through (5) to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible when the Subrecipient procures property or services under this agreement.

(3) Notifications

The Subrecipient will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or worker's representative of the Subrecipient's commitments hereunder, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) Equal Employment Opportunity and Affirmative Action (EEO/AA) Statement

The Subrecipient shall, in all solicitations or advertisements for employees placed by or on behalf of the
Subrecipient, state that it is an Equal Opportunity or Affirmative Action employer.

9. Labor and Employment

Labor Standards

The Subrecipient shall comply with the in labor standards in Section 110 of the Housing and Community Development Act of 1974, as amended and ensure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed in whole or in part with assistance received under this agreement shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 3141, et seq.) and 29 CFR part 1, 3, 5, 6 and 7, provided, that this requirement shall apply to the rehabilitation of residential property only if such property contains not less than 8 units.

The Subrecipient agrees to comply with the Copeland Anti-Kick Back Act (18 U.S.C. 874) and its implementing regulations of the U.S. Department of Labor at 29 CFR part 3 and part 5. The Subrecipient shall maintain documentation that demonstrates compliance with applicable hour and wage requirements. Such documentation shall be made available to DEO for review upon request.

Attachment F - Civil Rights Compliance

Fair Housing

As a condition for the receipt of CDBG-MIT funds, each Subrecipient must certify that it will "affirmatively further fair housing" in its community. A Subrecipient shall demonstrate its commitment to affirmatively further fair housing by implementing the actions listed below.

Each Subrecipient shall do the following:

- 1. Have in place a fair housing resolution or ordinance that covers all Federally protected classes (race, color, familial status, handicap, national origin, religion and sex);
- 2. Designate an employee as the Fair Housing Coordinator who is available during regular business hours to receive fair housing calls;
- 3. Publish the Fair Housing Coordinator's contact information quarterly in a newspaper of general circulation in the Subrecipient's jurisdiction so that people know who to call to ask fair housing questions or register a complaint. Alternatively, the Subrecipient can post the coordinator's contact information throughout the quarter on the home page of its website;
- 4. Establish a system to record the following for each fair housing call:
 - a) The nature of the call,
 - b) The actions taken in response to the call,
 - c) The results of the actions taken and
 - d) If the caller was referred to another agency, the results obtained by the referral agency;
- 5. Conduct at least one fair housing activity each quarter. Identical activities (see examples below) shall not be conducted in consecutive quarters; and
- 6. Display a fair housing poster in the CDBG-MIT Office. (This does not count as a fair housing activity.)

The Subrecipient shall ensure that the fair housing contact person has received training so that he/she can handle fair housing phone inquiries or refer the inquiries to the appropriate people/agencies. Records maintained by the contact will help the community do the following:

- 1. Define where discriminatory practices are occurring,
- 2. Help the community measure the effectiveness of its outreach efforts, and
- 3. Provide the community with a means to gain information that can be used to design and implement strategies that will eliminate fair housing impediments.

Examples of fair housing activities include the following:

- 1. Making fair housing presentations at schools, civic clubs and neighborhood association meetings;
- 2. Conducting a fair housing poster contest or an essay contest;
- 3. Manning a booth and distributing fair housing materials at libraries, health fairs, community events, yard sales and church festivals; and
- Conducting fair housing workshops for city/county employees, realtors, bank and mortgage company employees, insurance agents and apartment complex owners.

Printing a fair housing notice on a utility bill is no longer accepted as a fair housing activity; however, mailing a DEO-approved fair housing brochure as an insert with utility bills will be accepted as an activity. Placing posters in public buildings does not meet the requirement for a fair housing activity.

The Subrecipient shall document its fair housing activities by keeping photographs, newspaper articles, sign-in sheets and copies of handouts in their CDBG-MIT project file and include information about the activities in the comment section of each quarterly report.

Equal Employment Opportunity

As a condition for the receipt of CDBG-MIT funds, each Subrecipient must certify that it and the contractors, subcontractors, subrecipients and consultants that it hires with CDBG-MIT funds will abide by the Equal Employment Opportunity (EEO) Laws of the United States. A Subrecipient shall demonstrate its commitment to abide by the laws through the actions listed below.

Each Subrecipient shall do the following:

- 1. Have in place an equal employment opportunity resolution or ordinance that protects its applicants and employees and the applicants and employees of its contractors, subcontractors, subrecipients and consultants from discrimination in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral and other aspects of employment, on the basis of race, color, religion, sex, national origin, disability, age or genetics;
- 2. Designate an employee as the EEO Coordinator who is available during regular business hours to receive EEO calls;
- 3. Publish the EEO Coordinator's contact information quarterly in a newspaper of general circulation in the Subrecipient's jurisdiction so that people know who to call to ask EEO questions or register a complaint. Alternatively, the Subrecipient can post the coordinator's contact information throughout the quarter on the home page of its website; and
- 4. Establish a system to record the following for each EEO call:
 - a) The nature of the call,
 - b) The actions taken in response to the call and
 - c) The results of the actions taken;
- 5. Each Subrecipient shall maintain a list of certified minority-owned business enterprises (MBE) and womenowned business enterprises (WBE) that operate in its region. The Subrecipient shall use this list to solicit companies to bid on CDBG-MIT-funded construction activities and shall provide a copy of the list to the prime contractor(s) to use when it hires subcontractors and consultants. The Department of Management Services maintains a list of certified minority- and women-owned businesses that can be used to develop a local MBE/WBE list at the following website: https://osd.dms.myflorida.com/directories.
- 6. Incorporate the Equal Employment Opportunity clause set forth in 41 CFR Part 60-1.4(b) into any contracts or subcontracts that meet the definition of "federally assisted construction contract" in 41 CFR 60-1.3.

Section 504 and the Americans with Disabilities Act (ADA)

As a condition for the receipt of CDBG-MIT funds, the Subrecipient must certify that it provides access to all federally funded activities to all individuals, regardless of handicap. The Subrecipient shall demonstrate its commitment to abide by the laws through the actions listed below.

The Subrecipient shall do the following:

- Have in place a resolution or ordinance that is designed to eliminate discrimination against any person who:
 - a) Has a physical or mental impairment which substantially limits one or more major life activities,
 - b) Has a record of such an impairment or
 - c) Is regarded as having such an impairment;
- 2. Designate an employee as the Section 504/ADA Coordinator who is available during regular business hours to receive Section 504/ADA calls;
- 3. Publish the Section 504/ADA Coordinator's contact information quarterly in a newspaper of general circulation in the Subrecipient's jurisdiction so that people know who to call to ask Section 504/ADA questions or register a complaint. Alternatively, the Subrecipient can post the coordinator's contact information throughout the quarter on the home page of its website; and
- 4. Establish a system to record the following for each Section 504/ADA call:
 - a) The nature of the call,
 - b) The actions taken in response to the call and

Page 43 of 60

c) The results of the actions taken.

Section 504 prohibitions against discrimination (see 45 CFR part 84) apply to service availability, accessibility, delivery, employment and the administrative activities and responsibilities of organizations receiving Federal financial assistance. A Subrecipient of Federal financial assistance may not, on the basis of disability:

- 1. Deny qualified individuals the opportunity to participate in or benefit from Federally funded programs, services or other benefits,
- 2. Deny access to programs, services, benefits or opportunities to participate as a result of physical barriers, or
- 3. Deny employment opportunities, including hiring, promotion, training and fringe benefits, for which they are otherwise entitled or qualified.

The ADA regulations (Title II, 28 CFR part 35, and Title III, 28 CFR part 36) prohibit discrimination on the basis of disability in employment, State and local government, public accommodations, commercial facilities, transportation, and telecommunications. To be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability.

Title II covers all activities of state and local governments regardless of the government entity's size or receipt of Federal funding. Title II requires that State and local governments give people with disabilities an equal opportunity to benefit from all of their programs, services and activities (e.g. public education, employment, transportation, recreation, health care, social services, courts, voting and town meetings). State and local governments are required to follow specific architectural standards in the new construction and alteration of their buildings. They also must relocate programs or otherwise provide access in inaccessible older buildings, and communicate effectively with people who have hearing, vision or speech disabilities.

Title III covers businesses and nonprofit service providers that are public accommodations, privately operated entities offering certain types of courses and examinations, privately operated transportation and commercial facilities. Public accommodations are private entities who own, lease, lease to or operate facilities such as restaurants, retail stores, hotels, movie theaters, private schools, convention centers, doctors' offices, homeless shelters, transportation depots, zoos, funeral homes, day care centers and recreation facilities including sports stadiums and fitness clubs. Transportation services provided by private entities are also covered by Title III.

Section 3 - Economic Opportunities for Low- and Very Low-Income Persons

Each Subrecipient shall encourage its contractors to hire qualified low- and moderate-income residents for any job openings that exist on CDBG-MIT-funded projects in the community. The Subrecipient and its contractors shall keep records to document the number of low- and moderate-income people who are hired to work on CDBG-MIT-funded projects. The number of low- and moderate-income residents who are hired to work of the project shall be reported in the comment section of the quarterly report.

The following clause from 24 CFR § 135.38 is required to be included in CDBG-MIT-funded contracts of \$100,000 or more.

Section 3 Clause

- 1. The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. § 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are Subrecipients of HUD assistance for housing.
- 2. The Parties to this contract agree to comply with HUD's regulations in 24 CFR part 135, which implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the part 135 regulations.
- The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or

workers' representative of the contractor's commitments under this Section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

- 4. The contractor agrees to include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.
- 5. The contractor will certify that any vacant employment positions, including training positions, that are filled (1) after the contractor is selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR part 135 require employment opportunities to be directed, were not filled to circumvent the contractor's obligations under 24 CFR part 135.
- 6. Noncompliance with HUD's regulations in 24 CFR part 135 may result in sanctions, termination of this contract for default and debarment or suspension from future HUD assisted contracts.
- 7. With respect to work performed in connection with Section 3 covered Indian housing assistance, Section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. § 450e) also applies to the work to be performed under this contract. Section 7(b) requires that to the greatest extent feasible (i) preference and opportunities for training and employment shall be given to Indians, and (ii) preference in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. Parties to this contract that are subject to the provisions of Section 3 and Section 7(b) agree to comply with Section 3 to the maximum extent feasible, but not in derogation of compliance with Section 7(b).

Financial Management

The Subrecipient's financial management system must comply with the provisions of 2 CFR part 200 (and particularly 2 C.F.R 200.302 titled "Financial Management"), Section 218.33, F.S., and include the following:

- Accurate, current and complete disclosure of the financial results of this project or program.
- Records that identify the source and use of funds for all activities. These records shall contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays, income and interest.
- 3. Effective control over and accountability for all funds, property and other assets. The Subrecipient shall safeguard all assets and assure that they are used solely for authorized purposes.

- 6. Cost accounting records that are supported by backup documentation.

Competition

All procurement transactions must follow the provisions of 2 CFR §§ 200.318-200.327 and be conducted in a manner providing full and open competition. The Subrecipient shall be alert to conflicts of interest as well as noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids or requests for proposals shall be excluded from competing for such procurements. Awards must be made to the responsible and responsive bidder or offeror whose proposal is most advantageous to the program, considering the price, quality and other factors. Solicitations shall clearly set forth all requirements that the bidder or offeror must fulfill in order for the bid or offer to be evaluated by the Subrecipient. Any and all bids or offers may be rejected if there is a sound, documented reason.

Codes of Conduct

The Subrecipient shall maintain written standards of conduct governing the performance of its employees engaged in the award and administration of contracts. No employee, officer or agent shall participate in the selection, award or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated, has a financial or other interest in a tangible personal benefit from a firm considered for a contract. The officers, employees and agents of the Subrecipient shall neither solicit nor accept gratuities, favors or anything of monetary value from contractors or parties to subcontracts. The standards of conduct must provide for disciplinary actions to be applied for violations of the standards by officers, employees or agents of the Subrecipient. (See 2 CFR § 200.318(c)(1).)

Business Hours

The Subrecipient shall have its offices open for business, with the entrance door open to the public, and at least one employee on site at all reasonable times for business. Licensing and Permitting

All contractors or employees hired by the Subrecipient shall have all current licenses and permits required for all of the particular work for which they are hired by the Subrecipient.

Attachment I - Audit Requirements

The administration of resources awarded by DEO to the Subrecipient may be subject to audits and/or monitoring by DEO as described in this section.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR 200 Subpart F - Audit Requirements, and section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEO staff, limited scope audits as defined by 2 CFR §200.425, or other procedures. By entering into this Agreement, the Subrecipient agrees to comply and cooperate with any monitoring procedures or processes deemed appropriate by DEO. In the event DEO determines that a limited scope audit of the Subrecipient is appropriate, the Subrecipient agrees to comply with any additional instructions provided by DEO staff to the Subrecipient regarding such audit. The Subrecipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED. This part is applicable if the Subrecipient is a state or local government or nonprofit organization as defined in 2 CFR §200.90, §200.64, and §200.70.

EXHIBIT 1 to this form lists the federal resources awarded through DEO by this agreement. In determining the federal awards expended in its fiscal year, the Subrecipient shall consider all sources of federal awards, including federal resources received from DEO. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR §200.502-503. An audit of the Subrecipient conducted by the Auditor General in accordance with the provisions of 2 CFR §200.514 will meet the requirements of this Part.
- 2. For the audit requirements addressed in Part I, paragraph 1, the Subrecipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR §\$200.508-512.
- 3. A Subrecipient that expends less than \$750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F Audit Requirements. If the Subrecipient expends less than \$750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from Subrecipient resources obtained from other than federal entities).

PART II: STATE FUNDED. This part is applicable if the Subrecipient is a non-state entity as defined by Section 215.97(2), F.S.

- 1. In the event that the Subrecipient expends a total amount of state financial assistance equal to or in excess of \$750,000 in any fiscal year of such Subrecipient (for fiscal years ending June 30, 2017, and thereafter), the Subrecipient must have a state single or project-specific audit for such fiscal year in accordance with section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for federal program matching requirements.
- For the audit requirements addressed in Part II, paragraph 1, the Subrecipient shall ensure that the audit complies with the requirements of section 215.97(8), F.S. This includes submission of a financial reporting

package as defined by section 215.97(2), F.S., and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the Subrecipient expends less than \$750,000 in state financial assistance in its fiscal year (for fiscal years ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of section 215.97, F.S., is not required. If the Subrecipient expends less than \$750,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of section 215.97, F.S., the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the Subrecipient's resources obtained from other than state entities).

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), F.S., State agencies may conduct or arrange for audits of state financial assistance that are in addition to audits conducted in accordance with Section 215.97, F.S. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to

construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

- (F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

State of Florida Department of Economic Opportunity

Federally Funded Community Development Block Grant Disaster Recovery (CDBG-MIT) Subrogation Agreement

This Subrogation and Assignment Agreement ("Agreement") is made and entered into by and between the City of Boynton Beach, Florida (hereinafter referred to as "Subrecipient"), and the State of Florida, Department of Economic Opportunity (hereinafter referred to as "DEO").

In consideration of Subrecipient's receipt of funds or the commitment by DEO to evaluate Subrecipient's application for the receipt of funds (collectively, the "Grant Proceeds") under the DEO Community Development Block Grant-Mitigation Program (the "CDBG-MIT Program") administered by DEO, Subrecipient hereby assigns to DEO all of Subrecipient's future rights to reimbursement and all payments received from any grant, subsidized loan, lawsuit or insurance policies of any type or coverage or under any reimbursement or relief program related to or administered by the Federal Emergency Management Agency ("FEMA") or the Small Business Administration ("SBA") (singularly, a "Disaster Program" and collectively, the "Disaster Programs") that was the basis of the calculation of Grant Proceeds paid or to be paid to Subrecipient under the CDBG-MIT Program and that are determined in the sole discretion of DEO to be a duplication of benefits ("DOB") as provided in this Agreement.

The proceeds or payments referred to in the preceding paragraph, whether they are from insurance, FEMA or the SBA or any other source, and whether or not such amounts are a DOB, shall be referred to herein as "Proceeds," and any Proceeds that are a DOB shall be referred to herein as "DOB Proceeds." Upon receiving any Proceeds, Subrecipient agrees to immediately notify DEO who will determine in its sole discretion if such additional amounts constitute a DOB. If some or all of the Proceeds are determined to be a DOB, the portion that is a DOB shall be paid to DEO, to be retained and/or disbursed as provided in this Agreement. The amount of DOB determined to be paid to DEO shall not exceed the amount received from the CDBG-MIT Program.

Subrecipient agrees to assist and cooperate with DEO to pursue any of the claims Subrecipient has against the insurers for reimbursement of DOB Proceeds under any such policies. Subrecipient's assistance and cooperation shall include but shall not be limited to allowing suit to be brought in Subrecipient's name(s) and providing any additional documentation with respect to such consent, giving depositions, providing documents, producing record and other evidence, testifying at trial and any other form of assistance and cooperation reasonably requested by DEO. Subrecipient further agrees to assist and cooperate in the attainment and collection of any DOB Proceeds that the Subrecipient would be entitled to under any applicable Disaster Program.

If requested by DEO, Subrecipient agrees to execute such further and additional documents and instruments as may be requested to further and better assign to DEO, to the extent of the Grant Proceeds paid to Subrecipient under the CDBG-MIT Program, the Policies, any amounts received under the Mitigation Programs that are DOB Proceeds and/or any rights thereunder, and to take, or cause to be taken, all actions and to do, or cause to be done, all things requested by DEO to consummate and make effective the purposes of this Agreement.

Subrecipient explicitly allows DEO to request of any company with which Subrecipient held insurance policies, or FEMA or the SBA or any other entity from which Subrecipient has applied for or is receiving Proceeds, any non-public or confidential information determined to be reasonably necessary by DEO to monitor/enforce its interest in the rights assigned to it under this Agreement and give Subrecipient's consent to such company to release said information to DEO.

If Subrecipient (or any lender to which DOB Proceeds are payable to such lender, to the extent permitted by superior loan documents) hereafter receives any DOB Proceeds, Subrecipient agrees to promptly pay such amounts to DEO, if Subrecipient received Grant Proceeds under the CDBG-MIT Program in an amount greater than the amount Subrecipient would have received if such DOB Proceeds had been considered in the calculation of Subrecipient's award.

In the event that the Subrecipient receives or is scheduled to receive any subsequent Proceeds, Subrecipient shall pay such subsequent Proceeds directly to DEO, and DEO will determine the amount, if any, of such subsequent Proceeds that are DOB Proceeds ("Subsequent DOB Proceeds"). Subsequent Proceeds in excess of Subsequent DOB Proceeds shall be returned to the Subrecipient. Subsequent DOB Proceeds shall be disbursed as follows:

- 1. If the Subrecipient has received full payment of the Grant Proceeds, any Subsequent DOB Proceeds shall be retained by DEO.
- 2. If the Subrecipient has received no payment of the Grant Proceeds, any Subsequent DOB Proceeds shall be used by DEO to reduce payments of the Grant Proceeds to the Subrecipient, and all Subsequent DOB Proceeds shall be returned to the Subrecipient.
- 3. If the Subrecipient has received a portion of the Grant Proceeds, any Subsequent DOB Proceeds shall be used, retained and/or disbursed in the following order: (A) Subsequent DOB Proceeds shall first be used to reduce the remaining payments of the Grant Proceeds, and Subsequent DOB Proceeds in such amount shall be returned to the Subrecipient; and (B) any remaining Subsequent DOB Proceeds shall be retained by DEO.
- 4. If DEO makes the determination that the Subrecipient does not qualify to participate in the CDBG-MIT Program or the Subrecipient determines not to participate in the CDBG-MIT Program, the Subsequent DOB Proceeds shall be returned to the Subrecipient, and this Agreement shall terminate.

Once DEO has recovered an amount equal to the Grant Proceeds paid to Subrecipient, DEO will reassign to Subrecipient any rights assigned to DEO pursuant to this Agreement.

Subrecipient represents that all statements and representations made by Subrecipient regarding Proceeds received by Subrecipient shall be true and correct as of the date of the signing of this Agreement.

Warning: Any person who intentionally or knowingly makes a false claim or statement to HUD may be subject to civil or criminal penalties under 18 U.S.C. 287, 1001 and 31 U.S.C. 3729.

~ Remainder of this page is intentionally left blank ~

The person executing this Agreement on behalf of the Subrecipient hereby represents that he\she has received, read, and understands this notice of penalties for making a false claim or statement regarding Proceeds received by Subrecipient.

In any proceeding to enforce this Agreement, DEO shall be entitled to recover all costs of enforcement, including actual attorney's fees.

Commission Meeting Date: 10/18/2022

Requested Action by Commission: Proposed Resolution No. R22-150- Amend various FY 2022-23 Capital Project accounts. This request will adjust budgeted appropriations and revenue sources and provide spending authority for the Capital Improvement Funds (302 & 303) and the Utility Capital Improvement Funds (403 & 404).

Explanation of Request:

The FY 2022-23 Budget was adopted in September 2022. During the new fiscal year that started on October 1, 2022, available capital improvement budget from the prior fiscal year is identified between the months of October thru December. This type of budget amendment is part of the annual budget process. The budget adjustment will increase the Fund's total appropriation, which requires City Commission approval.

The City's capital projects may span multiple years and continue into the following year. Under best budgeting practices and governmental accounting standards, these funds should be re-appropriated to provide the continued spending authority for these projects.

Accordingly, during FY 2022-23 budget modifications will be made to various Funds, see Exhibit A, staff is requesting Commission approval.

- The Capital Improvement Fund will be amended for Fund 302 from \$4,704,427 to \$4,921,527 and Fund 303 will be amended from \$8,807,146 to \$9,138,662, all due to available prior year project budgets.
- The Water & Sewer Utility Capital Funds will be amended for Fund 403 from \$33,330,000 to \$49,777,575 and for Fund 404 from \$250,000 to \$2,650,000 due to prior year available project budget.

How will this affect city programs or services? Allow for the continuance of good and appropriate budgeting practices.

Fiscal Impact: See Exhibit A for a summary of the fiscal impact.

(1) accept or reject any or all Bids, part of Bids, and to waive minor irregularities or variations to specifications contained in Bids, and minor irregularities in the bidding process, and at its discretion, request a re-bid; (2) award the Contract in accordance with the Special Conditions.

In determining the responsiveness of the offer and the responsibility of the Bidder, the following may be considered when applicable: (1) the ability, capacity and skill of the Bidder to perform as required; (2) whether the Bidder can perform promptly, or within the time specified, without delay or interference; (3) the character, integrity, reputation, judgment, experience and efficiency of the Bidder; (4) the quality of past performance by the Bidder; (5) the previous and existing compliance by the Bidder with related laws and ordinances; (6) the sufficiency of the Bidder's financial resources; (7) the availability, quality and adaptability of the Bidder's supplies or services to the required use; and (8) the ability of the Bidder to provide future maintenance, service or parts.

3.3 PRICES QUOTED: Bidder shall deduct trade discounts, and quote firm net prices. If required, the Bidder shall give both unit price and extended total. In the case of a discrepancy in computing the amount of the Bid, the unit price quoted will govern. All prices quoted shall be F.O.B. destination, freight prepaid (Bidder pays and bears freight charges, Bidder owns goods in transit and files any claims), unless otherwise stated in Special Conditions. Each

item must be Bid separately. No attempt shall be made by the Bidder to tie any item or items contained in the ITB with any other business with the City.

An alternate will be considered, but shall be equal to or better in quality to what was specified and must include descriptive literature and/or specifications. PART II TECHNCIAL SPECIFICATIONS

Maps that are provided are for bidders reference only. Maps are attached as Exhibit C herewith and provided to bidders to reflect a drawing or aerial view of areas requiring service. Bidders shall reference map information to identify the parameters of the locations requiring service.

1. <u>Turf Care</u> Maintain turf areas in a healthy, growing, green, trim condition by performing the following operations:

1.1. Mowing general

- Mowing shall be performed in a manner that ensures a smooth surface appearance without scalping or leaving any "missed" uncut grass.
- b. Rotary mowers will be used on St. Augustine grass and Bahia Grass.
- c. All mowers must be adjustable and adjusted to the proper cutting height and level for the kind of grass and the current condition of the turf. Mower blade height adjustment is to be measured from a level floor surface to the parallel and level plane of the mower blade.
- d. All mower blades shall be sharp enough to cut, rather than to tear grass blades.
- e. All litter and debris shall be <u>removed from turf before mowing</u> to avoid shredding and/or damage to persons or property by propelled rocks, cans, etc.
- f. Mowing shall be done carefully so as not to "bark" trees or shrubs, intrude into ground cover beds, damage sodded berms, or cause damage to sprinkler heads, valves, manifolds, time clocks, curbs, or other facilities. Should any of the above listed damage occur, the Contractor will be held financially responsible for replacement or repair.
- g. Grass clipping or debris caused by mowing will be removed from adjacent walks, drives, gutters and curbs or surfaces on the same day as the turf is mowed. Grass clippings or debris shall be removed in such a way as to not cause drift into roadways or adjacent property.
- h. Mowing will not be done when weather or conditions will result in damaged turf.
- Berms must be mowed with <u>small trim mowers</u>. Riding mowers or weed eaters will not be permitted on berms.
- j. The Contractor shall carefully mow around markers and vases that have flowers and/or other objects and complete the area with a String Trimmer.
- k. Mowers should not be driven directly over or on the markers.
- I. Mower should be driven in a slow and consistent manner due to inconsistencies in the ground elevation, in order to prevent scalping the turf.

1.2. Mowing Specifics (St. Augustine Grass)

- a. Grass is never to exceed six (6) inches in height. Never mow lower than three and one half (3 1/2) inches.
- b. Cemetery and Mausoleum areas must be mowed within a three (3) consecutive day period: Wednesday, Thursday and Friday, year- round.
- c. A mowing schedule will be provided to the Contractor monthly and will be followed in strict accordance.
- d. Special attention will be given to all National Holidays to ensure the cemetery is cut and edged two days prior to that holiday.

SPECIAL NOTE: MOWING FREQUENCIES MAY BE DECREASED OR INCREASED DUE TO CLIMATIC FACTORS DETERMINED BY THE CITY.

2. String Trimming, Edging and Blowing

- a. <u>String Trimming</u> Grass shall be string trimmed during, or as an immediate operation following, mowing. Trimming may be accomplished by hand or hand power shears or rotary nylon "fish line" cutting machines. <u>Grass will be trimmed at the same height as adjacent turf is mowed</u>. <u>Trimmings must be removed from around all obstacles in the turf such as posts, trees, walls, and cement medians</u>. Particular attention will be given to trimming around sprinkler heads and other irrigation system fixtures to assure their proper water delivery function.
- b. <u>Edging</u> Mechanical edging (vertical trimming) of all turf edges abutting sidewalks, flush paved surfaces including all road curbs, drives, etc., will be done during or as an immediate operation following, mowing. Turf edging at shrub beds, flower beds, ground cover beds, hedges, or around trees (where "edging" rather than "trimming") is directed shall be edged with a manual or mechanical edger to a neat vertical uniform line. Edging is required with each mowing.

Dirt and debris produced by edging or trimming will be removed completely from site.

Turf will be mechanically edged around all tree rings in lawn areas as directed by City designee. Turf will be mechanically edged approximately ten (10) inches out from the drip line of shrubs and hedges.

Option: (<u>Chemical Edging</u>) Chemical application may be used in addition to mechanical edging, to kill weeds and turf in areas such as planters, areas adjacent to buildings, tree rings, fence lines, and cement medians (concrete divider isles). Prior to application of chemicals, all areas shall be trimmed to proper mowing height. Commission Meeting Date: 10/18/2022

Requested Action by Commission: Approve the purchase of Extreme Networks maintenance, and licensing from STEPcg of Covington, KY in the amount of \$48,841.95, utilizing the State of Florida Alternate Contract Source Number 43220000-NASPO-19-ACS. The State of Florida Alternate Contract complies with the City of Boynton Beach's competitive bid requirements.

Explanation of Request:

Contract Period: October 1, 2019 - September 30, 2024

The Extreme Networks network switches, networking appliances and networking software that the City of Boynton Beach utilizes require firmware updates and licensing to ensure that they are secure and will work with new hardware and software platforms. The Extreme Networks maintenance provides access to these firmware upgrades, advanced hardware replacement, and technical support.

How will this affect city programs or services?

The purchase of Extreme Networks maintenance, and licensing from STEPcg ensures that the City can install new firmware as it is released. In addition, the advanced hardware replacement provided by the maintenance provides either a 4-hour replacement or Next Business Day depending on the plan selected. Most City network switches are on the Next Business Day plan as the ITS Department has spares available. Critical switches are protected with the 4-hour plan. The maintenance also provides phone support to assist in troubleshooting problems that may occur.

Fiscal Impact:

Funding was approved and is available in the following accounts for fiscal year 2022/23.

 Account Number
 Description
 Amount

 City General Fund
 \$40,787.70

 401-2821-536.49-17
 Utility Enterprise Fund
 \$ 8,054.25

Alternatives:

Delay the purchase so the City can issue its own bid request which may not result in a lower purchase cost, and existing licenses would expire in the meantime.

Strategic Plan: Building Wealth in the Community

Strategic Plan Application:

This agenda item helps maintain a high performing organization by protecting investment in network infrastructure equipment and keeping systems up-to-date. Failure to do so would have a negative impact on the use of internal computer servers and systems, and in turn, the services provided to the community.

Embedded Software means one or more software applications which permanently reside on a computing device.

Fulfillment Partner means a third-party contractor qualified and authorized by Contractor, and approved by the Participating State under a Participating Addendum, who may, to the extent authorized by Contractor, fulfill any of the requirements of this Master Agreement including but not limited to providing Services under this Master Agreement and billing Customers directly for such Services. Contractor may, upon written notice to the Participating State, add or delete authorized Fulfillment Partners as necessary at any time during the contract term. Fulfillment Partner has no authority to amend this Master Agreement or to bind Contractor to any additional terms and conditions.

Intellectual Property means any and all patents, copyrights, service marks, trademarks, trade secrets, trade names, patentable inventions, or other similar proprietary rights, in tangible or intangible form, and all rights, title, and interest therein.

Lead State means the State centrally administering any resulting Master Agreement(s).

Master Agreement means the underlying agreement executed by and between the Lead State, acting on behalf of the NASPO ValuePoint program, and the Contractor, as now or hereafter amended.

NASPO ValuePoint is the NASPO Cooperative Purchasing Organization LLC, doing business as NASPO ValuePoint, a 501(c)(3) limited liability company that is a subsidiary organization the National Association of State Procurement Officials (NASPO), the sole member of NASPO ValuePoint. NASPO ValuePoint facilitates administration of the NASPO cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states, the District of Columbia, and territories of the United States. Attachment A: Page 2 of 30

Participating Addendum, a Participating State becomes a Participating Entity; however, a Participating State listed in the Request for Proposal is not required to participate through execution of a Participating Addendum.

Personal Data means data alone or in combination that includes information relating to an individual that identifies the individual by name, identifying number, mark or description can be readily associated with a particular individual and which is not a public record. SLAs should include: (1) the technical service level performance promises, (i.e. metrics for performance and intervals for measure), (2) description of service quality, (3) identification of roles and responsibilities, (4) remedies, such as credits, and (5) an explanation of how remedies or credits are calculated and issued.

NASPO ValuePoint Program Provisions

3. Term of the Master Agreement

a. The initial term of this Master Agreement is for five (5) years. This Master Agreement may be

Attachment A: Page 3 of 30

extended beyond the original contract period for two (2) additional years at the Lead State's discretion and by mutual agreement and upon review of requirements of Participating Entities, current market conditions, and Contractor performance.

b. The Master Agreement may be extended for a reasonable period of time, not to exceed six months, if in the judgment of the Lead State a follow-on, competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection shall not be deemed to limit the authority of a Lead State under its state law otherwise to negotiate contract extensions.

4. Amendments

The terms of this Master Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever without prior written agreement of the Lead State and Contractor.

5. Participants and Scope

- a. Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.
- b. Use of specific NASPO ValuePoint cooperative Master Agreements by state agencies, political subdivisions and other Participating Entities (including cooperatives) authorized by individual state's statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.
- c. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate in through execution of a Participating Addendum. Financial obligations of Participating Entities who are states are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating Entities who are states incur no financial obligations on behalf of other Purchasing Entities. Contractor shall email a fully executed PDF copy of each Participating Addendum to PA@naspovaluepoint.org to support documentation of participation and posting in appropriate data bases.
- d. NASPO Cooperative Purchasing Organization LLC, doing business as NASPO ValuePoint, is not a

Attachment A: Page 4 of 30

party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the NASPO cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states, the District of Columbia and the territories of the United States.

- e. Participating Addenda shall not be construed to amend the following provisions in this Master Agreement between the Lead State and Contractor that prescribe NASPO ValuePoint Program requirements: Term of the Master Agreement; Amendments; Participants and Scope; Administrative Fee; NASPO ValuePoint Summary and Detailed Usage Reports; NASPO ValuePoint Cooperative Program Marketing and Performance Review; NASPO ValuePoint eMarketCenter; Right to Publish; Price and Rate Guarantee Period; and Individual Customers. Any such language shall be void and of no effect.
- f. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the consent to participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.
- g. **Resale**. "Resale" means any payment in exchange for transfer of tangible goods, software, or assignment of the right to services. Subject to any specific conditions included in the solicitation or Contractor's proposal as accepted by the Lead State, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products (the definition of which includes services that are deliverables). Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.

6. Administrative Fees

- a. The Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than sixty (60) days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee shall be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.
- b. Additionally, some states may require an additional fee be paid directly to the state only on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee. The NASPO ValuePoint Administrative Fee in subsection 6a shall be based on the gross amount of all sales (less any charges for taxes or shipping) at the adjusted prices (if any) in Participating Addenda.

Attachment A: Page 5 of 30

7. NASPO ValuePoint Summary and Detailed Usage Reports

In addition to other reports that may be required by this solicitation, the Contractor shall provide the following NASPO ValuePoint reports.

- a. **Summary Sales Data.** The Contractor shall submit quarterly sales reports directly to NASPO ValuePoint using the NASPO ValuePoint Quarterly Sales/Administrative Fee Reporting Tool found at http://calculator.naspovaluepoint.org. Any/all sales made under this Master Agreement shall be reported as cumulative totals by state. Even if Contractor experiences zero sales during a calendar quarter, a report is still required. Reports shall be due no later than thirty (30) days following the end of the calendar quarter (as specified in the reporting tool).

If You are acquiring the Licensed Materials on behalf of any part of the U.S. government, the following provisions apply. The object code and accompanying documentation are deemed to be "commercial computer software" and "commercial computer software documentation," respectively, pursuant to DFAR Section 227.7202 and FAR 12.212(b), as applicable. Product End of Life: Overview

The Extreme Networks Product End of Life Overview is described in this document, which is intended to help customer plan and manage the End of Life process for Extreme products and assist the transition to alternative Extreme products and technology.

The End of Life policy covers the period starting at the End of Sale Notification, and includes End of Sale (EOS), End of Software Maintenance (EOSM), and End of Services Life (EOSL).

The End of Life Policy only applies to End of Sale announcements which are published on or after January 1, 2019. The Policy does not apply to product that is already subject to an End of Life and/or End of Sale announcement; for those products, the dates announced in the respective End of Sale Notifications will continue to apply.

The general policy guidelines are defined below. Note that the exact End of Life schedule for a specific product will be defined in its End of Sale Notification, which may vary from the general guidelines below.

The Support and End of Life Policy describes entitlements which are available for products which are covered by active support contracts. Customers will need to ensure that there is a current and fully paid support contract with Extreme. Please contact your Support Account Manager regarding fees payable during the end-of-life period to ensure access to entitlements described in the End of Life policy. For information regarding Extreme product warranties, please refer to Exhibit 1.

End of Sale Notification

Extreme will typically provide 6 months' notice of the affected product's End of Sale date.

This notice will be published to the Extreme Support website at https://www.extremenetworks.com/support/end-of-saleand-end-of-support-products/.

Customers and Partners should check this site frequently to view any new Notifications, as well as any other information related to the End of Life process.

The End of Sale Notification will define the End of Sale date, End of Software Maintenance date, and End of Services Life date for the products specified in the Notification. The dates defined in the End of Sale Notification will supersede the general policy guidelines defined in this document.

End of Sale

The product End of Sale (EOS) date is the last date that a product is available for sale through Extreme systems, while supplies last. Product availability is not guaranteed through the End of Sale date, and products will be provided while supplies last.

End of Software Maintenance

The End of Software Maintenance (EOSM) date is the last date that Extreme will release any maintenance or patch releases for a specific major software revision. During the Software Maintenance period, Extreme reserves the right to determine which defects will be fixed. Note that a software upgrade to a later release may be necessary to correct a reported problem.

The table below defines the End of Software Maintenance period after End of Sale.

Software	End of Software Maintenance (EOSM) (Note 1, Note 2)
Applications	12 Months after End of Sale
WING OS	24 Months after End of Sale
Extreme Wireless OS	24 Months after End of Sale
EXOS OS	24 Months after End of Sale
BOSS/ERS OS	24 Months after End of Sale
VOSS/VSP OS	24 Months after End of Sale
SLX, NOS, NI	36 Months after End of Sale

Note 1: End of Software Maintenance policy applies to products after their EOS date Note 2: Products with End of Sale announcements published prior to 1/1/2019 should refer to the published End of Sale Notification for EOSM and EOSL dates.

After EOSM for a period of 12 additional months Extreme may provide security/PSIRT patches for critical issues at its sole discretion.

End of Services Life

The End of Service Life (EOSL) date is the last date to receive service and support for the product. After this date, all support services for the product are unavailable, and the product becomes obsolete and software and other product related information will be removed from the Extreme support website.

Access to Extreme's Global Technical Assistance Center (GTAC) will be available for a period of 5 years from the End of Sale date for hardware and embedded operating system software issues and for a period of 3 years from the End of Sale date for application software issues. Note that a software upgrade to a later release may be necessary to correct a reported problem.

Access to Software releases will be available for a period of 5 years from the End of Sale date for embedded Operating System software, and for a period of 3 years from the End of Sale date for application software. Following the EOSL date, software may be removed from the Extreme support website.

Spares or replacement parts for hardware will be available for a period of 5 years from the End of Sale date. Extreme will replace the failed unit with either a new or previously used product which is equivalent to new in performance and reliability. Extreme may replace the failed unit with a product which is, in Extreme's sole opinion, equivalent to an original product that has been discontinued or is otherwise not available.

Such Records will be maintained in accordance with standard business practices and Generally Accepted Accounting Principles. Company will permit Extreme, or persons designated by Extreme, at Extreme's cost, to audit the Records to ensure compliance by Company with its obligations to Extreme. Any such audit shall be conducted during regular business hours and in such a manner as to not unduly interfere with normal business activities of Company. If the audit reveals an underpayment of amounts owed to Extreme, Company will promptly pay any such shortfall, and if such underpayment is more than 5% for the audited period, Company will further pay, or reimburse Extreme for, the cost of the audit, including professional fees.
- Return Process. If Company is returning a Product to Extreme, Company must first obtain a 8. Return Material Authorization ("RMA") number from Extreme. Company must return the entire contents of the defective Product and dated End User proof of purchase for the defective Product, if requested by Extreme, marked with the RMA number, to a receiving point designated by Extreme. Shipping cartons that are not marked with RMA numbers will be rejected by Extreme and returned to Company via collect freight. Notwithstanding the foregoing, Company retains sole responsibility for risk of loss or damage to Products during shipment to and from Extreme. Products returned to Extreme may be repaired or replaced by Extreme at Extreme's sole discretion. Replacement Products may be new or refurbished Products. In the event that Extreme evaluates and determines there is "no trouble found" in greater than twenty-five percent (25%) of the Products or parts returned in a ninety (90) day period, Extreme reserves the right to charge Company a service charge of twenty percent (20%) of the List Price per unit.
- 9. Ownership of Intellectual Property Rights; License; Non-Disclosure.
 - 9.1 Intellectual Property Rights. You and Company acknowledge that the Products are proprietary to Extreme and its suppliers, and that Extreme and its suppliers retain exclusive ownership of all Intellectual Property Rights in and to the Products, including in and to any Software Products and Trademarks. IN NO EVENT WILL EXTREME BE LIABLE FOR THE COST OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES.
- 13. Limitation on Liability. - 14.3 The Service Specifications applicable to Your order define the administrative, physical, technical and other safeguards applied to Your Content residing in the Services Environment, and describe other aspects of system management applicable to the Services. You are responsible for the introduction of any security vulnerabilities, and the consequences of such vulnerabilities, arising from Your Content and Your Applications, including any viruses, Trojan horses, worms or other programming routines contained in Your Content or Your Applications that could limit or harm the functionality of a computer or that could damage, intercept or expropriate data.
- 14.4 You may not provide Extreme access to health, payment card or similarly sensitive personal information that imposes specific data security obligations for the processing of such data unless explicitly agreed between the parties. - 15.4 Injunctive Relief. It is expressly agreed that a violation of Sections 4.3 ("Restrictions on Copying and Reverse Engineering"), 4.4 ("No Removal of Markings"), or 9 ("Ownership of Intellectual Property Rights; License; Non-Disclosure") of this Agreement could cause irreparable harm to Extreme and that a remedy at law could be inadequate. Company shall indemnify and hold harmless Extreme for any violation or alleged violation by Company of such laws or regulations. Company's obligations pursuant to this Section shall survive and continue after any termination of rights under this Agreement.
- 15.9 Force Majeure. Neither party will have the right to claim damages if this Agreement is terminated as a result of the other party's failure or delay in performance due to circumstances beyond its reasonable control (except for obligations relating to fees payable under this Agreement), including, but not limited to, labor disputes, strikes, lockouts, shortages of or inability to obtain labor, energy, components, raw materials or supplies, war, riot, insurrection, epidemic, natural disasters, governmental action or terrorism.

- 3. The data subject can enforce against the sub-processor this Clause, Clause 5(a) to (e) and (g), Clause 6, Clause 7, Clause 8(2), and Clauses 9 to 12, in cases where both the data exporter and the data importer have factually disappeared or ceased to exist in law or have become insolvent, unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law as a result of which it takes on the rights and obligations of the data exporter, in which case the data subject can enforce them against such entity. Such third-party liability of the sub-processor shall be limited to its own processing operations under the Clauses.
- 4. The parties do not object to a data subject being represented by an association or other body if the data subject so expressly wishes and if permitted by national law.

Clause 4

Obligations of the data exporter

The data exporter agrees and warrants:

(a) that the processing, including the transfer itself, of the personal data has been and will continue to be carried out in accordance with the relevant provisions of the applicable data protection

- law (and, where applicable, has been notified to the relevant authorities of the Member State where the data exporter is established) and does not violate the relevant provisions of that State;
- (b) that it has instructed and throughout the duration of the personal data-processing services will instruct the data importer to process the personal data transferred only on the data exporter's behalf and in accordance with the applicable data protection law and the Clauses;
- (c) that the data importer will provide sufficient guarantees in respect of the technical and organizational security measures specified in Appendix 2 to this contract;
- (d) that after assessment of the requirements of the applicable data protection law, the security measures are appropriate to protect personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorized disclosure or access, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing, and that these measures ensure a level of security appropriate to the risks presented by the processing and the nature of the data to be protected having regard to the state of the art and the cost of their implementation;
- (e) that it will ensure compliance with the security measures;
- (f)that, if the transfer involves special categories of data, the data subject has been informed or will be informed before, or as soon as possible after, the transfer that its data could be transmitted to a third country not providing adequate protection within the meaning of Directive 95/46/EC;
- (g) to forward any notification received from the data importer or any sub-processor pursuant to Clause 5(b) and Clause 8(3) to the data protection supervisory authority if the data exporter decides to continue the transfer or to lift the suspension;
- (h) to make available to the data subjects upon request a copy of the Clauses, with the exception of Appendix 2, and a summary description of the security measures, as well as a copy of any contract for sub-processing services which has to be made in accordance with the Clauses, unless the Clauses or the contract contain commercial information, in which case it may remove such commercial information;
- (i) that, in the event of sub-processing, the processing activity is carried out in accordance with Clause 11 by a subprocessor providing at least the same level of protection for the personal data and the rights of data subject as the data importer under the Clauses; and
- (i) that it will ensure compliance with Clause 4(a) to (i).

Clause 5

Obligations of the data importer (2)

The data importer agrees and warrants:

- (a)to process the personal data only on behalf of the data exporter and in compliance with its instructions and the Clauses; if it cannot provide such compliance for whatever reasons, it agrees to inform promptly the data exporter of its inability to comply, in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;
- (b)that it has no reason to believe that the legislation applicable to it prevents it from fulfilling the instructions received from the data exporter and its obligations under the contract and that in the event of a change in this legislation which is likely to have a substantial adverse effect on the

warranties and obligations provided by the Clauses, it will promptly notify the change to the data exporter as soon as it is aware, in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;

(c) that it has implemented the technical and organizational security measures specified in Appendix 2 before processing the personal data transferred;

(d)that it will promptly notify the data exporter about:

- (i) any legally binding request for disclosure of the personal data by a law enforcement authority unless otherwise prohibited, such as a prohibition under criminal law to preserve the confidentiality of a law enforcement investigation;
- (ii) any accidental or unauthorized access; and
- (iii) any request received directly from the data subjects without responding to that request, unless it has been otherwise authorized to do so;
- (e)to deal promptly and properly with all inquiries from the data exporter relating to its processing of the personal data subject to the transfer and to abide by the advice of the supervisory authority with regard to the processing of the data transferred;
- (f) at the request of the data exporter to submit its data-processing facilities for audit of the processing activities covered by the Clauses which shall be carried out by the data exporter or an inspection body composed of independent members and in possession of the required professional qualifications bound by a duty of confidentiality, selected by the data exporter, where applicable, in agreement with the supervisory authority;
- (g)to make available to the data subject upon request a copy of the Clauses, or any existing contract for sub-processing, unless the Clauses or contract contain commercial information, in which case it may remove such commercial information, with the exception of Appendix 2 which shall be replaced by a summary description of the security measures in those cases where the data subject is unable to obtain a copy from the data exporter;
- (h)that, in the event of sub-processing, it has previously informed the data exporter and obtained its prior written consent; (i) that the processing services by the sub-processor will be carried out in accordance with Clause 11;
- (j) to send promptly a copy of any sub-processor agreement it concludes under the Clauses to the data exporter.

Clause 6 Liability

- 1. The parties agree that any data subject, who has suffered damage as a result of any breach of the obligations referred to in Clause 3 or in Clause 11 by any party or sub-processor is entitled to receive compensation from the data exporter for the damage suffered.
- 2. If a data subject is not able to bring a claim for compensation in accordance with paragraph 1 against the data exporter, arising out of a breach by the data importer or his sub-processor of any of their obligations referred to in Clause 3 or in Clause 11, because the data exporter has factually disappeared or ceased to exist in law or has become insolvent, the data importer agrees that the data subject may issue a claim against the data importer as if it were the data exporter, unless any

successor entity has assumed the entire legal obligations of the data exporter by contract of by operation of law, in which case the data subject can enforce its rights against such entity.

The data importer may not rely on a breach by a sub-processor of its obligations in order to avoid its own liabilities.

3. If a data subject is not able to bring a claim against the data exporter or the data importer referred to in paragraphs 1 and 2, arising out of a breach by the sub-processor of any of their obligations referred to in Clause 3 or in Clause 11 because both the data exporter and the data importer have factually disappeared or ceased to exist in law or have become insolvent, the sub-processor agrees that the data subject may issue a claim against the data sub-processor with regard to its own processing operations under the Clauses as if it were the data exporter or the data importer, unless any successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law, in which case the data subject can enforce its rights against such entity. The liability of the subprocessor shall be limited to its own processing operations under the Clauses.

Clause 7

Mediation and jurisdiction

- The data importer agrees that if the data subject invokes against it third-party beneficiary rights and/or claims compensation for damages under the Clauses, the data importer will accept the decision of the data subject: (a) to refer the dispute to mediation, by an independent person or, where applicable, by the supervisory authority; (b) to refer the dispute to the courts in the Member State in which the data exporter is established.
- 2. The parties agree that the choice made by the data subject will not prejudice its substantive or procedural rights to seek remedies in accordance with other provisions of national or international law.

Clause 8

Cooperation with supervisory authorities

- 1. The data exporter agrees to deposit a copy of this contract with the supervisory authority if it so requests or if such deposit is required under the applicable data protection law.
- 2. The parties agree that the supervisory authority has the right to conduct an audit of the data importer, and of any subprocessor, which has the same scope and is subject to the same conditions as would apply to an audit of the data exporter under the applicable data protection law.
- 3. The data importer shall promptly inform the data exporter about the existence of legislation applicable to it or any subprocessor preventing the conduct of an audit of the data importer, or any sub-processor, pursuant to paragraph 2. In such a case the data exporter shall be entitled to take the measures foreseen in Clause 5(b).

Clause 9

Governing law

The Clauses shall be governed by the law of the Member State in which the data exporter is established, namely ...

Clause 10

Variation of the contract

The parties undertake not to vary or modify the Clauses. This does not preclude the parties from adding clauses on business related issues where required as long as they do not contradict the Clause.

Clause 11

Sub-processing

- 1. The data importer shall not subcontract any of its processing operations performed on behalf of the data exporter under the Clauses without the prior written consent of the data exporter. Where the data importer subcontracts its obligations under the Clauses, with the consent of the data exporter, it shall do so only by way of a written agreement with the sub-processor which imposes the same obligations on the sub-processor as are imposed on the data importer under the Clauses (3). Where the sub-processor fails to fulfil its data protection obligations under such written agreement the data importer shall remain fully liable to the data exporter for the performance of the sub-processor's obligations under such agreement.
- 2. The prior written contract between the data importer and the sub-processor shall also provide for a third-party beneficiary clause as laid down in Clause 3 for cases where the data subject is not able to bring the claim for compensation referred to in paragraph 1 of Clause 6 against the data exporter or the data importer because they have factually disappeared or have ceased to exist in law or have become insolvent and no successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law. Such third-party liability of the sub-processor shall be limited to its own processing operations under the Clauses.
- 3. The provisions relating to data protection aspects for sub-processing of the contract referred to in paragraph 1 shall be governed by the law of the Member State in which the data exporter is established, namely ...
- 4. The data exporter shall keep a list of sub-processing agreements concluded under the Clauses and notified by the data importer pursuant to Clause 5(j), which shall be updated at least once a year. The list shall be available to the data exporter's data protection supervisory authority.

Clause 12

Obligation after the termination of personal data-processing services

1. The parties agree that on the termination of the provision of data-processing services, the data importer and the subprocessor shall, at the choice of the data exporter, return all the personal

data transferred and the copies thereof to the data exporter or shall destroy all the personal data and certify to the data exporter that it has done so, unless legislation imposed upon the data importer prevents it from returning or destroying all or part of the personal data transferred. In that case, the data importer warrants that it will guarantee the confidentiality of the personal data transferred and will not actively process the personal data transferred anymore.

2. The data importer and the sub-processor warrant that upon request of the data exporter and/or of the supervisory authority, it will submit its data-processing facilities for an audit of the measures referred to in paragraph 1.

(2) Mandatory requirements of the national legislation applicable to the data importer which do not go beyond what is necessary in a democratic society on the basis of one of the interests listed in

(1) Parties may reproduce definitions and meanings contained in Directive 95/46/EC within this

national security, defense, public security, the prevention, investigation, detection and prosecution of criminal offences or of breaches of ethics for the regulated professions, an important economic or financial interest of the State or the protection of the data subject or the rights and freedoms of others, are not in contradiction with the standard contractual clauses. Some examples of such mandatory requirements which do not go beyond what is necessary in a democratic society are, inter alia, internationally recognized sanctions, tax-reporting requirements or anti-money-laundering reporting requirements.

General Controls & Governance

Extreme Networks takes a comprehensive approach to Information Security, including data protection and SDLC. The tone is set from the top with an executive sponsored InfoSec Steering Committee whose responsibilities include policy oversight, incident response review, strategy alignment, and performance management. The governing body has representation from all key business functions.

Access

All access is controlled by a centrally-integrated UAM ecosystem driven by HR. All access is based on a "least privileged" basis down to the role level within applicable applications.

Any access to a system, part of a system, or data is strictly controlled on a "needs only" basis in association with the person's role and responsibilities within the organization. All access control principles are detailed in our Information Security Policies and guidelines. These policies cover prohibited acts, such as copying, reading and access of any data that is not directly connected to the person's role.

All access to systems, as stated previously, is controlled per role. Shared accounts are strictly prohibited. Application logging is used as applicable.

Personnel

Extreme endeavors to ensure that only the best talent is part of the Extreme family. As part of this mandate, we take reasonable steps to ensure that no person is appointed to a position unless that person: a) Is competent and qualified to perform the specific tasks assigned to them;

- b) Has been instructed in the requirements relevant to the performance of the obligations of their role, including the handling of personal data; and
- c) Has signed a non-disclosure or other confidentiality agreement that applies to not just to Extreme confidential information, but also to confidential information of Extreme's customers and other third parties that we receive in confidence.

Physical Security

All media destruction is governed by Extreme's digital disposal policy. This complements the data retention policy on when and for how long data should be retained within the organization. All core systems within the enterprise are covered by back-up solutions allowing for retrieval of accidentally deleted data.

All locations are badge controlled with access only granted on a needs basis.

Incident Management

Extreme takes seriously any security incident that could impact Extreme assets, whether physical or virtual. In line with regulatory and contractual requirements, we focus in particular on data security and rapid assessment of whether any security incident could impact or has impacted confidential data, including personal data.

All InfoSec team members undergo regular training on the latest tools and technologies.

Data Protection

Extreme policy mandates that all corporate data, including that of our customers and partners, must only be stored on corporate systems that are fully backed up and protected. All network and system events are tracked and monitored as part of our centralized InfoSecOp's management program. Full logging is in place as applicable to facilitate monitoring and investigations.

The environment is protected from common threats using industry standard approaches including, but not limited to:

- Web application firewalls
- Intrusion detection and prevention systems
- Infrastructure vulnerability scanning
- Penetration testing
- Web application vulnerability scanning

The content of all Releases shall be decided upon by Extreme in its sole discretion. Updates for Products for which Company has an active contract for Services shall be provided to Company at no additional charge during the term of this Agreement. Extreme shall impose additional charges for Upgrades. Company shall install only one (1) copy of a Release for each Product under an active contract for Services, and Company is prohibited from installing Releases on any Product which is not covered under an active contract for Services.
- 2.2 Corrections. Extreme shall use commercially reasonable efforts to provide a correction or workaround for any reported and reproducible Defect in any Product for which Services have been purchased with a level of effort commensurate with the severity level; provided that Extreme shall have no obligation to correct all Defects in the Products. Company shall notify Extreme TAC of the nature and severity of such Defect and the specific serial number of the applicable Product, and provide Extreme with enough information to locate and reproduce the Defect. Extreme shall not be responsible for correcting any Defect not attributable to Products or any Defect listed under Section 3 ("Exclusions").
- 3. Exclusions. The Services provided by Extreme hereunder will not include support and maintenance of any third-party software or hardware not provided by Extreme. Extreme is not required to provide any services for problems arising out of: (i) Company's failure to implement all Updates issued under the Services; (ii) alterations of or additions to the Products performed by parties other than Extreme; (iii) accident, natural disasters, terrorism, negligence, or misuse of the Products (such as, without limitation, operation outside of environmental specifications or in a manner for which the Products were not designed); (iv) interconnection of the Products with other products not supplied by Extreme, or (v) certain components, including but not limited to the following: spare fan trays, blank panels, cables, cable kits, rack mount kits, brackets, antennas, GBICs and miniGBICs. Extreme shall only be obligated to support the then-current revision of the Products and the immediately prior revision. Support for any earlier versions or for other problems not covered under the Services may be obtained at Extreme's then-current rates for special technical services and on Extreme's then-current terms and conditions for such services, subject to acceptance by Extreme at its sole discretion.

4. Company Obligations.

- 4.1 Company Assistance. Company agrees to provide Extreme with reasonable access to the Products for which problems are reported and all back-ups and Company information services, technical personnel, facilities, and premises as required in connection with the performance of the Services. To efficiently resolve problems and perform local hardware diagnostics, Company shall provide modem level access for all Company sites. Company may provide passwords and/or activate the modem when needed. Company shall be responsible for any and all cables, hardware or software not provided by Extreme. Company's failure to provide such access or information may delay the Services and/or result in Extreme's inability to perform the Services; in such cases, Extreme shall not be liable for any consequences relating to or resulting from such delay or failure to perform.
- 4.2 Contact People. Company shall appoint at least two (2) individuals who have been trained and are knowledgeable on Extreme products within Company's organization to serve as the primary contacts between Company and Extreme and to receive support as provided herein. Company shall provide and shall update as appropriate contact information for the primary contacts, including address, phone number and email address. All of Company's support inquiries shall be initiated through these primary contacts.

- 4.3 Restrictions on Copying and Reverse Engineering. As a material consideration for this Agreement, Company expressly agrees not to translate, disassemble, reverse compile or reverse engineer the Products, including the Software Products, in whole or in part, except to the extent such prohibition is restricted by applicable law. Company will not copy, modify, create derivative works, rent, lease, loan or use for timesharing or service bureau purposes any Products, including Software Products, in whole or in part without the prior written approval of Extreme, which approval may be withheld in Extreme's sole discretion.
- 4.4 No Removal of Markings. Company agrees to comply with all legends that appear on or in the Products and not to remove or destroy any patent, copyright, logo, trademark, trade name, proprietary marking, or confidentiality legend placed upon or contained within Products, containers or End User Documentation supplied by Extreme.
- 5. Ordering and Payment Terms.
- 5.1 Orders.
- 5.1.1 The terms and conditions of this Agreement will apply to any and all purchase orders submitted by Company and will supersede any different or additional terms on Company's purchase orders.
- 5.1.2 Each purchase order must be acknowledged and accepted by Extreme in writing prior to Extreme incurring any obligation under such purchase order. Extreme reserves the right to reject any order.
- 5.1.3 In countries where Services are available from Extreme, Company may purchase a Support Plan set forth on Extreme's then-current Price List by submitting an order for such Support Plan either at the time of the purchase of the Product to which it relates or at any time thereafter, subject to Section 5.2 ("Reinstatement and Inspection"), Section 6 ("Support for End of Life") and Extreme's acceptance of such order at its sole discretion. Company shall be responsible for any other travel and living expenses incurred in connection with the Services or on-site Service calls that are not expressly included in Company's applicable Support Plan.
- 5.1.4 Each order of one Support Plan is only valid for a single unit or units of the Product for which Service is purchased and paid for. All orders for Services must include the location where the Services will be provided, the Support Plan being purchased and the model number and serial number of the Product to be supported or such information must be provided to Extreme in writing promptly following the purchase of the Services. Extreme will not be obligated to provide Services for a Product unless Extreme has received such information.
- 5.1.5 All orders for Services placed with Extreme will be non-cancelable, and all support fees and training fees, if applicable, paid to Extreme shall be non-refundable.
- 5.2 Reinstatement and Inspection. If Services are not ordered concurrently with any Product orders or are not promptly renewed each year, Extreme may, at its option, commence such Services upon payment of the applicable support fee and a reinstatement fee. If a Product is purchased in used condition, Extreme may, at its option, inspect the Product and commence Services for such Product upon payment of the applicable support fee, a reinstatement fee and Extreme's inspection fee.
- 5.3 Purchases from Extreme. If Company is purchasing the Services directly from Extreme, Extreme's terms and conditions of sale and service shall apply to such purchase. These terms and conditions can be found at http://extremenetworks.com/company/legal/terms-of-sales/.

- Purchases from Authorized Reseller. If Company is purchasing the Services from an Authorized Reseller, notwithstanding the above, the payment terms set forth in Company's agreement with the Authorized Reseller shall govern; provided, however, in the event the Company's Authorized Reseller defaults on its payment obligations to Extreme for the Services, then You or Company's Use of the Services may be suspended without notice, until such time as the Authorized Reseller cures the breach, or the Company elects to contract for Services directly with Extreme. All other terms of this Agreement shall remain in full force and effect, and any other conflicting, additional or different terms set forth in an agreement between the Company and an Authorized Reseller are superseded by this Agreement and shall be entirely unenforceable against Extreme.
- 6. Support for End of Life.
- 6.1 Product End of Life. In the event Extreme discontinues or otherwise ceases to make available to its customers a particular Product model number, Extreme will continue to offer Services for such Product in accordance with its then-current End of Life Policy available at https://www.extremenetworks.com/support/end-of-sale-and-end-of-support-products/. The Services shall remain in effect with respect to other Products, if any, then covered.
- 6.2 Support Plan End of Life. Extreme reserves the right to discontinue any Support Plan in its sole discretion upon sixty (60) days' notice, by email, notification on Extreme's website, or any other method permitted under this Agreement, to Company; however, Extreme will continue to provide services under such discontinued Support Plan through the end of any prepaid support period so long as You and/or the Company is not in breach of any of its obligations under this Agreement.
- 7. Records and Audit. Company agrees to maintain complete, clear and accurate records relating to its activities under this Agreement, including, without limitation, its inventory and sales of each Product and Service (including reseller and end user information) (the "Records"), and retain such Records for such time period as may be required by law and commercially reasonable prudent practices, but not less than two (2) years. Such Records will be maintained in accordance with standard business practices and Generally Accepted Accounting Principles. Company will permit Extreme, or persons designated by Extreme, at Extreme's cost, to audit the Records to ensure compliance by Company with its obligations to Extreme. Any such audit shall be conducted during regular business hours and in such a manner as to not unduly interfere with normal business activities of Company. If the audit reveals an underpayment of amounts owed to Extreme, Company will promptly pay any such shortfall, and if such underpayment is more than 5% for the audited period, Company will further pay, or reimburse Extreme for, the cost of the audit, including professional fees.
- 8. Return Process. If Company is returning a Product to Extreme, Company must first obtain a Return Material Authorization ("RMA") number from Extreme. Company must return the entire contents of the defective Product and dated End User proof of purchase for the defective Product, if requested by Extreme, marked with the RMA number, to a receiving point designated by Extreme. Shipping cartons that are not marked with RMA numbers will be rejected by Extreme and returned to Company via collect freight. Extreme will pay the transportation charges (excluding taxes, duties and customs) in accordance with the Support Plan purchased for such Product. Notwithstanding the foregoing, Company retains sole responsibility for risk of loss or damage to Products during shipment to and from Extreme. Products returned to Extreme may be repaired or replaced by Extreme at Extreme's sole discretion. Replacement Products may be new or refurbished Products. In the event that Extreme evaluates and determines there is "no trouble found" in greater than twenty-five percent (25%) of the Products or parts returned in a ninety (90) day period, Extreme reserves the right to charge Company a service charge of twenty percent (20%) of the List Price per unit.

- 9. Ownership of Intellectual Property Rights; License; Non-Disclosure.
- 9.1 Intellectual Property Rights. You and Company acknowledge that the Products are proprietary to Extreme and its suppliers, and that Extreme and its suppliers retain exclusive ownership of all Intellectual Property Rights in and to the Products, including in and to any Software Products and Trademarks. You and Company will take all reasonable measures to protect Extreme's Intellectual Property Rights in any Product. Except as expressly provided herein, Company is not granted any right to any Intellectual Property Rights with respect to any Product.
- 9.2 License. All Releases provided under the Services are licensed subject to the terms and conditions of the then-current Software license agreement for such Software Product in effect at the time the Release is provided.
- 9.3 Non-Disclosure. You and/or the Company may be exposed to certain confidential information of Extreme including but not limited to information concerning the business, technology, and customers of Extreme, which You and/or Company knows or should know is Extreme's confidential and proprietary information (herein "Confidential Information"). You and/or Company agrees that while this Agreement is in effect and for a period of three (3) years thereafter, You/it will not: (i) use the Confidential Information for any purpose other than to perform under this Agreement; or (ii) disclose to any third party any Confidential Information without the prior written consent of Extreme. Company may disclose Confidential Information only to its employees or contractors on a need to know basis and as is reasonably necessary to allow the party to perform under this Agreement; provided that each such employee or contractor is under a written obligation of nondisclosure which protects the Confidential Information under terms at least as stringent as these terms. This Section will not apply to Confidential Information after such information is made public by Extreme. If any Confidential Information is required to be disclosed by Company as a matter of law or by order of a court or other legal process, Company will promptly notify Extreme of such obligation to disclose and reasonably assist Extreme in obtaining a protective order or otherwise limiting such disclosure.
- Warranty. All Updates provided hereunder are warranted for the remaining warranty period of the original Software Product, if any, as specified in the warranty card which shipped with the original Software Product. All Upgrades are warranted as set forth in the warranty card for such Upgrade. Replacement Products provided under the Services are warranted for the remaining warranty period of the original Product, if any, as specified in the warranty card which shipped with the original Product. Nothing in the Services shall be construed as expanding or adding to the warranty set forth on the warranty card. Extreme will use all reasonable commercial efforts to provide the support requested by You and/or Company under this Agreement in a professional and workmanlike manner. In the event that Extreme fails to meet this warranty, Extreme may reperform the Services, but Extreme cannot guarantee that every guestion or problem raised by You or the Company will be resolved. EXTREME WARRANTS THE SERVICES ONLY TO YOU AND/OR COMPANY PURSUANT TO THE TERMS AND CONDITIONS OF THIS AGREEMENT. EXCEPT AS SET FORTH ABOVE, EXTREME MAKES, AND YOU AND/OR COMPANY RECEIVE, NO OTHER WARRANTIES OF ANY KIND. EXTREME EXPRESSLY DISCLAIMS ALL WARRANTIES, TERMS AND CONDITIONS, WHETHER EXPRESS, IMPLIED (in fact or by operation of law), STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY, TERM OR CONDITION OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, CORRESPONDENCE WITH DESCRIPTION, ABSENCE OF HIDDEN DEFECTS, ANY WARRANTY OF NON-INFRINGEMENT, AND ANY WARRANTY, TERM OR CONDITION THAT MAY ARISE BY REASON OF USAGE OF TRADE, CUSTOM, COURSE OF DEALING OR COURSE OF PERFORMANCE.

11. Term and Termination.

The Services start date shall be determined as follows: (a) for the initial purchase of Service, the Service start date shall be the original shipment date of the covered Product from Extreme, and (b) for Service renewals, the Service start date shall be the date on which the prior Service period ended. Company shall be responsible for the Service Fees from such Service start date. The Service end date will be 12 months from the Service start date, unless otherwise specified in writing by Extreme. Unless Company or Extreme provides notice at least sixty (60) days prior to the end of the Support Plan term of its intent not to renew the Support Plan, the Support Plan term will automatically renew for one (1) year subject to payment being received by Extreme for such Support Plan. If Company fails to pay the annual Support Plan fees in accordance with Extreme's invoice, the applicable ExtremeWorks Support Plan will automatically terminate without notice.
- 11.2 Agreement Term. All Releases provided under the Services are licensed subject to the terms and conditions of the then-current Software license agreement for such Software Product in effect at the time the Release is provided.
- Termination. This Agreement shall be terminated immediately upon the expiration of all prepaid support periods for the Support Plans purchased by You and/or Company. This Agreement may also be terminated by Extreme (i) for its convenience, upon sixty (60) days' prior written notice to the Company; provided, however, that Extreme will continue to provide Services during any prepaid support period so long as this Agreement was not terminated for Your or Company's breach, (ii) immediately upon written notice to Company, if Company breaches or violates any provision of Sections 4.3 ("Restrictions on Copying and Reverse Engineering"), 4.4 ("No Removal of Markings"), and 9 ("Ownership of Intellectual Property Rights; License; Non-Disclosure"); (iii) immediately upon written notice to Company, if Company fails to perform or otherwise defaults in any of its obligations (other than those covered by Section 11.3(ii) above) under this Agreement and fails to cure such failure or default within thirty (30) days after written notice thereof, or (iv), immediately upon written notice to the Company, if the Company is insolvent or makes any arrangement with its creditors generally, or has a receiver appointed for all or a substantial part of its business or properties, or an insolvency, bankruptcy or similar proceeding is brought by or against Company and involving Company as debtor, and if brought against Company is not dismissed within sixty (60) days from its institution, or if Company goes into liquidation or otherwise ceases to function as a going concern.
- 11.4 Effect of Termination. Upon the expiration or termination of this Agreement for whatever reason, You and/or Company shall no longer be entitled to receive Services from Extreme pursuant to this Agreement, all support fees and training fees paid prior to the effective date of termination shall be non-refundable, and Extreme will no longer have any obligation to provide Services to You and/or Company for the Products pursuant to this Agreement. In addition, Extreme will be entitled to reject all or part of any orders received from Company after notice but prior to the effective date of termination. By thirty (30) days from the effective date of termination, Company will return or destroy all copies of the Confidential Information. At the request of Extreme, the president or the equivalent officer of Company will certify in writing that Company has complied with its obligations hereunder.
- 11.5 Survival of Terms. The following Sections will survive any expiration or termination of this Agreement for whatever reason: Sections 4.3 ("Restrictions on Copying and Reverse Engineering"), 4.4 ("No Removal of Markings"), 6 ("Support for End of Life"), 7 ("Records and Audit"), 8 ("Return Process"), 9 ("Ownership of Intellectual Property Rights; License; Non-Disclosure"), , 11.4 ("Effect of Termination"), 11.5 ("Survival of Terms"), 12 ("No Consequential Damages"), 13 ("Limitation on Liability"), 14 ("Data Protection").

- 12. No Consequential Damages. Except in case of bodily injury or death where, and then only to the extent that, applicable law requires such liability, UNDER NO CIRCUMSTANCES WILL EXTREME BE LIABLE FOR (i) ANY LOST PROFITS (even if they arise as a direct or immediate consequence of the event that generated the damages), OR (ii) ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES OF ANY KIND OR NATURE WHATSOEVER, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, LOST BUSINESS, LOST REVENUE OR LOST SAVINGS, LOSS OF USE, LOSS OR DAMAGE TO DATA OR GOODS OR INTERRUPTION OF BUSINESS, IN EACH CASE HOWEVER CAUSED, AND WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE), BREACH OF WARRANTY, STRICT LIABILITY OR OTHERWISE, EVEN IF EXTREME HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY EXCLUSIVE REMEDY PROVIDED HEREIN. IN NO EVENT WILL EXTREME BE LIABLE FOR THE COST OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES.
- 13. Limitation on Liability. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, EXCEPT IN CASE OF BODILY INJURY OR DEATH WHERE, AND THEN ONLY TO THE EXTENT THAT, APPLICABLE LAW REQUIRES SUCH LIABILITY, EXTREME'S AGGREGATE LIABILITY FROM OR IN RELATION TO THIS AGREEMENT AND THE SERVICES, WHETHER ARISING IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE, SHALL BE LIMITED TO THE TOTAL AMOUNT PAID BY COMPANY TO EXTREME FOR THE SERVICES GIVING RISE TO THE CLAIM IN THE MOST RECENT FULL CALENDAR YEAR PRECEDING COMPANY'S INITIAL NOTICE OF ANY CLAIM OR POTENTIAL CLAIM HEREUNDER. THIS LIMITATION SHALL APPLY TO ALL CAUSES OF ACTION IN THE AGGREGATE.

14. Data Protection.

- 14.2 This Section 14.2 shall apply where Extreme's processing of personal data in connection with this Agreement is subject to Data Protection Law. In the event of a conflict between Section 14.1 and Section 14.2, this Section 14.2 shall apply. - 14.3 The Service Specifications applicable to Your order define the administrative, physical, technical and other safeguards applied to Your Content residing in the Services Environment, and describe other aspects of system management applicable to the Services. You are responsible for the introduction of any security vulnerabilities, and the consequences of such vulnerabilities, arising from Your Content and Your Applications, including any viruses, Trojan horses, worms or other programming routines contained in Your Content or Your Applications that could limit or harm the functionality of a computer or that could damage, intercept or expropriate data.
- 14.4 You may not provide Extreme access to health, payment card or similarly sensitive personal information that imposes specific data security obligations for the processing of such data unless explicitly agreed between the parties. In the event that any provision of this Agreement shall be unenforceable or invalid under any applicable law or be so held by applicable court decision, such unenforceability or invalidity shall not render this Agreement unenforceable or invalid as a whole, and, in such event, such provision shall be changed and interpreted so as to best accomplish the objectives of such provision within the limits of applicable law or applicable court decisions.
- 15.4 Injunctive Relief. It is expressly agreed that a violation of Sections 4.3 ("Restrictions on Copying and Reverse Engineering"), 4.4 ("No Removal of Markings"), or 9 ("Ownership of Intellectual Property Rights; License; Non-Disclosure") of this Agreement could cause irreparable harm to Extreme and that a remedy at law could be inadequate. Company shall indemnify and hold harmless Extreme for any violation or alleged violation by Company of such laws or regulations. Company's obligations pursuant to this Section shall survive and continue after any termination of rights under this Agreement.
- 15.9 Force Majeure. Neither party will have the right to claim damages if this Agreement is terminated as a result of the other party's failure or delay in performance due to circumstances beyond its reasonable control (except for obligations relating to fees payable under this Agreement), including, but not limited to, labor disputes, strikes, lockouts, shortages of or inability to obtain labor, energy, components, raw materials or supplies, war, riot, insurrection, epidemic, natural disasters, governmental action or terrorism.

2.01 Property Schedules Separate Financings. Each Property Schedule executed and delivered under this Agreement shall be treated as a separate financing, distinct from other Property Schedules. Without limiting the foregoing, upon the occurrence of an Event of Default or an Event of Nonappropriation with respect to a Property Schedule, Lessor shall have the rights and remedies specified herein with respect to the Property financed and the Rental Payments payable under such Property Schedule, and except as expressly provided in Section 12.02 below, Lessor shall have no rights or remedies with respect to Property financed or Rental Payments payable under any other Property Schedules unless an Event of Default or Event of Nonappropriation has also occurred under such other Property Schedules. EACH PROPERTY SCHEDULE MERGES ALL PRIOR UNDERSTANDINGS AND CONSTITUTES THE FINAL AND COMPLETE AGREEMENT between Lessor and Lessee for the property. Documentation (e.g., orders and invoices) between or among Lessee and any property/equipment vendor, dealer, distributor or manufacturer does not apply to any Property Schedule or to Lessor.

ARTICLE III

- **3.01** Covenants of Lessee. As of the Commencement Date for each Property Schedule executed and delivered hereunder, Lessee shall be deemed to represent, covenant and warrant for the benefit of Lessor, any Agent, and any Registered Owners, as follows:
 - (a) Lessee is a public body corporate and politic duly organized and existing under the constitution and laws of the State with full power and authority to enter into this Agreement and the Property Schedule and the transactions contemplated thereby and to perform all of its obligations thereunder.
 - (b) Lessee will do or cause to be done all things necessary to preserve and keep in full force and effect its existence as a body corporate and politic. To the extent Lessee should merge with another entity under the laws of the State, Lessee agrees that as a condition to such merger it will require that the remaining or resulting entity shall be assigned Lessee's rights and shall assume Lessee's obligations hereunder.
 - (c) Lessee has been duly authorized to execute and deliver this Agreement and the Property Schedule by proper action by its governing body, or by other appropriate official approval, and all requirements have been met and procedures have occurred in order to ensure the validity and enforceability of this Agreement and the Property Schedule, and Lessee has complied with such public bidding requirements as may be applicable to this Agreement and the

- (d) During the Lease Term for the Property Schedule, the Property thereunder will perform and will be used by Lessee only for the purpose of performing essential governmental uses and public functions within the permissible scope of Lessee's authority.
- (e) Lessee will provide Lessor with current financial statements, budgets and proof of appropriation for the ensuing budget year and other financial information relating to the ability of Lessee to continue this Agreement and the Property Schedule in such form and containing such information as may be requested by Lessor.
- (f) Lessee will comply with all applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code"), including Sections 103 and 148 thereof, and the regulations of the Treasury Department thereunder, from time to time proposed or in effect, in order to maintain the excludability from gross income for federal income tax purposes of the interest component of Rental Payments under the Property Schedule and will not use or permit the use of the Property in such a manner as to cause a Property Schedule to be a "private activity bond" under Section 141(a) of the Code. Lessee covenants and agrees that it will use the proceeds of the Property Schedule as soon as practicable and with all reasonable dispatch for the purpose for which the Property Schedule has been entered into, and that no part of the proceeds of the Property Schedule shall be invested in any securities, obligations or other investments except for the temporary period pending such use nor used, at any time, directly or indirectly, in a manner which, if such use had been reasonably anticipated on the date of issuance of the Agreement, would have caused any portion of the Property Schedule to be or become "arbitrage bonds" within the meaning of Section 103(b)(2) or Section 148 of the Code and the regulations of the Treasury Department thereunder proposed or in effect at the time of such use and applicable to obligations issued on the date of issuance of the Property Schedule.
- (g) The execution, delivery and performance of this Agreement and the Property Schedule and compliance with the provisions hereof and thereof by Lessee does not conflict with or result in a violation or breach or constitute a default under, any resolution, bond, agreement, indenture, mortgage, note, lease or other instrument to which Lessee is a party or by which it is bound by any law or any rule, regulation, order or decree of any court, governmental agency or body having jurisdiction over Lessee or any of its activities or properties resulting in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any property or assets of Lessee or to which it is subject.
- (h) Lessee's exact legal name is as set forth on the first page of this Agreement. Lessee will not change its legal name in any respect without giving thirty (30) days prior notice to Lessor.

ARTICLE IV

- **4.01** Lease of Property. On the Commencement Date of each Property Schedule executed hereunder, Lessor will be deemed to demise, lease and let to Lessee, and Lessee will be deemed to rent, lease and hire from Lessor, the Property described in such Property Schedule, in accordance with this Agreement and such Property Schedule, for the Lease Term set forth in such Property Schedule.
- 4.02 <u>Lease Term.</u> The term of each Property Schedule shall commence on the Commencement Date set forth therein and shall terminate upon payment of the final Rental Payment set forth in such Property Schedule and the exercise of the Purchase Option described in Section 11.01, unless terminated sooner pursuant to this Agreement or the Property Schedule.
- 4.03 <u>Delivery, Installation and Acceptance of Property.</u> Lessee shall order the Property, shall cause the Property to be delivered and installed at the locations specified in the applicable Property Schedule and shall pay all taxes, delivery costs and installation costs, if any, in connection therewith. To the extent funds are deposited under an escrow agreement or trust agreement for the acquisition of the Property, such funds shall be disbursed as provided therein. When the Property described in such Property Schedule is delivered, installed and accepted as to Lessee's specifications, Lessee shall immediately accept the Property and evidence said acceptance by executing and delivering to Lessor the Acceptance Certificate substantially in the form attached to the Property Schedule.

ARTICLE V

- **5.01** Enjoyment of Property. Lessee shall during the Lease Term peaceably and quietly have, hold and enjoy the Property, without suit, trouble or hindrance from Lessor, except as expressly set forth in this Agreement. No Registered Owner shall interfere with such quiet use and enjoyment during the Lease Term so long as Lessee is not in default under the subject Property Schedule.
- **5.02** Location; Inspection. The Property will be initially located or based at the location specified in the applicable Property Schedule. Lessor shall have the right at all reasonable times during business hours to enter into and upon the property of Lessee for the purpose of inspecting the Property.

ARTICLE VI

- **Rental Payments to Constitute a Current Expense of Lessee.** Lessor and Lessee understand and intend that the obligation of Lessee to pay Rental Payments hereunder shall constitute a current expense of Lessee and shall not in any way be construed to be a debt of Lessee in contravention of any applicable constitutional, statutory or charter limitation or requirement concerning the creation of indebtedness by Lessee, nor shall anything contained herein constitute a pledge of the faith and credit or taxing power of Lessee. Upon the appropriation of Rental Payments for a fiscal year, the Rental Payments for said fiscal year, and only the Rental Payments for said current fiscal year, shall be a binding obligation of Lessee; provided that such obligation shall not include a pledge of the taxing power of Lessee.
- **Payment of Rental Payments.** Lessee shall promptly pay Rental Payments under each Property Schedule, exclusively from legally available funds, in lawful money of the United States of America, to Lessor in such amounts and on such dates as described in the applicable Property Schedule, at Lessor's address set forth on the first page of this Agreement, unless Lessor instructs Lessee otherwise. Lessee shall pay Lessor a charge on any delinquent Rental Payments under a Property Schedule in an amount sufficient to cover all additional costs and expenses incurred by Lessor and Agent from such delinquent Rental Payment. In addition, Lessee shall pay a late charge of five cents per dollar or the highest amount permitted by applicable law, whichever is lower, on all delinquent Rental Payments.
- 6.03 Interest Component. A portion of each Rental Payment due under each Property Schedule is paid as, and represents payment of, interest, and each Property Schedule hereunder shall set forth the interest component (or method of computation thereof) of each Rental Payment thereunder during the Lease Term.
- Rental Payments to be Unconditional. Subject to Section 6.06, the obligations of lessee to pay the Rental Payments due under the Property Schedules and to Perform and Observe the Other Covenants and Agreements Contained Herein Shall be absolute and Unconditional in all events without abatement, diminution, deduction, set-off or defense, for any reason, including without Limitation, any defects, malfunctions, breakdowns or infirmities in the Property or any accident, condemnation or unforeseen Circumstances. This Provision Shall not limit lessee's rights or actions against any vendor as Provided in Section 10.02.
- 6.05 Continuation of Lease by Lessee. Lessee intends to continue all Property Schedules entered into pursuant to this Agreement and to pay the Rental Payments thereunder. Lessee reasonably believes that legally available funds in an amount sufficient to make all Rental Payments during the term of all Property Schedules can be obtained. Lessee agrees that its staff will provide during the budgeting process for each budget year to the governing body of Lessee notification of any Rental Payments due under the Property Schedules during the following budget year. Notwithstanding this covenant, if Lessee fails to appropriate the Rental Payments for a Property Schedule pursuant to Section 6.06, such Property Schedule shall terminate. Although Lessee has made this covenant, in the event that it fails to provide such notice, no remedy is provided and Lessee shall not be liable for any damages for its failure to so comply.
- 6.06 Non-Appropriation. If sufficient funds are not appropriated to make Rental Payments required under a Property Schedule, such Property Schedule shall terminate and Lessee shall not be obligated to make Rental Payments under said Property Schedule beyond the then current fiscal year for which funds have been appropriated. Upon the occurrence of such nonappropriation (an "Event of Nonappropriation") Lessee shall, no later than the end of the fiscal year for which Rental Payments have been appropriated, deliver possession of the Property under said Property Schedule to Lessor. If Lessee fails to deliver possession of the Property to Lessor upon termination of said Property Schedule by reason of an Event of Nonappropriation, the termination shall nevertheless be effective but Lessee shall be responsible for the payment of damages in an amount equal to the portion of Rental Payments thereafter coming due that is attributable to the number of days after the termination during which the Lessee fails to deliver possession and for any other loss suffered by Lessor as a result of Lessee's failure to deliver possession as required. In addition, Lessor may, by written instructions to the Agent or to any other escrow agent who is holding proceeds of the Property Schedule, instruct the Agent or such escrow agent to release all such proceeds and any earnings thereon to Lessor, such sums to be credited to Lessee's obligations under the Property Schedule and this Agreement. Lessee shall notify Lessor

6.07 <u>Defeasance of Rental Payments</u>. Lessee may at any time irrevocably deposit in escrow with a defeasance escrow agent for the purpose of paying all of the principal component and interest component accruing under a Property Schedule, a sum of cash and non-callable securities consisting of direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America or any agency or instrumentality thereof, in such aggregate amount, bearing interest at such rates and maturing on such dates as shall be required to provide funds sufficient for this purpose. Upon such defeasance, all right, title and interest of Lessor in the Property under said Property Schedule shall terminate. Lessee shall cause such investment to comply with the requirements of federal tax law so that the exclusion from gross income of the interest component of Rental Payments on said Property Schedule is not adversely affected.

ARTICLE VII

- **7.01** Title to the Property. Upon acceptance of the Property by Lessee and unless otherwise required by the laws of the State, title to the Property shall vest in Lessee, subject to Lessor's interests under the applicable Property Schedule and this Agreement.
- **7.02** Personal Property. The Property is and will remain personal property and will not be deemed to be affixed to or a part of the real estate on which it may be situated, notwithstanding that the Property or any part thereof may be or hereafter become in any manner physically affixed or attached to real estate or any building thereon. If requested by Lessor, Lessee will, at Lessee's expense, furnish a waiver of any interest in the Property from any party having an interest in any such real estate or building.
- 7.03 Security Interest. To secure the performance of all of Lessee's obligations under this Agreement, including without limitation all Property Schedules now existing or hereafter executed, Lessee grants to Lessor, for the benefit of Lessor and its successors and assigns, a security interest constituting a first lien on Lessee's interest in all of the Property, whether now owned or hereafter acquired, all additions, attachments, alterations and accessions to the Property, all substitutions and replacements for the Property, and on any proceeds of any of the foregoing, including insurance proceeds. Lessee shall execute any additional documents, including financing statements, affidavits, notices and similar instruments, in form and substance satisfactory to Lessor, which Lessor deems necessary or appropriate to establish, maintain and perfect a security interest in the Property in favor of Lessor and its successors and assigns. Lessee hereby authorizes Lessor to file all financing statements which Lessor deems necessary or appropriate to establish, maintain and perfect such security interest.
- 7.04 <u>Substitution</u>. Lessee may substitute for all or any portion of the Property under a Property Schedule personal property of approximately equal or greater market value and with an equal or greater useful life. In the event of any such substitution, Lessee shall deliver to Lessor a certification that the personal property proposed to be substituted has approximately equal or greater market value and an equal or greater useful life as the portion of the Property being substituted for, together with an opinion of counsel acceptable to Lessor to the effect that the proposed substitution will not adversely affect the exemption of the interest components of Rental Payments under the Property Schedule from federal income taxation. Lessee shall be responsible for all costs and expenses of Lessor, including counsel fees, for any such substitution. Lessee shall cause all financing statements, fixture filings, certificates of title, affidavits, notices and similar instruments, to be made or filed in a timely manner to secure and perfect the security interest of Lessor in the substituted property.

ARTICLE VIII

- 8.01 Maintenance of Property by Lessee. Lessee shall keep and maintain the Property in good condition and working order and in compliance with the manufacturer's specifications, shall use, operate and maintain the Property in conformity with all laws and regulations concerning the Property's ownership, possession, use and maintenance, and shall keep the Property free and clear of all liens and claims, other than those created by this Agreement. Lessee shall have sole responsibility to maintain and repair the Property. Should Lessee fail to maintain, preserve and keep the Property in good repair and working order and in accordance with manufacturer's specifications, and if requested by Lessor, Lessee will enter into maintenance contracts for the Property in form approved by Lessor and with approved providers.
- 8.02 <u>Liens, Taxes, Other Governmental Charges and Utility Charges.</u> Lessee shall keep the Property free of all levies, liens and encumbrances, except for the interest of Lessor under this Agreement. The parties to this Agreement contemplate that the Property will be used for a governmental or proprietary purpose of Lessee and, therefore, that the Property will be exempt from all property taxes. The Rental Payments payable by Lessee under this Agreement and the Property Schedules hereunder have been established to reflect the savings resulting from this exemption from taxation. Lessee will take such actions necessary under applicable law to obtain said exemption. Nevertheless, if the use, possession or acquisition of the Property is determined to be subject to taxation or later becomes subject to such taxes, Lessee shall pay when due all taxes and governmental charges lawfully assessed or levied against or with respect to the Property. Lessee shall pay all gas, water, steam, electricity, heat, power, telephone, utility and other charges incurred in the operation, maintenance, use, occupancy and upkeep of the Property. Lessee shall pay such taxes or charges as the same may become due; provided that, with respect to any such taxes or charges that may lawfully be paid in installments over a period of years, Lessee shall be obligated to pay only such installments as accrue during the then current fiscal year of the Lease Term for such Property.
- 8.03 Insurance. At its own expense, Lessee shall maintain (a) casualty insurance insuring the Property against loss or damage by fire and all other risks covered by the standard extended coverage endorsement then in use in the State and any other risks reasonably required by Lessor in an amount equal to at least the outstanding principal component of Rental Payments, and (b) liability insurance that protects Lessor from liability in all events in an amount reasonably acceptable to Lessor, and (c) worker's compensation insurance covering all employees working on, in, near or about the Property; provided that Lessee may self-insure against all such risks. All insurance proceeds from casualty losses shall be payable as hereinafter provided in this Agreement. All such insurance shall be with insurers that are authorized to issue such insurance in the State. All such liability insurance shall name Lessor as an additional insured. All such casualty insurance shall contain a provision making any losses payable to Lessor and Lessee as their respective interests may appear. All such insurance shall contain a provision to the effect that such insurance shall not be canceled or modified without first giving written notice thereof to Lessor and Lessee at least thirty (30) days in advance of such cancellation or modification. Such changes shall not become effective without Lessor's prior written consent. Lessee shall furnish to Lessor, on or before the Commencement Date for each Property Schedule, and thereafter at Lessor's request, certificates evidencing such coverage, or, if Lessee self-insures, a written description of its self-insurance program together with a certification from Lessee's risk manager or insurance agent or consultant to the effect that Lessee's self-insurence program provides adequate coverage against the risks listed above.
- **8.04** Advances. In the event Lessee shall fail to either maintain the insurance required by this Agreement or keep the Property in good repair and working order, Lessor may, but shall be under no obligation to, purchase the required insurance and pay the cost of the premiums thereof or maintain and repair the Property and pay the cost thereof. All amounts so advanced by Lessor shall constitute additional rent for the Lease Term for the Property Schedule for which the Property is under and shall be due and payable on the next Rental Payment Date and Lessee covenants and agrees to pay such amounts so advanced by Lessor with interest thereon from the date such amounts are advanced until paid at the rate of 12% per annum or the maximum amount permitted by law, whichever is less.

ARTICLE IX

- 9.01 <u>Damage or Destruction</u>. If (a) the Property under a Property Schedule or any portion thereof is destroyed, in whole or in part, or is damaged by fire or other casualty, or (b) title to, or the temporary use of, the Property under a Property Schedule or any part thereof shall be taken under the exercise or threat of the power of eminent domain by any governmental body or by any person, firm or corporation acting pursuant to governmental authority, Lessor and Lessee will cause the Net Proceeds (as hereinafter defined) of any insurance claim, condemnation award or sale under threat of condemnation to be applied to the prompt replacement, repair, restoration, modification or improvement of the Property, unless Lessee shall have exercised its option to purchase Lessor's interest in the Property if the Property Schedule so provides. Any balance of the Net Proceeds remaining after such work has been completed shall be paid to Lessee. For purposes of Section 14.02(b) and this Article IX, the term "Net Proceeds" shall mean the amount remaining from the gross proceeds of any insurance claim, condemnation award or sale under threat of condemnation after deducting all expenses, including attorneys' fees, incurred in the collection thereof.
- 9.02 Insufficiency of Net Proceeds. If the Net Proceeds are insufficient to pay in full the cost of any repair, restoration, modification or improvement referred to in Section 9.01, Lessee shall (a) complete such replacement, repair, restoration, modification or improvement and pay any costs thereof in excess of the amount of the Net Proceeds and, if Lessee shall make any payments pursuant to this Section, Lessee shall not be entitled to any reimbursement therefor from Lessor nor shall Lessee be entitled to any diminution of the amounts payable under Section 6.02, or (b) defease the Property Schedule pursuant to Section 6.07, or (c) exercise its option to purchase Lessor's interest in the Property pursuant to the optional purchase provisions of the Property Schedule, if any. The amount of the Net Proceeds, if any, remaining after completing such repair, restoration, modification or improvement or after such defeasance or purchase may be retained by Lessee.

- 10.01 <u>Disclaimer of Warranties</u>. LESSOR MAKES NO (AND SHALL NOT BE DEEMED TO HAVE MADE ANY) WARRANTIES, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING, WITHOUT LIMITATION, THE DESIGN, OPERATION OR CONDITION OF, OR THE QUALITY OF THE MATERIAL, EQUIPMENT OR WORKMANSHIP IN, THE PROPERTY, ITS MERCHANTABILITY OR ITS FITNESS FOR ANY PARTICULAR PURPOSE, THE STATE OF TITLE THERETO OR ANY COMPONENT THEREOF, THE ABSENCE OF LATENT OR OTHER DEFECTS (WHETHER OR NOT DISCOVERABLE), AND LESSOR HEREBY DISCLAIMS THE SAME; IT BEING UNDERSTOOD THAT THE PROPERTY IS LEASED TO LESSEE "AS IS" ON THE DATE OF THIS AGREEMENT OR THE DATE OF DELIVERY, WHICHEVER IS LATER, AND ALL SUCH RISKS, IF ANY, ARE TO BE BORNE BY LESSEE. Lessee acknowledges that it has made (or will make) the selection of the Property from the Vendor based on its own judgment and expressly disclaims any reliance upon any statements or representations made by Lessor. Lessee understands and agrees that (a) neither the Vendor nor any sales representative or other agent of Vendor, is (i) an agent of Lessor, or (ii) authorized to make or alter any term or condition of this Agreement, and (b) no such waiver or alteration shall vary the terms of this Agreement unless expressly set forth herein. In no event shall Lessor be liable for any incidental, indirect, special or consequential damage in connection with or arising out of this Agreement, the Property Schedules, or the existence, furnishing, functioning or use of any item, product or service provided for in this Agreement or the Property Schedules.
- 10.02 <u>Vendor's Warranties</u>. Lessor hereby irrevocably assigns to Lessee all rights that Lessor may have to assert from time to time whatever claims and rights (including without limitation warranties) related to the Property against the Vendor. Lessee's sole remedy for the breach of such warranty, indemnification or representation shall be against the Vendor of the Property, and not against Lessor, nor shall such matter have any effect whatsoever on the rights and obligations of Lessor with respect to this Agreement, including the right to receive full and timely payments hereunder. Lessee expressly acknowledges that Lessor makes, and has made, no representations or warranties whatsoever as to the existence or the availability of such warranties of the Vendor of the Property.
- 10.03 Use of the Property. Lessee will not install, use, operate or maintain the Property improperly, carelessly, in violation of any applicable law or in a manner contrary to that contemplated by this Agreement and the applicable Property Schedule. Lessee shall provide all permits and licenses, if any, necessary for the installation and operation of the Property. In addition, Lessee agrees to comply in all respects with all laws of the jurisdiction in which its operations involving any item of Property may extend and any legislative, executive, administrative or judicial body exercising any power or jurisdiction over the items of the Property; provided that Lessee may contest in good faith the validity or application of any such law or rule in any reasonable manner that does not, in the opinion of Lessor, adversely affect the interest of Lessor in and to the Property or its interest or rights under this Agreement. Lessee shall promptly notify Lessor in writing of any pending or threatened investigation, inquiry, claim or action by any governmental authority which could adversely affect this Agreement, any Property Schedule or the Property thereunder.
- Modifications. Subject to the provisions of this Section, Lessee shall have the right, at its own expense, to make alterations, additions, modifications or improvements to the Property. All such alterations, additions, modifications and improvements shall thereafter comprise part of the Property and shall be subject to the provisions of this Agreement. Such alterations, additions, modifications and improvements shall not in any way damage the Property, substantially alter its nature or cause it to be used for purposes other than those authorized under the provisions of state and federal law; and the Property, on completion of any alterations, additions, modifications in improvements made pursuant to this Section, shall be of a value which is equal to or greater than the value of the Property immediately prior to the making of such alterations, modifications and improvements. Lessee shall, at its own expense, make such alterations, additions, modifications and improvements to the Property as may be required from time to time by applicable law or by any governmental authority.

ARTICLE XI

- 11.01 Option to Purchase. Lessee shall have the option to purchase Lessor's entire interest in all of the Property subject to a Property Schedule and to terminate any restrictions herein on the Property under such Property Schedule on the last day of the Lease Term for a Property Schedule, if the Property Schedule is still in effect on such day, upon payment in full of the Rental Payments due thereunder plus payment of One (1) Dollar to Lessor. Lessee shall give written notice to Lessor of its intent to purchase Lessor's interest in the Property at least sixty (60) days prior to the last day of the Lease Term for applicable Property Schedule. Upon exercise of the purchase option as set forth in this Section 11.01 and payment of the purchase price under the applicable Property Schedule, and performance by Lessee of all other terms, conditions and provisions hereof, Lessor shall deliver to Lessee all such documents and instruments as Lessee may reasonably require to evidence the transfer, without warranty by or recourse to Lessor, of all of Lessor's right, title and interest in and to the Property subject to such Property Schedule to Lessee.
- 11.02 Option to Prepay. Lessee shall have the option to prepay the Rental Payments due under a Property Schedule, but only if the Property Schedule so provides, and on the terms set forth in the Property Schedule.

ARTICLE XII

- 12.01 Assignment by Lessor. Lessor's right, title and interest in, to and under each Property Schedule and the Property under such Property Schedule may be assigned and reassigned in whole or in part to one or more assignees or subassignees by Lessor and, to the extent of their interest, by any Registered Owner, without the necessity of obtaining the consent of Lessee; provided that (i) any assignment, other than an assignment to or by a Registered Owner, shall not be effective until Lessee has received written notice, signed by the assignor, of the name, address and tax identification number of the assignee, and (ii) any assignment to or by a Registered Owner shall not be effective until it is registered on the registration books kept by the Agent. Lessee shall retain all such notices as a register of all assignees (other than Registered Owners) and shall make all payments to the assignee or assignees designated in such register or, in the case of Registered Owners, to the Agent. In the event that Lessor's interest in a Property Schedule and the Property thereunder is assigned to the Agent, Lease Participation Certificates in that Property Schedule may be executed and delivered by the Agent to Registered Owners. Lessee agrees to execute all documents, including notices of assignment and chattel mortgages or financing statements that may be reasonably requested by Lessor or any assignee to protect its interests in this Agreement and the Property Schedules.
- 12.02 <u>Property Schedules Separate Financings.</u> Assignees of the Lessor's rights in one Property Schedule shall have no rights in any other Property Schedule unless such rights have been separately assigned. Lessor may collectively assign two or more Property Schedules with the same Commencement Date to the Agent for the purpose of causing the execution and delivery of Lease Participation Certificates in the Property Schedules with the same Commencement Date. Such assignment shall occur on such Commencement Date and upon such assignment all Property Schedules so assigned shall be treated as a single financing and a single Property Schedule with respect to rights and remedies upon the occurrence of an Event of Default or an Event of Nonappropriation under this Agreement. Registered Owners rights with respect to the Property Schedules shall be determined as provided in the escrow agreement or trust agreement relating to such Lease Participation Certificates.
- 12.03 <u>Assignment and Subleasing by Lessee.</u> NONE OF LESSEE'S RIGHT, TITLE AND INTEREST IN, TO AND UNDER THIS AGREEMENT AND IN THE PROPERTY MAY BE ASSIGNED, SUBLEASED OR ENCUMBERED BY LESSEE FOR ANY REASON, WITHOUT THE PRIOR WRITTEN CONSENT OF LESSOR.
- Release and Indemnification Covenants. To the extent permitted by applicable law, Lessee shall indemnify, protect, hold harmless, save and keep harmless Lessor from and against any and all liability, obligation, loss, claim and damage whatsoever, regardless of cause thereof, and all expenses in connection therewith, including, without limitation, counsel fees and expenses, penalties and interest (collectively, "Losses") arising out of or resulting from the entering into this Agreement, any Property Schedules hereunder, the ownership of any item of the Property, the loss of federal tax exemption of the interest on any of the Property Schedules, the ordering, acquisition, use, operation, condition, purchase, delivery, rejection, storage or return of any item of the Property or any accident in connection with the operation, use, condition, possession, storage or return of any item of the Property or injury to or death to any person; provided, however, that Lessee shall not be required to indemnify Lessor for Losses arising out of or resulting from Lessor's preparation of disclosure material relating to Lease Participation Certificates (other than disclosure material provided to Lessor by Lessee). The indemnification arising under this Section shall continue in full force and effect notwithstanding the full payment of all obligations under this Agreement, or the applicable Property Schedule, or the termination of the Lease Term for such Property Schedule for any reason.

ARTICLE XIII

- 13.01 Events of Default Defined. Any of the following shall constitute an "Event of Default" under a Property Schedule:
 - (a) Failure by Lessee to pay any Rental Payment under the Property Schedule or other payment required to be paid with respect thereto at the time specified therein;
 - (b) Failure by Lessee to observe and perform any covenant, condition or agreement on its part to be observed or performed with respect to the Property Schedule, other than as referred to in subparagraph (a) above, for a period of thirty (30) days after written notice specifying such failure and requesting that it be remedied is given to Lessee by Lessor, unless Lessor shall agree in writing to an extension of such time prior to its expiration; provided that, if the

- (d) Lessee shall (i) apply for or consent to the appointment of a receiver, trustee, custodian or liquidator of Lessee, or of all or a substantial part of the assets of Lessee, (ii) be unable, fail or admit in writing its inability generally to pay its debts as they become due, (iii) make a general assignment for the benefit of creditors, (iv) have an order for relief entered against it under applicable federal bankruptcy law, or (v) file a voluntary petition in bankruptcy or a petition or an answer seeking reorganization or an arrangement with creditors or taking advantage of any insolvency law or any answer admitting the material allegations of a petition filed against Lessee in any bankruptcy, reorganization or insolvency proceeding; or

The foregoing provisions of Section 13.01 are subject to the following limitation: if by reason of <u>force majeure</u> Lessee is unable in whole or in part to perform its agreements under this Agreement and the Property Schedule (other than the obligations on the part of Lessee contained in Article VI hereof) Lessee shall not be in default during the continuance of such inability. The term "<u>force majeure</u>" as used herein shall mean the following: acts of God; strikes, lockouts or other industrial disturbances; acts of public enemies; orders or restraints of any kind of the government of the United States or of the State or any of their departments, agencies or officials, or any civil or military authority; insurrections, riots, landslides, earthquakes, fires, storms, droughts, floods, explosions, breakage or accident to machinery, transmission pipes or canals; or any other cause or event not reasonably within the control of Lessee.

- 13.02 <u>Remedies on Default</u>. Whenever any Event of Default exists with respect to a Property Schedule, Lessor shall have the right, at its sole option without any further demand or notice, to take one or any combination of the following remedial steps:
 - (a) Without terminating the Property Schedule, and by written notice to Lessee, Lessor may declare all Rental Payments and other amounts payable by Lessee thereunder to the end of the then-current budget year of Lessee to be due, including without limitation delinquent Rental Payments under the Property Schedule from prior budget years, and such amounts shall thereafter bear interest at the rate of 12% per annum or the maximum rate permitted by applicable law, whichever is less;
 - (b) Lessor may terminate the Property Schedule, may enter the premises where the Property subject to the Property Schedule is located and retake possession of the Property, or require Lessee, at Lessee's expense, to promptly return any or all of the Property to the possession of Lessor at such place within the United States as Lessor shall specify, and Lessor may thereafter dispose of the Property in accordance with Article 9 of the Uniform Commercial Code in effect in the State; provided, however, that any proceeds from the disposition of the property in excess of the sum required to (i) defease the Property Schedule pursuant to Section 6.07, (ii) pay any other amounts then due under the Property Schedule, and (iii) pay Lessor's costs and expenses associated with the disposition of the Property (including attorneys fees), shall be paid to Lessee or such other creditor of Lessee as may be entitled thereto;
 - (c) By written notice to the Agent, if any, Lessor may instruct the Agent to apply all sums held by the Agent in any accounts relating to the Property Schedule under the applicable escrow or trust agreement as provided in the applicable escrow or trust agreement.
 - (d) By written notice to any escrow agent (other than the Agent) who is holding proceeds of the Property Schedule, Lessor may instruct such escrow agent to release all such proceeds and any earnings thereon to Lessor, such sums to be credited to payment of Lessee's obligations under the Property Schedule;
 - (e) Lessor may take any action, at law or in equity, that is permitted by applicable law and that may appear necessary or desirable to enforce or to protect any of its rights under the Property Schedule and this Agreement.
- 13.03 No Remedy Exclusive. No remedy herein conferred upon or reserved to Lessor is intended to be exclusive and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Lease now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right or power may be exercised from time to time and as often as may be deemed expedient. In order to entitle Lessor to exercise any remedy reserved to it in this Article it shall not be necessary to give any notice, other than such notice as may be required in this Article.
- 13.04 Costs and Attorney Fees. Upon the occurrence of an Event of Default by Lessee in the performance of any term of this Agreement, Lessee agrees to pay to Lessor or reimburse Lessor for, in addition to all other amounts due hereunder, all of Lessor's costs of collection, including reasonable attorney fees, whether or not suit or action is filed thereon. Any such costs shall be immediately due and payable upon written notice and demand given to Lessee, shall be secured by this Agreement until paid and shall bear interest at the rate of 12% per annum or the maximum amount permitted by law, whichever is less. In the event suit or action is instituted to enforce any of the terms of this Agreement, the prevailing party shall be entitled to recover from the other party such sum as the court may adjudge reasonable as attorneys' fees at trial or on appeal of such suit or action or in any bankruptcy proceeding, in addition to all other sums provided by law.

The Extreme Technology may consist of or contain additional third party software and such third party software may be licensed under terms different from those in this Section. Any open source software is licensed to Purchaser under the applicable open source licenses and such software will be subject to all of the provisions of the applicable license(s).
- 3.2. Security Interest. Purchaser shall be deemed to have granted Extreme a security interest in the Extreme Technology subject to this Agreement and all accessions, substitutions and replacements, and proceeds (cash and non-cash), including, without limitation, insurance proceeds (but without power of sale), to secure the prompt payment and performance as and when due of all obligations and indebtedness of Purchaser, now existing or hereafter created, to Extreme pursuant to this Agreement or otherwise. Purchaser authorizes Extreme to file financing statements to give public notice of its interest in the Extreme Technology and any proceeds thereof. Pricing and payment schedules will be set out in each Schedule.
- 4. PRICING, PAYMENT TERMS AND TAXES

- 4.1. Pricing and Payment Schedule. Extreme Technology pricing and the payment schedule for Extreme Technology will be set forth in the applicable Schedule. All payments to Extreme shall be in the currency set forth in the Schedule.
- 4.2. Payments. All amounts are due and payable as set forth in the Schedule(s). Prices stated in each executed Schedule are exclusive of taxes noted in Section 4.3. Extreme reserves the right to charge Purchaser a late penalty of 1.5% per month applied against undisputed overdue amounts, or the maximum rate permitted by law, whichever is less. Late penalties will be recalculated every 30 days thereafter based on Purchaser's current outstanding balance. In addition, Extreme, without waiving any other rights or remedies to which it may be entitled, shall have the right to suspend or terminate any or all Schedules and refuse additional Schedules until Extreme's receipt of all overdue amounts. Extreme shall have no liability to Purchaser for any such suspension or termination of the Schedule or for its refusal of additional Schedules. Extreme further reserves the right to seek collection of all overdue amounts (including by referral to third party collectors), plus all reasonable legal fees (including reasonable attorney's fees) and costs associated with such collection. Although Extreme may extend credit to Purchaser, Extreme reserves the right to change its credit terms at any time when, in Extreme's sole opinion, Purchaser's financial condition or payment record so warrants. To assist Extreme in establishing and updating credit limits and payment terms, Purchaser agrees to provide Extreme with financial information relating to Purchaser's business, including audited financial statements and other credit related information as may be reasonably requested.
- 4.3. Taxes. Except for taxes based on or measured by Extreme's net income, Purchaser will pay, or reimburse Extreme for its payment of, all customs charges, duties, and sales, use, gross receipts, value added, goods and services or other taxes or fees imposed under or by any governmental authority, whether levied against Extreme or Purchaser, and a) associated with the payment of any amount by Purchaser to Extreme under this Agreement; or b) based on the export, import, shipment, purchase or sale of the Products or Services, their installation or use. If Purchaser claims an exemption from its obligation to pay any such taxes, it shall be Purchaser's responsibility to provide Extreme with an appropriate tax exemption certificate. All payments shall be made free and clear without deduction for all present and future taxes imposed by any taxing authority. In the event that Purchaser is prohibited by law from making any payment unless such deductions are made or withheld therefrom, Purchaser shall pay such additional amounts as are necessary such that the net amounts received by Extreme, after such deduction or withholding, equal the amounts which would have been received if such deduction or withholding had not occurred. Purchaser shall promptly furnish Extreme with a copy of an official tax receipt or other appropriate evidence of any tax imposed on payments made under this Agreement, including taxes on any additional amounts paid. In the event that Purchaser remits sales tax directly to the taxing authority, or claims an exemption from the tax, Purchaser will defend and indemnify Extreme against any claim by a taxing authority based on Purchaser's failure to remit the sales tax including but not limited to any penalty, interest, additional tax, or other charge that may be levied or assessed as a result of a delay or failure of Purchaser to pay any tax, charge or other fee. Purchaser and Extreme agree to cooperate to minimize any applicable taxes, including reasonable notice and cooperation in the case of any audit. This clause shall survive the termination of the Agreement.
- 4.4. Optional right of Return and Credit. At any time after any minimum payment requirements have been met but prior to full payment for the Extreme Technology, Purchaser may elect to return any or all of the Extreme Technology, to a location specified by Extreme and at Purchaser's expense, upon 60 days prior written notice. If Purchaser elects to return the Extreme Technology then Purchaser agrees that once the Extreme Technology is received by Extreme, title shall be considered to be passed to Extreme, at which time no further payments will be due by Purchaser

with respect to the Extreme Technology returned, so long as 1) there are no other outstanding payments or other charges owed by Purchaser at the time the Extreme Technology is received by Extreme and 2) other than normal wear and tear, the Extreme Technology is in good, working condition. Without limiting any other remedies Extreme may have in law or in equity, if Purchaser has notified Extreme it will return some or all of Extreme Technology but fails to return the indicated Extreme Technology within the respective Notification Period, amounts due and payable for the Extreme Technology will continue to accrue until the Extreme Technology is received by Extreme or is paid in full by the Purchaser.

4.5. Optional Take-Back. At any time following payment in full for the Extreme Technology, in the event that Purchaser does not want to retain the Extreme Technology, Purchaser agrees to notify Extreme of such and to offer to Extreme a first right of refusal to retake possession of the Extreme Technology under terms mutually agreed by the parties ("Take-Back"). Notwithstanding the foregoing, Extreme will be under no obligation to enter into such arrangement.

5. EXTREME TECHNOLOGY RESTRICTIONS

- 5.1. Restrictions. - 5.2. Proprietary Rights. For any Extreme Technology, Purchaser shall acknowledge and agree to the applicable End User Agreement. - 7.3.1. This Agreement and/or all Schedules may be terminated by either party if the other party breaches any of its material obligations under this Agreement and fails to cure such breach within thirty (30) days after receipt of written notice ("Cure Period") of such breach. The termination of this Agreement will not affect either party's obligation to make payments to the other party as a result of events that occurred prior to termination. In the case of termination by Extreme for an uncured breach by Purchaser, Purchaser must immediately remit the balance of all remaining payments and any other amounts outstanding under all applicable Schedules.
- 7.3.2. - 3.2 This Agreement and/or all Subscription Schedules may be terminated by either party if the other party breaches any of its material obligations under this Agreement and fails to cure such breach within thirty (30) days after receipt of written notice of such breach. The termination of this Agreement will not affect either party's obligation to make payments to the other party as a result of events that occurred prior to termination. In addition, Extreme, without waiving any other rights or remedies to which it may be entitled, shall have the right to suspend or terminate any or all Subscription(s) and refuse additional Orders until Extreme's receipt of all overdue amounts. Any payment made hereunder to Extreme shall include the amount of any taxes required to be paid by Extreme as the result of the receipt of such payment.

- 4.5 Extreme will invoice and Customer shall bear applicable shipping and related charges that result from Customer's procurement, subsequent unit relocation, termination of the Subscription and other applicable fees as provided by this Agreement.
- 4.6 Should a court of competent jurisdiction determine, contrary to the parties' express intention, that this Agreement is a lease intended as security or other secured financing transaction, then solely in that event and for this expressly limited purpose, Customer shall be deemed to have granted Extreme a security interest in the Extreme Technology subject to this Agreement and all accessions, substitutions and replacements, and proceeds (cash and non-cash), including, without limitation, insurance proceeds (but without power of sale), to secure the prompt payment and performance as and when due of all obligations and indebtedness of Customer, now existing or hereafter created, to Extreme pursuant to this Agreement or otherwise. However, once entered into, each Order is a binding agreement for the purchase of the Subscription and is subject to the provisions of this Agreement. This Agreement shall govern each Order by any of Customer's Affiliates and Customer will be responsible for any Affiliate's purchases under this Agreement (including but not limited to an Affiliate's failure to make payment or other breach of this Agreement). If Extreme becomes aware that it will not be able to meet a delivery date, then: (i) it shall promptly notify Customer of the delay and its proposed solution and recovery plans, and (ii) shall expedite delivery of any such Extreme Technology, at its expense. Extreme may change or discontinue Extreme Technology at any time. A change in the Extreme Technology may occur after a Customer places an Order but before Extreme performs the Subscription. However, the Extreme Technology will meet or exceed all material specifications of such Order.

- 5.7 **RMA Procedure.** Customer shall not return any Extreme Technology (including but not limited to replacement parts) without a return material authorization ("RMA") number issued by Extreme. In the event of a return due to a support or warranty issue, Extreme will make arrangements for shipping the Extreme Technology back to Extreme from the Premises or other location designated by the Customer using a carrier selected by Extreme. All returns as a result of termination by the Customer will be facilitated as outlined in section 3.5 of the Agreement. Customer shall adhere to any other written RMA instruction that Extreme may issue from time to time. Failure to follow the RMA procedure as outlined in this Section could result in additional fees due and payable by Customer to Extreme including without limitation, recurring monthly fees for the Subscription and amounts associated with missing, wrong or damaged Extreme Technology, any failure to package or prepare Extreme Technology for return to Extreme as provided in this Section, additional shipping costs and the for the cost of replacing or restoring Extreme Technology to good working order.

Customer agrees that the use of any third party products, which have not been certified or are supported by Extreme may cause errors in the operation of the Subscription(s). Customer acknowledges that its use of any such third party products shall release Extreme from the performance of Extreme's respective obligations and Customer agrees to pay Extreme for any time and materials associated with Extreme diagnosing such issues at Extreme's hourly billing rate. Extreme may at its discretion provide additional support to resolve any such issues.

- 10.1 The following information is "Confidential Information: (i) as to both parties, the terms of this Agreement, and all information exchanged by the parties during negotiations culminating in this Agreement and during the Term of this Agreement; any information related to a party's performance of, or failure to perform, this Agreement; and any information that is marked or designated as "Confidential" or with like notice; (ii) as to the party disclosing the information, any information related to that party's assets, liabilities, financial results, financing plans, business strategies, product development plans, operations, source code, technology, know-how, trade secrets, customers, vendors, contractors, Extremes and personnel, and all other information that a reasonable person would understand to be confidential; and (iii) as to Customer, data center locations, data center designs (including non-graphic information observed at Customer's data center); but excluding in all cases any information which is independently developed by the other party as shown by such party's written business records, is or becomes generally available to the public other than through breach of this Agreement, or violation of law or other agreement. Each party agrees not to disclose the other party's Confidential Information to any third party except to its agents, advisors, affiliates and representatives, and with respect to Extreme, its potential investors, each who need to know the information to represent or advise it with respect to the subject matter of this Agreement and who are bound by non-disclosure obligations at least as stringent as those stated in this Agreement; provided, however, that a party will not be liable for disclosure of the other party's Confidential Information if it is required by law or regulation to be disclosed and, to the extent not prohibited by applicable law or regulation, the disclosing party gives advance written notice of the disclosure to the other party at the earliest possible time, or the party discloses the information as part of a bona fide legal proceeding to enforce its rights under this Agreement. Each party agrees to use at least a reasonable degree of care to protect the other party's Confidential Information. Each party agrees not to use the other party's Confidential Information except in connection with the performance of its obligations or exercise of its rights under this Agreement. Each party shall return or destroy the other party's Confidential Information on completion of the Subscription, or earlier on request of the other party, provided that a party may retain the other party's Confidential Information if reasonably necessary to use the Subscription, or to maintain reasonable and customary business records and (ii) the obligation to return or destroy does not extend to automatically generated computer back-up or archival copies generated in the ordinary course of receiving party's information systems procedures, provided that except as otherwise permitted herein, receiving party shall make no further use of such copies. On request of a party, an officer of the other party shall certify its compliance with the preceding sentence.
- 10.2 This Agreement shall not limit either party's present or future business activities or relationships of any nature, including business activities or relationships that may be competitive with those of the other party. similar to or coincident with the activities of the other party or its Confidential Information. Accordingly, each party further acknowledges that this Agreement shall in no way limit, restrict or preclude either party from assigning employees or pursuing any of its present or future business activities or interests, either alone or in conjunction with other parties, or from entering into any agreements or transaction with any other person or entity, regardless of whether such business activities and interests are competitive with any actual or proposed business activities and interests of the other party. The parties further agree that each may in the future develop or purchase products or services related to or similar to the subject matter of this Agreement.

The parties agree that monetary damages would not be a sufficient remedy for breach of this section and therefore agree that either party shall be entitled to seek injunctive and other specific relief. Notwithstanding anything in this Agreement to the contrary, the provisions of this Section 10 shall survive for two (2) years after expiration or termination of this Agreement.

11. INDEMNIFICATION

- 11.1 **General Indemnification.** Each party will defend the other, the other's Affiliates, and each of their respective directors, officers, agents, and employees against any unaffiliated third party claim based on that party's gross negligence or intentional misconduct, and indemnify each of them from the resulting losses, damages, and costs and expenses (including reasonable attorney fees) finally awarded to the third party by a court of competent jurisdiction or pursuant to a settlement agreement. The indemnifying party may settle, at its sole expense, any claim for which it is responsible under this Subsection. - 11.2 **Intellectual Property Indemnification**. Extreme will defend Customer, and each of its respective directors, officers, agents, and employees (collectively, the "Customer Indemnitee"), against any unaffiliated third party claim that the Extreme Technology infringes the third party's United States or European Union patent, trademark, copyright, or valid trade secret (each, an "IP Claim"), and indemnify the Customer Indemnitee from all resulting losses, damages, costs, and expenses (including reasonable attorneys' fees) finally awarded to the third party by a court of competent jurisdiction (or an arbitration panel or other tribunal, as applicable) or pursuant to a settlement agreement (collectively referred to as "Damages") provided that Customer shall promptly notify Extreme in writing of the claim, provide Extreme sole control over the defense and/or settlement of such claim with Extreme's choice of counsel, and at Extreme's request and expense, provide full information and reasonable assistance to Extreme with respect to such claim. Notwithstanding the prior sentence, Customer's failure to give prompt notice of the claim shall not relieve Extreme of its obligations under this Section except to the extent such failure prejudices Extreme's defense of the matter. Extreme may settle, at its sole expense, any IP Claim for which Extreme is responsible under this Section. Extreme will not be obligated to defend or be liable in any manner for infringement to the extent arising out of: (a) required compliance with Customer-provided technology or specifications; (b) modification of Extreme Technology (except modifications provided by Extreme) or use of such Extreme Technology not in accordance with Specifications; (c) Customer's combination, operation or use of the Extreme Technology with hardware, software or other materials not provided by Extreme; (d) Customer's failure to use reasonable materials or instructions provided by Extreme which would have rendered the Extreme Technology non-infringing. The Customer Indemnitee reserves the right to employ counsel at its own expense and participate in the defense and/or settlement of any IP Claim. In addition to the foregoing, should any Extreme Technology become, or are likely to become, in Customer's reasonable opinion, the subject of such a claim, Extreme shall, at its expense either: (1) procure for Customer the right to make continued use thereof; or (2) replace or modify such with a non-infringing replacement or modification that is functionally equivalent or better than the replaced Extreme Technology; provided, however, that if Extreme is unable through the use of commercially reasonable efforts to do either, then Extreme may request return of the Extreme Technology, and, upon receipt thereof; no further monthly recurring fees for the Subscription(s) will be

due and payable by Customer for that part of the Subscription that includes the infringing Extreme Technology and shipping costs associated with returning the infringing Extreme Technology.

11.3 The foregoing provisions of this Section state the entire liability and obligations of Extreme and the exclusive remedy of Customer with respect to any actual or alleged infringement of any intellectual property right by the Extreme Technology, or any part thereof.

12. LIMITATION OF LIABILITY

- 12.1 NEITHER EXTREME NOR ANY OF ITS PERMITTED ASSIGNEES (NOR THEIR EMPLOYEES, AGENTS, SUPPLIERS OR AFFILIATES) SHALL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL LOSS OR DAMAGE OF ANY KIND, INCLUDING WITHOUT LIMITATION ARISING IN CONNECTION WITH THE AGREEMENT, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, EVEN IF THE PARTY HAS BEEN ADVISED OR SHOULD BE AWARE OF THE POSSIBILITY OF SUCH DAMAGES. 14. RELATIONSHIP OF THE PARTIES

Each party is an independent contractor of the other and nothing in this Agreement shall be construed to create an association, trust, partnership, joint venture, or agency relationship between the parties. Although the parties may refer to each other colloquially as "partners" they do not intend to create a partnership, and neither party has any fiduciary duty, obligation, or liability to the other or any obligation to share profits and losses. 11.1 Performance Standards.

The Contractor agrees to perform all tasks and provide deliverables as set forth in the Contract. The Department and the Customer will be entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and of the details thereof.

11.2 Performance Deficiencies and Financial Consequences of Non-Performance.

11.2.1 Proposal of Corrective Action Plan.

In addition to the processes set forth in the Contract (e.g., service level agreements), if the Department or Customer determines that there is a performance deficiency that requires correction by the Contractor, then the Department or Customer will notify the Contractor. The correction must be made within a time-frame specified by the Department or Customer. The Contractor must provide the Department or Customer with a corrective action plan describing how the Contractor will address all performance deficiencies identified by the Department or Customer.

13

any circumstances that may reasonably be expected to jeopardize the timely and successful completion (or delivery) of any commodity or contractual service. The Contractor will use commercially reasonable efforts to avoid or minimize any delays in performance and will inform the Department or the Customer of the steps the Contractor is taking or will take to do so, and the projected actual completion (or delivery) time. If the Contractor believes a delay in performance by the Department or the Customer has caused or will cause the Contractor to be unable to perform its obligations on time, the Contractor will promptly so notify the Department and use commercially reasonable efforts to perform its obligations on time notwithstanding the Department's delay.

11.3.2 Liquidated Damages.

The Contractor acknowledges that delayed performance will damage the Department Customer, but by their nature such damages are difficult to ascertain. Accordingly, the liquidated damages provisions stated in the Contract documents will apply. Liquidated damages are not intended to be a penalty and are solely intended to compensate for damages.

11.4 Force Majeure, Notice of Delay, and No Damages for Delay.

The Contractor will not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay, and the delay is due directly to fire, explosion, earthquake, windstorm, flood, radioactive or toxic chemical hazard, war, military hostilities, terrorism, civil emergency, embargo, riot, strike, violent civil unrest, or other similar cause wholly bevond the Contractor's reasonable control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. The foregoing does not excuse delay which could have been avoided if the Contractor implemented any risk mitigation required by the Contract. In case of any delay the Contractor believes is excusable, the Contractor will notify the Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) calendar days after the cause that created or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) calendar days after the date the Contractor first had reason to believe that a delay could result. The foregoing will constitute the Contractor's sole remedy or excuse with respect to delay. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages will be asserted by the Contractor. The Contractor will not be entitled to an increase in the Contract price or payment of any kind from the Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor will perform at no increased cost, unless the Department determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State of Florida or to Customers, in which case the Department may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers and the Department with respect to commodities or contractual services subjected to allocation. or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the commodity or contractual services that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

SECTION 12. CONTRACT AUDITS.

12.1 Performance or Compliance Audits.

The Department may conduct or have conducted performance and/or compliance audits of the Contractor and subcontractors as determined by the Department. The Department may conduct an audit and review all the Contractor's and subcontractors' data and records that directly relate to the Contract. Commission Meeting Date: 10/18/2022

Requested Action by Commission: Approve Amendment No.1 to Task Order UT-2C-03 with CDM Smith Inc. the amount of \$320,940.00 for updating the Stormwater Master Plan (SWMP) for the City's Downtown Watershed in accordance with RFQ No. 046-2821-17/TP, General Consulting Services Contract, Scope C awarded by City Commission on August 7, 2018 and renewed on August 20, 2022.

Explanation of Request: Boynton Beach Utilities is utilizing the General Consulting Services Contract (RFQ No. 046-2821-17/TP) to support Utilities Capital Improvement Projects (CIP) prioritization for the Downtown Watershed, which is generally east of I-95, south of the Boynton Canal (C-16 Canal), east to the Intracoastal Waterway, and extending south of Ocean Avenue. The project area includes the Downtown Stormwater Pond and the Heart of Boynton areas. CDM Smith, Inc. will provide an update of the stormwater Master Plan (SWMP), stormwater hydraulic modeling, analysis of alternatives, permitting support, and training of City staff to use the stormwater modeling software for future simulations. The update of the SWMP for the City's Downtown Watershed will provide guidance for planning of future stormwater improvements in the area.

South Florida receives 62 inches of rainfall per year on average, compared to the U.S. average of 39 inches. The increased frequency and intensity of storm events can result in increased street flooding from rain events. Seasonal King tides, high tide events, and impacts of sea level rise have increased the flooding potential. Standing water due to flooding can also lead to roadway deterioration, causing further accessibility problems for the residents, businesses and visitors.

As part of this task order, CDM Smith will convert the existing SWMM5 model to the latest version of the Interconnected Channel and Pond Routing Stormwater Model Version 4 (ICPR4). The ICPR4 model is widely used for engineering stormwater calculations, and ICPR4 will be the standard stormwater hydraulic modeling software for the Utilities and Public Works Departments.

The original Task Order and proposed amended fee for this Task Order are as follows:

Original Task Order fee: \$99,960.00

Amendment No. 1: \$320,940.00

For a total Task Order fee of: \$420,900.00

How will this affect city programs or services?

The project will address stormwater management in the Downtown Watershed east of I-95 and will provide guidance for the planning of future stormwater improvement projects throughout the area to improve the City's Level of Service (LOS) to residents and businesses.

Fiscal Impact:

Funding is available in the Utilities accounts 403-5000-536-31.90 US2302 and 403-5000-538-65.09 STM.

Alternatives: Do not approve the requested Amendment No. 1.

Strategic Plan: High Performing Organization, Public Health and Safety, Environmental Sustainability

Strategic Plan Application: The stormwater modeling update and CIP prioritization will allow utilities to be better prepared for future projects and maintaining stormwater drainage in the downtown area and do it is an efficient and sustainable way.

DOWNTOWN STORMWATER MODELING EVALUATION

CITY OF BOYNTON BEACH

CONTRACT NO.: 046-2821-17/TP – GENERAL CONSULTING SERVICES SCOPE CATEGORY "C"

This Task Order (TO), when executed, shall be incorporated in and become part of the Agreement for Professional Services between the City of Boynton Beach (CITY) and CDM Smith Inc. (CONSULTANT), dated August 20, 2018, hereafter referred to as the Agreement.

BACKGROUND

In June 2020, The CONSULTANT completed the Downtown Watershed Stormwater Model Update Report (2020 Report) for the CITY. The purpose of the 2020 Report was to provide guidance for the planning of future stormwater improvements in the Downtown Watershed to improve Level of Service (LOS) for flood control and water quality improvement. **Figure 1** presents a map of the Downtown Watershed. It should be noted that the Environmental Protection Agency's Stormwater Management Model Version 5 (SWMM5) was the tool used to develop the recommendations presented in the 2020 Report.

In support of the development community, the CITY requested that the EPASWMM Version 5 stormwater models be migrated to the latest version (currently 4.07.08) of the Interconnected Channel and Pond Routing Stormwater Model Version 4 (ICPR4). The development community is more versed in using ICPR4 compared to SWMM5, and therefore, the CITY hopes this migration will help streamline its review of development and re-development plans against the findings presented in the 2020 Report. Following the model migration, the CITY has requested that the CONSULTANT perform the following evaluations:

- Updating the Downtown Watershed basin model to include proposed developments submitted after the 2020 Report.
- Assess the feasibility of additional infrastructure such as surface and/or groundwater storage projects and use of recharge wells.
- Obtaining input from the South Florida Water Management District (SFWMD) on the permit requirements for recommended improvements.
- Provide the CITY with peak discharge rates by hydrologic unit in the study area for the existing (2022) modeled stormwater management system.
- Estimate the additional capacity (storage, treatment, and conveyance) of the stormwater management system 49.7-acre tributary area to the Downtown Stormwater Pond (ERP 50-04166-P).

Page **1** of **9** jj3290_TO.docx

SCOPE OF WORK

The following is a description of the CONSULTANT services to be provided under this Task Order (TO):

Task 1.0 - Stormwater Model Conversion to ICPR4

The CONSULTANT will convert the stormwater model associated with the 2020 Report from SWMM5 to ICPR4 as defined in the subtasks below:

Subtask 1.1 Hydrologic Model Conversion

The Horton equation was used to estimate stormwater infiltration from rainfall in the SWMM5 model. For this TO, the Green-Ampt (GA) infiltration method will be used to distinguish rainfall infiltration from runoff in the hydrologic evaluations performed using ICPR4 as selected by the CITY. The GA parameters will be developed under this Subtask using the same land use, soils, and hydrologic unit boundaries used for the 2020 Report. The new hydrologic parameters will be added to the ICPR4 model data sets developed for this TO. The percent impervious estimates to be used in the ICPR4 model will be based on the values from the SWMM5 hydrology.

Subtask 1.2 Hydraulic Model Conversion

The hydraulic elements developed for the SWMM5 models used to develop the 2020 Report will be migrated to the ICPR4 data set using manual input and/or digital tools when appropriate (e.g., Microsoft EXCEL). Elements will include stormwater pipes, channels, weirs, infiltration systems (trenches, wells), storage areas (depression areas, ponds, etc.), and pump stations.

Subtask 1.3 Stormwater Model Comparison

Using the ICPR4 stormwater model for the Downtown Watershed, the CONSULTANT will simulate the following design storm events:

- 10-Year/72-Hour 10.7 inches of rainfall
- 25-Year/72-Hour 13.5 inches of rainfall
- 100-Year/72-Hour 18.4 inches of rainfall

The South Florida Water Management District (SFWMD) rainfall distribution will be used for these 3 design storm events. A summary table of predicted peak stages will be developed and compared to the resultant peak stages estimated by SWMM5 in the 2020 Report. The ICPR4 model input parameters may be adjusted until they reasonably match the results presented in the 2020 Report (+/- 0.5-foot).

Task 2.0 - Existing Conditions Stormwater Model Updates

The CONSULTANT will update the ICPR4 model data developed under Task 1 to include the stormwater infrastructure associated with the following proposed/ongoing developments identified by the CITY, as shown in **Attachment 1**, and including the following:

- 1. Ocean One
- 2. Broadstone
- 3. CRA Project NE 1st Avenue
- 4. 500 Ocean
- 5. The Village at East Ocean
- 6. Town Square
- 7. Future project Federal Highway/SE 2nd Ave./SE 4th St.

Page **2** of **9** jj3290_TO.docx

- 8. Cottage District
- 9. Ocean Breeze East
- 10. Wells Landing North and South

Updates will include refinement of up to 25 hydrologic unit boundaries, changes in land use intensity, proposed stormwater infrastructure, and available geotechnical information influencing the infiltration rates of the proposed development.

Task 3.0 – Stormwater Model Simulations

Using the updated ICPR4 stormwater model, the CONSULTANT will simulate the following design storm events under 2022 land use conditions using the SFWMD rainfall distribution:

- 10-Year/72-Hour 10.7 inches of rainfall
- 25-Year/72-Hour 13.5 inches of rainfall
- 100-Year/72-Hour 18.4 inches of rainfall

It should be noted that the total rainfall volumes listed above will be confirmed with the CITY prior to completing the stormwater model simulations. If a different rainfall volume is preferred by the CITY, the CONSULTANT will replace the listed rainfall volume for a given design storm event with the rainfall volume preferred by the CITY. The CONSULTANT will use the model results to develop the following tables for each design storm event:

- Summary table of peak runoff rates from each hydrologic unit in the study area.
- Summary table of peak water surface elevations predicted for each modeled node.
- Summary table of peak flows predicted for each modeled conduit.

The summary table of peak water surface elevations for each model node will be used to estimate the Level-of-Service (LOS) for the CITY's existing stormwater management system following the same methodology used in the 2020 Report.

Task 4.0 – Alternatives Model Simulation and Analysis

Under this task, the CONSULTANT will simulate and analyze 4 alternative scenarios, as mutually agreed upon with the CITY, and as defined below. Alternatives will consider the proposed developments identified under Task 2. The alternative model simulations will be performed using the 100-Year, 25-Year, and 10-Year/72-hour design storm events. An 11" by 17" plan view map will be developed for each alternative using GIS tools to show the general locations of the proposed alternatives.

Page **3** of **9** jj3290_TO.docx

Subtask 4.1 Alternative 1 – Expansion of the Existing Downtown Stormwater Pond

The CONSULTANT will assess the current capacity and viability of expanded treatment and/or attenuation in the Downtown Treatment Pond, including removal of sediment build-up estimated by Others. This alternative will include the following considerations:

- Simulating the peak rate and volumetric loadings to the Downtown Stormwater Pond using the updated Existing Condition Model from Task 1 and the updated redevelopment model from Task 3.
- Assessing the simulated volumetric and flow rate contribution to the Downtown treatment pond and comparing to permitted volumetric capacity.
- Estimating the permanent pool residence time.
- Consideration of the current sedimentation in the pond and its removal using the results from bathymetric survey (survey to be performed by Others).
- Discussing results, with the CITY and the SFWMD, regarding the possibility of a permit modification for an increase in the contributing area and increase in density within the existing contributing area.

The CONSULTANT will incorporate the recommended improvements to the Downtown Stormwater Pond into the ICPR4 model for Alternative 1. The resultant peak stages predicted by ICPR4 will be summarized in a table.

Subtask 4.2 Alternative 2 – Potential Stormwater Pond Sites

The CONSULTANT will review potential pond sites previously presented to the CITY to determine if they are viable for future consideration along with other green space visible from the most recent aerial photography made available by the CITY. For those sites deemed viable for stormwater facilities, the CONSULTANT will incorporate those sites (up to 3 locations) into the ICPR4 model for Alternative 2. The resultant peak stages predicted by ICPR4 will be summarized in a table.

Subtask 4.3 Alternative 3 - Stormwater Recharge Analysis

The CONSULTANT will review available as-built and operational data provided by the CITY for two (2) existing recharge wells in the Downtown Stormwater Pond. The CONSULTANT will assess the potential for additional recharge flow rates or additional recharge wells within the Downtown Watershed and their benefit. The CONSULTANT will evaluate the proposed recharge rate changes and/or up to five (5) new recharge wells recommended using the ICPR4 model and the resultant predicted peak stages will be summarized in a table.

Subtask 4.4 Alternative 4 - Conveyance and Exfiltration Improvements Analysis

The CONSULTANT will identify locations where conveyance and exfiltration improvements are needed to meet LOS and provide treatment. This will include a review of the recommendations from the 2020 Report with CITY staff to determine if the proposed locations remain viable for implementation. For those sites deemed viable for conveyance and exfiltration improvements, the CONSULTANT will incorporate them into the ICPR4 model for Alternative 4. The resultant peak stages predicted by ICPR4 will be summarized in a table.

Task 5.0 Recommended Alternative Concepts and Cost Estimating

The CONSULTANT will meet with the CITY to select an overall recommended alternative that may include elements of Alternatives 1 through 4, as defined in Task 4, and stormwater infrastructure

Page **5** of **9** jj3290_TO.docx

associated with the proposed development identified under Task 2. For the overall recommended alternative plan (One (1) scenario), the CONSULTANT will develop conceptual layouts of the recommended infrastructure using aerial photography, existing topographic contours, and parcel data. The CONSULTANT will provide the CITY with an engineer's opinion of the conceptual cost of construction for the recommended alternative. The CONSULTANT will prepare the following tables for the recommended alternative:

- Summary table of peak runoff rates from each hydrologic unit
- Summary table of peak water surface elevations predicted for each modeled node
- Summary table of peak flows predicted for each modeled conduit

Task 6.0 - Model Update Report

The CONSULTANT will prepare a report that summarizes the findings of Task 1 through 5 above. The Draft Report will be submitted to the CITY for review and comment. The CONSULTANT will meet with the CITY to discuss the results of the Draft Report and mutually agree how the CITY comments should be incorporated into a Final Report. The CONSULTANT will then incorporate comments from the CITY into a Final Report. For planning purposes, the draft and final reports will include the following sections and utilize the relevant sections from the 2020 Report.

- Executive Summary
- Section 1 Introduction
- Section 2 Stormwater Model Methodology
- Section 3 Stormwater Model Results
- Section 4 Alternatives Analysis & Recommendations

The CONSULTANT shall provide two (2) printed copies of a 3'x4' reference map, suitable for wall mounting, depicting the basins, conveyance and known development parcels and predicted peak runoff rates by design storm event from each hydrologic unit under existing land use and hydraulic conditions.

Task 7.0 - ICPR4 Modeling Software Limited Training and Limited Technical Support

The CONSULTANT will prepare for and provide 16 hours of training to CITY Utilities and/or Public Works staff regarding the use of ICPR4 software specific to the stormwater model data sets developed under this TO for the CITY. The CITY will be able to extract model details and results as well as modify and perform additional simulations. The CITY will be responsible for securing their ICPR4 user's license and associated user's manual from Streamline Technologies, Inc.

The CONSULTANT will provide up to 12 hours of remote (virtual) technical support to answer any follow-up questions from City staff and related to the use of ICPR4. Technical support is specific to the stormwater model data sets developed under this TO.

Task 8.0 - Project Management, Meetings, and Quality Management

CONSULTANT will perform administrative and project management activities throughout the project consistent with CONSULTANT's quality management program and CITY's requirements.

Specific activities included are identified below:

Page **6** of **9** jj3290_TO.docx

Subtask 8.1 Project Management

CONSULTANT will perform administrative and project management activities throughout the project consistent with CONSULTANT's quality management program and CITY's requirements. Project management will include maintaining lines of communication and project coordination, monthly financial performance monitoring of the budget and status reports, reporting schedules, technical conference calls, managing technical project resources, and maintaining quality control.

Subtask 8.2 Meetings

The CONSULTANT will attend up to ten (10) meetings with the CITY. The proposed meetings include: one (1) project kickoff meeting with CITY staff, one (1) meeting to gather additional data, three (3) meetings to provide project status, review the results of the models or review alternative concepts, one (1) meeting to discuss Draft Model Update Report, and two (2) meetings with regulatory agencies (i.e., SFWMD, FDEP) to discuss environmental permitting requirements. The CONSULTANT will prepare meeting minutes for documentation purposes.

Subtask 8.3 Project Quality Technical Review

The CONSULTANT maintains a quality management system (QMS) for CITY projects performed by CONSULTANT. Technical reviews of deliverables are budgeted for and will be performed to review various milestone submittals.

Task 9.0 - Survey and Geotechnical Support Project Allowances

The CONSULTANT will identify surveying and/or geotechnical engineering needs for the project and will submit to CITY PM for written approval, prior to proceeding with work under this Task.

Subtask 9.1 Stormwater Infrastructure Surveying

The CONSULTANT will identify remaining survey data gaps needed to complete stormwater model updates under this TO. The survey data gaps will be identified once the existing conditions model is updated. Survey work will be performed under a subtask allowance of up to \$20,000.

The CONSULTANT will get written confirmation from CITY PM prior to engaging the services of a professional surveyor licensed in FL. The survey may include stormwater structure geometric and elevation data, as well as finished floor elevations to be incorporated into this study. Survey work will be performed in accordance with CITY specifications, as detailed in **Attachment 2**.

Subtask 9.2 Geotechnical Engineering

The CONSULTANT will secure services from a geotechnical engineering firm licensed in FL to estimate the hydraulic conductivity of the soils and depth of water table for up to 5 locations. This may include a determination of a potential presence of "hard pan" or other non-conductive layers for exfiltration capacity. The resultant information will be considered in both the ICPR4 model parameters and the evaluated alternatives to improve the stormwater management LOS provided by the CITY.

ASSUMPTIONS

The services defined in Tasks 1 through 9 are based upon the following assumptions:

The CITY will provide data, support, and reviews as identified above, including existing GIS
coverages, available survey for the stormwater management system, and proposed
development plans for the study area. The CITY will also provide operational data and as-builts
for existing recharge wells.

PROPOSAL FOR SHARED-SITE HEALTH CENTERS

Prepared for:

City of Boynton Beach, Florida

OVERVIEW

CareATC is a national integrated health solutions company that enables employers to reduce healthcare costs by improving the health of their workforce. Since 2000, CareATC's comprehensive healthcare solution has driven engagement, improved health outcomes, lowered healthcare costs, and provided a transparent vision of the total cost of care.

CareATC is proposing that the City of Boynton Beach convert its dedicated on-site health center to the CareATC shared-site network in Southeast Florida. We would build out two new shared-site health centers in Boynton Beach that would be available not only to Boynton Beach employees but also to all CareATC clients in Southeast Florida, which would include NextEra Energy, Palm Beach County School District, Miami-Dade County School District, and potentially others. In addition to these two health centers, Boynton Beach beneficiaries will have access to the additional shared-site health centers that will be developed with the partners referenced above. The goal is to expand access through a combination of additional shared-site locations and the addition of Virtual Primary Care services.

- **Health Center Hours:** These shared-site health centers will be open 5 days a week, 8 am to 5 pm EST.
- Musculoskeletal Services: Employees will be proactively identified by CareATC physician or therapist through an MSK screening and standardized triage process virtually or in-clinic and categorized as Low, Medium, or High-Risk for MSK spend and/or disability and triaged as indicated. See page 3 for more details.
- Patient Advocacy Services (virtual): The patient advocate is a dedicated Licensed Clinical Social Worker who helps patients navigate the healthcare system. They will work in tandem with the client to identify key vendors, resources, etc. to ensure members are maximizing current utilization within the company benefit offerings and community resources. See pages 3&4 for more details.
- Occupational Health Services: Our occupational health specialists will work with you to bring cost savings through providing on-site, work-related healthcare services and promoting employee safety. See page 6 for more details.
- Virtual Primary Care: We are proposing this addition at no additional cost to expand access for members who do not have easy access or to cover times during which the health center is not available. Virtual Primary Care during business hours would be through a CareATC provider that is affiliated with the Boynton Beach health centers. See page 5 for more details.
- After-Hours Telehealth Services: Available through CareATC at no additional cost. This service integrates with the CareATC EMR. See page 5 for more details.

^{*}These additional shared-site locations will be built out over the next 2-3 years.

POPULATION HEALTH PROGRAM OVERVIEW

MSK Services are supported by the following capabilities:

 - a greater touchpoint in care
- All MSK services improve engagement and allow for efficient and cost-effective staffing.

HEALTH COACHING & PATIENT ADVOCACY

Coaching

Coaching participants are identified by CareATC's PHA risk stratification, provider encounter assessment resulting in a referral, and claims data analysis. Risks include: Diabetes, Cardiovascular Disease, Obesity, and Hypertension.

Length of enrollment is dependent upon progress and goals. Typically, participant begin in the Active Phase, with visits every 2-3 weeks. Once participants begin meeting their goals and build confidence (after ~3-4 months), they move to the Maintenance Phase with visits every 2-3 months for about 6-9 months. Once they have shown a reduction in risk and are on a regimented nutrition program on their own, they graduate out of the program.

The health coach is responsible for managing chronic conditions in collaboration with primary care services to facilitate improved health outcomes.

CareATC's health coaches are managed by our CareATC Manager of Health Education, who conducts chart reviews on a regular basis and reviews education curriculum. Nutrition education curriculum consists of handouts, webinars, cooking demos, recipes, monthly general group education, or longer term targeted group education programs (i.e. Diabetes Management, Healthy Weight Program, etc.).

Advocacy

Another facet critical to engagement and population health outcomes and success is patient advocacy. The patient advocate is a dedicated Licensed Clinical Social Worker who helps patients navigate the challenging healthcare system. This person will work in tandem with the client to identify key vendors, resources, etc. to ensure members are maximizing current utilization within the company benefit offerings and community resources. Patient advocates are the most visible members of the clinical team, answering client questions, making a complex system more understandable, and providing a dedicated partner for the patient's healthcare journey.

Role and responsibilities of the patient advocate:

- Engagement
- Patient Outreach
- Benefit & Resource Navigation
- Community Resources
- Behavioral & Mental Health Support

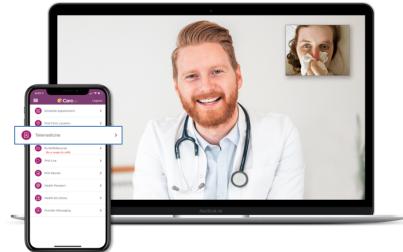

Patient advocates collaborate with physicians to systemically identify high-risk patients in need, serve as their patients' advocate and care navigator, proactively connect patients to high-quality and cost-effective resources, and bridge communication gaps between resources.

VIRTUAL CARE OPTIONS

VIRTUAL PRIMARY CARE

CareATC offers primary care services via virtual visits during normal business hours to supplement health center access. This solution is included in our pricing at no additional cost. Wait time for our virtual care solution is less than 30 minutes, unlike competitors, whose patients are waiting more than 4 hours. If they are unable to get an appointment during their preferred time at a physical health center, patients can make appointments with a Boynton Beach-affiliated CareATC physician via phone or video. During the visit, all information is captured in our EMR so the follow-up is consistent with no gaps in care. Care beyond acute needs can be offered, including a full range of primary care - chronic condition management, patient education, health prevention, disease prevention, etc. Virtual Primary Care visits will include referral services and medications through @home dispensing programs or ePrescribe.

- Business-hours access to Boynton Beach CareATC providers
- Easy-to-use video platform
- Conveniently located within the CareATC mobile app and patient portal
- Medical record & patient portal integration
- Easy setup and on-boarding

CONTRACT PROPOSAL

PROPOSED PRICING

BASE PEPM RATE \$72.50 PEPM

APPENDIX

CAREATC HEALTH CENTER DESIGN

Our Facilities team follows evidence-based clinical design principles to provide optimal patient experience, which is tied to an improvement in their perception of care and higher clinical outcomes. We know from evidence-based design research that color, light, access to nature, and control over one's environment improves clinical outcomes and promotes a sense of wellbeing. CareATC is the nation's first provider of on-site health centers to be awarded the Evidence-Based Design Certification.

CareATC will follow your direction regarding facility construction and buildout. If buildout of any type is needed, our Facilities team is experienced and capable of managing the health center building from design to ongoing maintenance. This includes location identification, space and CAD drawings based on evidence-based clinical design practices, and buildout management. This team maintains the health center and performs any necessary repairs.

Below are examples of how we consider evidence-based clinical design in the different facets of our health center planning and design.

We have also provided photos below of some of the spaces within our health centers. Each health center is customized to the specific needs of the client, with some basic design and branding remaining consistent across our health centers nationwide.

Prior to doing so, the Business Associate further agrees to recover any PHI in the possession of its subcontractors or agents. If it is not feasible for the Business Associate to return or destroy the PHI, the Business Associate will notify the Covered Entity in writing of such infeasibility. The notification shall include: (i) a statement that the Business Associate has determined that it is not feasible to return or destroy the PHI in its possession; and (ii) the specific reasons for that determination. Business Associate further agrees to extend any and all protections, limitations and restrictions contained in this Business Associate Agreement to the Business Associate's use or disclosure of any PHI retained after the termination of this Business Associate Agreement, and to limit any further uses or disclosures to the purposes that make the return or destruction of the PHI not feasible. If it is not feasible for the Business Associate to obtain from a subcontractor or agent any PHI in the possession of the subcontractor or agent, the Business Associate must provide a written explanation to the Covered Entity and require the subcontractors and agents to agree to extend any and all protections, limitations and restrictions contained in this Business Associate Agreement to the subcontractors' or agents' use or disclosure of any PHI retained after the termination of this Business Associate Agreement, and to limit any further uses or disclosures to the purposes that make the return or destruction of the PHI not feasible.

In the event an amendment to this Business Associate Agreement cannot be agreed upon by the Parties, the Parties agree to resolve the dispute pursuant to Section 7.8.
- 7.5 <u>No Third-Party Beneficiaries</u>. Nothing express or implied in this Business Associate Agreement is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations or liabilities whatsoever.

The purpose of the bid was to obtain the services of a licensed, qualified contractor to construct approximately 1,600 linear feet (LF) of drainage pipe, 25 drainage structures, a gravity outfall, an outfall built for emergency pumping, in addition to 1,130 LF of water main replacement. Ancillary items associated with the construction of the stormwater management system include but are not limited to sanitary and water service line adjustments, driveway replacements, curbing, roadway widening and restoration, and erosion control measures. The Project will be constructed entirely on City Right-of-Way (ROW) and easements dedicated to the City.

 - 15.3.2 CITY may complete the Agreement, or any part thereof, either by day labor, use of a subcontractor, or by re-letting a contract for the same, and procure the equipment and the facilities necessary for the completion of the Agreement, and charge the cost of same to CONTRACTOR and/or the Surety together with the costs incident thereto to such default.

Should such cost to CITY be greater, CONTRACTOR shall pay the amount of such excess to the CITY.
 - 15.3.5 Notwithstanding the other provisions in this Article, CITY reserves the right to terminate the Agreement at any time, whenever the service provided by CONTRACTOR fails to meet reasonable standards of the trade after CITY gives written notice to the CONTRACTOR of the deficiencies as set forth in the written notice within fourteen calendar (14) days of the receipt by CONTRACTOR of such notice from CITY.

- 16.1.3 CONTRACTOR will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with CONTRACTOR's legal duty to furnish information.
- 16.1.4 CONTRACTOR will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of CONTRACTOR's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

- 16.1.8 CONTRACTOR will include the provisions of paragraphs (16.1.1) through (16.1.8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. CONTRACTOR will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided*, however, that in the event CONTRACTOR becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous.

CONSULTANT or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (16.4.1) through (16.4.4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. - 16.16.1.1 Section 889(b) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, Pub. L. No. 115-232, and 2 C.F.R. § 200.216 prohibit the head of an executive agency on or after Aug.13, 2020, from obligating or expending grant, cooperative agreement, loan, or loan guarantee funds on certain telecommunications products or from certain entities for national security reasons.
- 16.16.1.2 Unless an exception in paragraph 16.16.2 of this clause applies, the CONTRACTOR and its subcontractors may not use grant, cooperative agreement, loan, or loan guarantee funds from the Federal Emergency Management Agency to:
 - 16.16.1.2.1 Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

16.16.2 **Exceptions**.

- 16.16.2.1 This clause does not prohibit CONTRACTOR from providing: (i) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or (ii) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.
- 16.16.2.2 By necessary implication and regulation, the prohibitions also do not apply to: (i) Covered telecommunications equipment or services that: i. Are not used as a substantial or essential component of any system; and ii. Are not used as critical technology of any system. (ii) Other telecommunications equipment or services that are not considered covered telecommunications equipment or services.

16.16.3 Reporting requirement.

- 16.16.3.1 In the event CONTRACTOR identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the contractor is notified of such by a subcontractor at any tier or by any other source, the contractor shall report the information in paragraph 16.16.3.2 of this clause to the recipient or subrecipient, unless elsewhere in this contract are established procedures for reporting the information.
- 16.16.3.2 The CONTRACTOR shall report the following information pursuant to paragraph 16.16.3.1 of this clause: (i) Within one business day from the date of such identification or notification: The contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended. In addition, the contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services. The CONTRACTOR shall insert the substance of this clause, including this in all subcontracts and other contractual instruments.
- 16.17 **Domestic Preference for Procurements**. As appropriate, and to the extent consistent with law, the CONTRACTOR should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause: Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.
- 16.18 **Affirmative Socioeconomic Steps**. If subcontracts are to be let, CONTRACTOR is required to take all necessary steps identified in 2 C.F.R. § 200.321(b)(1)-(5) to ensure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible.
- 16.19 License and Delivery of Works Subject to Copyright and Data Rights. If applicable, the CONTRACTOR grants to CITY, a paid-up, royalty-free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish, or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, CONTRACTOR will identify such data and grant to the CITY or acquires on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software and/or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audiovisual works, sound and/or video recordings, and architectural works. Upon or before the completion of this contract, CONTRACTOR will deliver to the CONTRACTOR data first produced in the performance of this contract and data required by the contract but not first produced in the performance of this contract in formats acceptable by CONTRACTOR.

- (7) days from Contractor's knowledge of a delay. Contractor shall not receive any compensation for additional time required to complete the work as a result of any delay.
- b. The Contractor shall assume all risks resulting from delays except that should the City, by act or omission, intentionally and without reason, cause delays which result in actual loss to the Contractor. Reimbursement thereof may be adjusted and allowed by the City only after being notified in writing by the Contractor at the time of the delay and after being given an opportunity to verify such money losses as they occur. No payment or adjustment will be allowed to the Contractor as reimbursement for any other delays whatsoever; regardless of by what or by whom caused, even though by other Contractors on the same work, or by times, seasons, or weather; other than amounts provided in the Contract for payment which shall be understood to include and cover all risks due to delays except as stated in the foregoing.
- c. If the Contractor fails to start the work within the time specified, and if the City should nevertheless permit the Contractor to continue and complete the same without official extension of time in writing, such permission shall not modify nor waive any liability of the Contractor for damages arising from non-completion of work within the time limit, but all such liabilities shall be subject to continuation in full force against the Contractor.
- d. Liability of the Contractor will include any claim by any person for bodily or property damage after the Notice to Proceed was given for the requested work.

PBC Assessed Value: \$880 Offer by: Howard Brown Offer Amount: \$1.00

According to Chapter 2, Article IV, Section 2-56 (c) of the City of Boynton Beach Code of Ordinances, the City Commission can sell property, which is determined to be in the best interest of the City:

An advertisement for public hearing was placed in the Palm Beach Post on October 7, 2022.

It is recommended that the City Commission authorize disposition of the property through negotiated sale with the sender of the Letter of Interest, Howard Brown.

Section 2-56 (c) Disposal of city real property.

- (1) Power to sell. The City Commission may authorize by Resolution the sale, transfer, and swap any real property, improved or unimproved, now owned or hereafter acquired by or owned by the city, as provided herein. These procedures supplement any other procedures that may now or in the future be applicable as provided by law or regulation.
- (2) Disposal of property which is sufficient in size and of such character as to comprise an independent building site and which will involve a conveyance of the city's fee simple interest. These parcels typically enjoy access to a public right-of-way, and are developable as building sites.
 - (a) Resolution declaring surplus. Before any improved or unimproved property owned by the city shall be sold or otherwise disposed of pursuant to this subsection (b), the governing body shall adopt a resolution declaring same surplus.
 - (b) Determination concerning surplus.
 - a. The city governing body shall review and consider the following:
 - 1. The legal description (by reference to a recorded plat or government survey);

- 2. The property address by street number, if there be any;
- 3. A description of all improvements located upon the land;
- 4. How said land has been used since same has belonged to the city;
- 5. The current use of the property;
- 6. How the property was acquired and financed;
- 7. The needs of the city;
- 8. Whether disposal is consistent with the city comprehensive plan;
- 9. The estimated property value;
- 10. Any relevant property history;
- 11. The property's title; and
- 12. Whether the disposal of the property is precluded by grant provisions of other agencies.
- (c) *Public hearing*. The city governing body shall hold one (1) public hearing prior to adopting a resolution declaring property as surplus. An advertisement for such public hearing shall appear once in a newspaper of general circulation at least ten (10) days prior to the hearing. The advertisement will contain the resolution title and the date, time and place of the hearing. The city clerk shall advertise the proposed resolution for public hearing by placing it on the city council agenda and posting such agenda at least three (3) business days prior to the city council meeting.
- (d) When appraisals are needed.
 - a. Any real property that the city proposes to sell or otherwise dispose of pursuant to this subsection (b) must be appraised by two (2) independent appraisers, who are designated members of the Appraisal Institute, if the property is estimated to have a value that exceeds one million dollars (\$1,000,000.00).
 - b. Any real property that the city proposes to sell or otherwise dispose of pursuant to this subsection (b) must be appraised by one (1) independent appraiser, who is designated member of the Appraisal Institute, if the property is estimated to have a value between one hundred thousand dollars (\$100,000.00) and one million dollars (\$1,000,000.00).
 - c. Any real property that the city proposes to sell or otherwise dispose of pursuant to this subsection (b) with an estimated value below one hundred thousand dollars (\$100,000.00) shall not require an appraisal.
 - d. Notwithstanding subparagraphs a., b., and c. above, no appraisal shall be needed:
 - 1. Where the city acquired the property from Palm Beach County as a result of the tax sale process and is returning such asset to the former owner or its successors and assigns;
 - 2. Where the city transfers the property to another governmental entity or agency; or
 - 3. Where the city is exchanging such real property with the private sector for a replacement parcel determined by the city governing body to have similar utility and where the public interests would be served.
- (e) Methods of disposal.
 - a. *Methods*. The city may dispose of property pursuant to this subsection (b) utilizing the following methods: negotiation, trade with other governmental entities or agencies, request for letters of intent, sealed bids, or request for proposals. The city may retain professional real estate services to aid in the disposal of property.
 - 1. *Negotiation*. The city may negotiate the sale of real property with a particular person or entity, and no further advertising will be needed to effect a transfer.
 - 2. Sealed bids, requests for letters of intent, and request for proposals. At any time no

more than ninety (90) days after adoption of resolution declaring the property surplus, the land may be offered for public disposition, and a notice shall be published by the city in a newspaper of general circulation in the city once not less than ten (10) days before sealed bids, letters of intent, or proposals are due. The notice shall state, at a minimum, the date when sealed bids, letters of intent, or proposals shall be received and whether the sale is with or without reservation. Sealed bids, letters of intent, and proposals shall be received accompanied by cashier's checks or certified checks payable to the city in an amount equal to at least ten (10) percent of the disposition price.

- 3. *Transfer to governmental agencies*. The city may sell or transfer any of its property to any other governmental agency, if the city governing body determines that:
 - i. A transfer of the property to the other governmental agency shall provide a benefit to the city; and
 - ii. That the terms received by the city are fair and equitable.
- 4. Land swap with any private or public land owner provided the properties are appraised at substantially the same value. In determining substantial value the City may take into consideration the potential increase in value following the swap.
- (f) Proceeds from sale or transfer. Any proceeds derived from the sale of any land, as authorized in this subsection (b), shall be deposited in the general fund of the city, or such other fund or account of the city as is determined by the finance director.
- (g) Conveyance. In order to convey property pursuant to this subsection (b) the city governing body shall be required to adopt a resolution authorizing the conveyance. Notwithstanding anything possibly to the contrary, the city may reject any and all offers, bids, letters of intent, or proposals, or terminate negotiations at any time and choose not to dispose of property, and nothing shall obligate the city governing body to adopt any necessary resolution.

How will this affect city programs or services? There will be no impacts to City programs or services.

Fiscal Impact: By declaring this parcel surplus and completing the disposition process it will return the parcel to the City tax rolls.

Alternatives: Do not declare surplus and retain parcel as is or direct a method of disposition other than negotiation with the offerer.

- 70 Sec. 4. SMU Mixed-Use Suburban District.
- 71 A. General.
- 72 1. Purpose and Intent. The purpose of the SMU zoning district is to implement the mixed use low (MXL) and development of regional impact (DRI) future land use map 73 (FLUM) classifications of the Comprehensive Plan. In order to guide the redevelopment 74 and envisioned growth of the suburban area, the SMU zoning district requires a 75 diversity of land uses, accommodating a mixture of residential, office, retail, 76 recreational, and other miscellaneous uses. Ideally, the SMU district is intended to 77 supplant the PCD district for new developments and projects to encourage vibrant 78 commercial centers through the inclusion of residential uses and well-planned mixed 79 use projects designed in accordance with smart growth principles and best planning 80 practices. Densities of such developments shall be no greater than twenty (20) 81 dwelling units per acre. This mix of uses may be arranged either vertically or 82 horizontally within low-to-mid-rise developments. The review of SMU applications will 83 emphasize aesthetics and design quality, and physical compatibility with adjacent land 84 uses. The specific objectives of the SMU district are as follows: 85
 - a. Support and enhance development and redevelopment efforts in suburban areas outside of the downtown redevelopment area;
 - b. Create major new mixed use areas in planned locations with appropriate densities, heights, and mixture of uses;
 - c. Create attractive pedestrian environments through appropriate separation from and design of vehicular circulation areas;
 - d. Provide public plazas and gathering places that are both well-designed and integrated into the overall design of the development;
 - e. Allow flexibility in architectural design and building bulk, while maximizing compatibility and harmony with adjoining development;
 - f. Create higher quality environments for residents, businesses, employees, and visitors; and
 - g. Encourage innovative design that achieves vertical and horizontal integration of uses.

Rezoning to the SMU district is encouraged for proposed development or redevelopment on lands that are in close proximity to existing infrastructure, public and alternative transportation routes and modes, employment centers, community areas, or have sustained or are complicated by environmental contamination.

The SMU district shall only be applicable to lands located west of I-95 on assembled parcels along major principal arterials.

DEVELOPMENT DEPARTMENT PLANNING AND ZONING DIVISION MEMORANDUM NO. PZ 22-014

STAFF REPORT

TO: Chair and Members

Planning and Development Board

THRU: Amanda Radigan, AICP, LEED APABR

Planning and Zoning Director

FROM: Andrew Meyer, Senior Planner

Luis Bencosme, Senior Planner

DATE: September 27, 2022

REQUEST: Approve modifications (CDRV 22-005) amending the LAND

DEVELOPMENT REGULATIONS, Chapter 1, Article II. Use Definitions, Chapter 3. Zoning, and Chapter 4, Article III. Exterior Building and Site Standards (CDRV 22-005), to include requirements for commercial

frontage.

OVERVIEW

The proposed amendments encompass requirements for minimum percentages of commercial frontage along specific rights-of-way. These amendments will contribute to the establishment of viable storefronts and commercial spaces appropriate to the scale and fabric of the built environment along key corridors within the city.

EXPLANATION & PROPOSED AMENDMENTS

The current building and site regulations applicable to the mixed-use zoning districts and overlays require pedestrian-friendly design, storefronts along the sidewalk, and a mixture of active and commercial uses along key corridors, including Boynton Beach Boulevard, Ocean Avenue, Martin Luther King Jr. Boulevard and Federal Highway. In order to promote the construction of mixed-use developments that activate the street, the code generally requires these developments to provide for active and commercial uses on the ground floor of buildings that front an arterial roadway. The code also requires that the buildings occupy the entire length of the street frontage.

Currently, the code does not provide a specific percentage of required commercial frontage and minimum design standards. Additionally, the code allows applicants to satisfy the existing Active/Commercial Use requirement by establishing residential service-type uses such as lounges, gyms, common rooms, and recreational spaces.

The lack of clear commercial frontage standards limits staff's ability to require an adequate amount of viable commercial spaces along key corridors. It also creates the possibility of commercial spaces that lack sufficient depth and/or width, resulting in vacant storefronts. Additionally, while active uses are allowed to meet the existing Active/Commercial Use requirement and are preferred in limited circumstances, they are not appropriate in more intense corridors as they may not generate the same level of pedestrian activity that would be generated by commercial uses and do not provide the services needed to support the surrounding neighborhood.

Staff's proposed amendments include requiring certain percentages of commercial frontage along key arterial rights-of-way. The following table provides a summary of the amendments being proposed:

Overlay Zone/Mixed-Use District	50% Commercial Frontage Required	70% Commercial Frontage Required, Remaining for Active Frontage
Martin Luther King Jr. Boulevard Overlay	N/A	Martin Luther King Jr. Boulevard
Helen Organisa Bioteint		Federal Highway between SE 18th Avenue and Martin Luther King Jr. Boulevard;
Urban Commercial District Overlay	N/A	Ocean Avenue west of SE/NE 6th Street;
		Boynton Beach Boulevard west of Federal Highway
Cultural District Overlay	N/A	E Ocean Avenue east of N Seacrest Boulevard
Boynton Beach Boulevard Overlay	N/A	W Boynton Beach Boulevard and N Seacrest Boulevard
Downtown Transit-Oriented Development District Overlay	SE 4 th Street	Federal Highway; Ocean Avenue between SE/NE 6 th Street and Seacrest Boulevard; and Boynton Beach Boulevard, west of Federal Highway
Suburban Mixed-Use Zoning	Old Boynton Road and Winchester Park Boulevard	Congress Avenue, Boynton Beach Boulevard and Gateway Boulevard

^{*}The table has been visualized in a map format in Exhibit A.

In order to ensure quality commercial space is provided, the proposed amendments require commercial spaces to meet specific design standards, including a minimum depth of forty (40) feet and a minimum ceiling height of thirteen (13) feet. The proposed design standards are consistent with industry standards and are similar to adopted regulations of several neighboring municipalities, including West Palm Beach and Delray Beach. Specific exemptions to commercial frontage are also being proposed, including provisions for vehicular access, public usable open space, and site visibility triangles. In addition, definitions defining active and commercial uses on the ground floor are being refined to assist in accurate interpretation of the code.

Staff recommends Approval of the subject amendments to the Land Development Regulations to support the establishment of quantifiable commercial frontage requirements and design standards.

PART III. LAND DEVELOPMENT REGULATIONS

CHAPTER 1. GENERAL ADMINISTRATION

...

ARTICLE II. DEFINITIONS

...

ACCESSORY USE - See "Use, Accessory."

ACRE - Land or water consisting of forty-three thousand, five hundred sixty (43,560) square feet.

-ACTIVE/COMMERCIAL USES ON GROUND FLOOR

- 1. Mixed use projects within urban mixed use zoning districts will meet ground floor ACTIVE/COMMERCIAL USE requirement by including commercial uses serving the general public such as retail, restaurants, bars, entertainment, personal services, and live-work. Resident-only service amenities such as lounges, gyms, common rooms, and recreation spaces may be included in addition to the above uses.
- 2. Residential only projects within urban mixed use zoning districts will meet ACTIVE USE requirement by using design features including street-fronting access to allow residential use to engage with the street and provide the opportunity for interaction. Such features may be combined with building amenities such as lounges, gyms, common rooms, and recreation spaces on the ground floor.

ACTIVE USES ON GROUND FLOOR - Resident-only serving amenities such as lounges, gyms, common rooms, and recreational spaces. This also includes entrances to individual dwelling units that incorporate features such as porches, stoops, landings, or foundation plantings within the adjacent pedestrian zone active area.

ADDITION - An expansion, extension, or increase in the usable space within a building or facility.

...

COLOCATION - The practice of installing and operating multiple wireless carriers, service providers, and/or radio common carrier licensees on the same antenna support structure or attached wireless communication facility using different and separate antenna, feed lines and radio frequency generating equipment.

<u>COMMERCIAL FRONTAGE – The portion of the ground floor of a building which contains commercial uses fronting specific rights-of-way.</u>

COMMERCIAL TRUCK - A truck defined as such by the rules of the Florida Department of Highway Safety and Motor Vehicles.

Sec. 4. SMU Mixed-Use Suburban District.

A. General.

- 1. Purpose and Intent. The purpose of the SMU zoning district is to implement the mixed use low (MXL) and development of regional impact (DRI) future land use map (FLUM) classifications of the Comprehensive Plan. In order to guide the redevelopment and envisioned growth of the suburban area, the SMU zoning district requires a diversity of land uses, accommodating a mixture of residential, office, retail, recreational, and other miscellaneous uses. Ideally, the SMU district is intended to supplant the PCD district for new developments and projects to encourage vibrant commercial centers through the inclusion of residential uses and well-planned mixed use projects designed in accordance with smart growth principles and best planning practices. Densities of such developments shall be no greater than twenty (20) dwelling units per acre. This mix of uses may be arranged either vertically or horizontally within low-to-mid-rise developments. The review of SMU applications will emphasize aesthetics and design quality, and physical compatibility with adjacent land uses. The specific objectives of the SMU district are as follows:
- a. Support and enhance development and redevelopment efforts in suburban areas outside of the downtown redevelopment area;
- b. Create major new mixed use areas in planned locations with appropriate densities, heights, and mixture of uses:
- c. Create attractive pedestrian environments through appropriate separation from and design of vehicular circulation areas;
- d. Provide public plazas and gathering places that are both well-designed and integrated into the overall design of the development;
- e. Allow flexibility in architectural design and building bulk, while maximizing compatibility and harmony with adjoining development;
- f. Create higher quality environments for residents, businesses, employees, and visitors; and

g. Encourage innovative design that achieves vertical and horizontal integration of uses.

...

2. Prerequisite Location Standards. The SMU district creates an opportunity to promote sustainability with respect to land use, energy conservation and resource management. Rezoning to the SMU district is encouraged for proposed development or redevelopment on lands that are in close proximity to existing infrastructure, public and alternative transportation routes and modes, employment centers, community areas, or have sustained or are complicated by environmental contamination.

The SMU district shall only be applicable to lands located west of I-95 on assembled parcels along major-principal arterials.

Overview and Current Conditions

- Mixed-use zoning districts and overlays require a mixture of active/commercial uses along key corridors.
- Code requires active/commercial uses on the ground floor of buildings that front an arterial roadway.
- Currently, the code does not provide a specific percentage of required commercial frontage and minimum design standards.
- Code allows applicants to satisfy the existing Active/Commercial Use requirement by establishing residential service-type uses such as lounges, gyms, common rooms, and recreational spaces.
- The lack of clear commercial frontage standards limits staff's ability to require an adequate percentage of viable commercial spaces along key corridors. It also creates the possibility of commercial spaces that lack sufficient depth and/or width, resulting in vacant storefronts.

Questions?

Commission Meeting Date: 10/18/2022

Requested Action by Commission:

Proposed Ordinance No. 22-019 - First Reading - Approve an ordinance of the City of Boynton Beach Florida amending Article II of Chapter 18 of the Boynton Beach Code of Ordinances entitled Employees' Pension Plan amending section 18-145 City of Boynton Beach Investment Policy for General Employees' Pension Fund; providing for codification conflict severability and an effective date.

Explanation of Request:

The current ordinance has the investment policy imbedded within it. The purpose of amending this Ordinance is to define parameters through a separate policy in order to provide more flexibility for review by the General Pension Board on a regular basis and update with the fluctuation or necessity that the contemporaneous market demands. This Statement of Investment Policy is intended to complement the investment guidelines provided in applicable State Statutes and local ordinances.

How will this affect city programs or services? Allow the investment manager for the General Pension Fund to diversify and balance the portfolio of assets within the guidelines set forth in the policy rather than the Ordinance. The Policy will be filed with the Department of Management services, plan sponsor and actuary upon approval.

Fiscal Impact: None
Alternatives: Not amend the ordinance and leave the investment language as it currently exists.

19	NOW THEREFORE BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF
20	BOYNTON BEACH FLORIDA
21	
22	Section 1. The foregoing WHEREAS clauses are hereby certified as being true
23	and correct and are incorporated herein by this reference.
24	Section 2. Section 18-145 of Article II of Chapter 18 of the Boynton Beach Code
25	of Ordinances is hereby amended as follows:
26	Sec. 18-145. City of Boynton Beach Investment Policy for General Employees' Pension Fund.
27	(a) General. The Board of Trustees of the Boynton Beach General Employees' Pension
28	Fund has established this Statement of Investment Policy. This policy has been identified by
29	the Board as having the greatest expected investment return, and the resulting positive
30	impact on asset values, funded status, and benefits, without exceeding a prudent level or
31	risk. The Board determined this policy after evaluating the implications of increased

- investment return versus increased variability of return for <u>several</u> a number of potential investment policies with varying commitments to <u>different asset classes</u> stocks and bonds.
 - (b) Purpose. <u>This Statement of Investment Policy is intended to complement the investment guidelines provided in applicable State Statutes, and local ordinances.</u> The purpose to this <u>Statement</u> <u>section</u> is to:
 - (1) Provide the investment manager a more accurate understanding of the trustees' investment objectives; and
 - (2) Indicate the criteria by which the investment manager's performance will be evaluated
 - (c) General Objectives. The primary investment objective of the Boynton Beach General Employees' Pension Fund is to achieve the absolute return objective over the near-term, intermediate-term and longer-term time periods. The secondary objective is to achieve moderate long-term real growth of the assets while minimizing the volatility of returns. To achieve these objectives, the Board of Trustees seeks to create a conservative, well diversified and balanced portfolio of asset classes managed in separate accounts, mutual funds, commingled funds, and/or limited partnerships. The Board has determined that one or more outside investment managers shall be retained to assure that all investments are managed in both a prudent and professional manner and in compliance with the stated investment guidelines. The Board of Trustees will make direct investments in fund structured investments and acknowledges that no guidelines may be imposed on these investments.
 - (**d**e) Investment manager responsibilities.

- (1) Within the guidelines and restrictions set forth herein, it is the intention of the Board to give the investment manager full investment discretion, with respect to assets under its management. The investment manager shall discharge its responsibilities in the same manner as it would if the fund were governed by the fiduciary, responsibility provisions of the Employee-Retirement Income Security Act of 1974 (ERISA). Although the fund trustees acknowledge that ERISA does not apply to a governmental fund, it hereby imposes the fiduciary provisions of ERISA upon <u>each</u> the investment manager whose performance shall conform to the statutory provisions, rules, regulations, interpretations, and case law of ERISA. The investment manager shall acknowledge, in writing, that it is a named fiduciary of the fund.
- (2) <u>Each</u> The investment manager is expected to provide any reasonable information requested by the Board of Trustees. At a minimum, each manager shall provide a quarterly report detailing their investment activity, the portfolio's current value, and any changes in investment philosophy or strategy. <u>Each</u> The firm's investment manager is expected to meet with the Board of Trustees <u>or their designated representatives periodically to review investment performance and philosophy.</u> at least once per year. A designated representative will meet with the Board of Trustees, at least quarterly. A designated

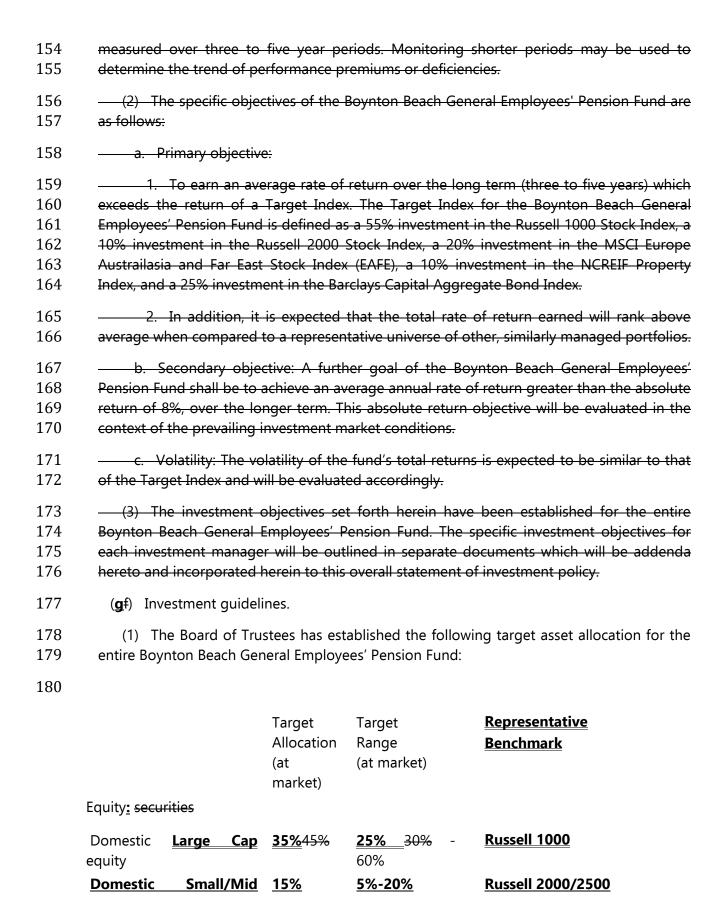

- representative of a mutual fund company is not required to attend meetings with the Board of Trustees.
 - (3) Unless otherwise provided by the <u>Fund's</u> custodian, <u>each</u> the investment manager will monitor portfolio activity to minimize uninvested cash balances.
 - (4) <u>Each</u> The investment manager shall be responsible only for those assets under <u>their</u> its management.
 - (5) It will be the responsibility of <u>each</u> the investment manager to review the monthly valuations provided by the <u>Fund's</u> custodian and to note, in writing, any significant discrepancies from the valuations provided in their own reports.

(e) Florida Statute 112.

- (1) EXPECTED ANNUAL RATE OF RETURN: With consideration to rates of return from different asset classes, the Board of Trustees has crafted its investment program in order to deliver an expected rate of return similar to that of the actuarial assumed rate. The Board shall determine for each actuarial valuation, the total expected annual rate of return for the current year, for each of the next several years and for the long term thereafter. The total expected annual rate of return is anticipated to be similar to the actuarial assumed rate of return. This determination is to be filed with the Department of Management Services and with the plan sponsor and consulting actuary.
- (2) CONTINUING EDUCATION: The Board of Trustees relies on its consultants and professionals to provide continuing education on pension and investment issues. The Board of Trustees also recognize state and regional conferences as a source of continuing education. The Trustees are encouraged to attend conferences, schools, and other functions periodically in order to fulfill this requirement.
- (3) FILING OF INVESTMENT POLICY: The investment policy is to be promptly filed with the Department of Management Services, plan sponsor and consulting actuary. The effective date of the investment policy and any amendment thereto shall be the 31st calendar day following the filing date with the plan sponsor.
- (f) INVESTMENT OBJECTIVES. Given the above stated purpose of the Boynton Beach General Employees' Pension Fund, the Board of Trustees recognizes the necessity of a long-term horizon when formulating investment policies and strategies. However, shorter-term investment goals have been established and are intended to provide quantifiable benchmarks to measure and evaluate portfolio return and risk.

Most investment styles require a full market cycle to allow an investment manager to demonstrate his abilities. A full market cycle is generally defined as a three-to-five-year time period. As a result, performance results will be measured over a three-to-

113 five-year period. Performance over shorter time periods will be monitored as a means 114 of identifying the trend of results. 115 116 The specific investment objectives of the Boynton Beach General Employees' 117 **Pension Fund are as follows:** 118 119 Absolute Return Objective: The goal of the Boynton Beach General Employees' 120 Pension Fund shall be to achieve an average annual rate of return greater than 121 the applicable actuarial assumed rate of return net of investment expenses, over 122 the longer term (3 to 5 years). 123 124 Market Return Objective: In order to provide a reference of fund return and 125 risk relative to a similar basket of passive assets, the board has developed a "Target Index". The fund's objective is to achieve a rate of return over the long 126 127 term (3 to 5 years), which exceeds the return of a Target Index. 128 129 The Target Index for the Boynton Beach General Employees' Pension Fund is defined as a 35% investment in the Russell 1000 Stock Index, a 15% 130 131 investment in the Russell 2000 Stock Index, a 10% investment in the MSCI 132 Europe, Australasia and Far East Stock Index, a 20% investment in the 133 NCREIF Property Index and a 15% investment in the Bloomberg Barclays 134 Capital Aggregate Bond Index. 135 136 Peer Return Objective: It is expected that the total rate of return earned by the 137 Fund and the returns earned by the stock and bond portions of the portfolio will 138 each rank in the top 50% when compared to a representative universe of other, 139 similarly managed portfolios. 140 (d) General objectives. 141 (1) The primary investment objective of the Boynton Beach General Employees' 142 Pension Fund is the preservation of invested capital. The secondary objective is to achieve 143 moderate long-term real growth (after inflation) while minimizing the volatility of returns. 144 (2) To achieve these objectives, the Board seeks to create a well-diversified and 145 balanced portfolio of high quality equity, fixed income and money market securities. The 146 Board has determined that one or more outside investment managers shall be retained to 147 assure that all investments are managed in both a prudent and professional manner and in 148 compliance with the state investment guidelines. 149 (e) Investment objectives. 150 (1) Investment objectives are intended to provide quantifiable benchmarks to measure 151 and evaluate portfolio return and risk. Most investment styles require a full market cycle to 152 allow an investment manager to demonstrate his or her abilities. A full market cycle is 153 generally defined as a three to five year period. BOYNTON BEACH GENERAL EMPLOYEES' PENSION FUND

STATEMENT OF INVESTMENT POLICY GOALS AND GUIDELINES

Adopted: May 23, 2022

PURPOSE

The Board of Trustees of the City of Boynton Beach General Employees' Pension Fund has established this Statement of Investment Policy. This policy has been identified by the Board as having the greatest expected investment return, and the resulting positive impact on asset values, funded status, and benefits, without exceeding a prudent level of risk. The Board determined this policy after evaluating the implications of increased investment return versus increased variability of return for several potential investment policies with varying commitments to different asset classes.

This Statement of Investment Policy is intended to complement the investment guidelines provided in applicable State Statutes, and local ordinances. The purpose of this Statement is to:

- 1) Provide the investment manager a more accurate understanding of the Trustees' investment objectives and,
- 2) Indicate the criteria by which the investment manager's performance will be evaluated.

GENERAL OBJECTIVES

The primary investment objective of the Boynton Beach General Employees' Pension Fund is to achieve the absolute return objective over the near-term, intermediate-term and longer-term time periods. The secondary objective is to achieve moderate long-term real growth of the assets while minimizing the volatility of returns. To achieve these objectives, the Board of Trustees seeks to create a conservative, well diversified and balanced portfolio of asset classes managed in separate accounts, mutual funds, commingled funds, and/or limited partnerships. The Board has determined that one or more outside investment managers shall be retained to assure that all investments are managed in both a prudent and professional manner and in compliance with the stated investment guidelines. The Board of Trustees will make direct investments in fund structured investments and acknowledges that no guidelines may be imposed on these investments.

INVESTMENT MANAGER RESPONSIBILITIES

- 1) Within the guidelines and restrictions set forth herein, it is the intention of the Board of Trustees to give each investment manager full investment discretion with respect to assets under its management. The investment managers shall discharge their responsibilities in the same manner as if the Fund were governed by the fiduciary responsibility provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Although the Fund Trustees acknowledge that ERISA does not apply to the Fund as a governmental fund, it hereby imposes the fiduciary provisions of ERISA upon each investment manager whose performance shall conform to the statutory provisions, rules, regulations, interpretations and case law of ERISA. Each investment manager shall acknowledge, in writing, that it is a named fiduciary of the Fund.
- 2) Each investment manager is expected to provide any reasonable information requested by the Board of Trustees. At a minimum, each manager shall provide a quarterly report detailing their investment activity, the portfolio's current value and any changes in investment philosophy or strategy. Each investment manager is expected to meet with the Board of Trustees or their designated representatives periodically to review investment performance and philosophy.
- 3) Unless otherwise provided by the Fund's Custodian, each investment manager will monitor portfolio activity to minimize uninvested cash balances.
- 4) Each investment manager shall be responsible only for those assets under their management.
- 5) It will be the responsibility of each investment manager to review the monthly valuations provided by the Fund's custodian and to note, in writing, any significant discrepancies from the valuations provided in their own reports.

Florida Statute 112

- 1. EXPECTED ANNUAL RATE OF RETURN: With consideration to rates of return from different asset classes, the Board of Trustees has crafted its investment program in order to deliver an expected rate of return similar to that of the actuarial assumed rate. The Board shall determine for each actuarial valuation, the total expected annual rate of return for the current year, for each of the next several years and for the long term thereafter. The total expected annual rate of return is anticipated to be similar to the actuarial assumed rate of return. This determination is to be filed with the Department of Management Services and with the plan sponsor and consulting actuary.
- 2. CONTINUING EDUCATION: The Board of Trustees relies on its consultants and professionals to provide continuing education on pension and investment issues. The Board of Trustees also recognize state and regional conferences as a source of continuing education. The Trustees are encouraged to attend conferences, schools, and other functions periodically in order to fulfill this requirement.
- 3. FILING OF INVESTMENT POLICY: The investment policy is to be promptly filed with the Department of Management Services, plan sponsor and consulting actuary. The effective date of the investment policy and any amendment thereto shall be the 31st calendar day following the filing date with the plan sponsor.

INVESTMENT OBJECTIVES

Given the above stated purpose of the Boynton Beach General Employees' Pension Fund, the Board of Trustees recognizes the necessity of a long-term horizon when formulating investment policies and strategies. However, shorter-term investment goals have been established and are intended to provide quantifiable benchmarks to measure and evaluate portfolio return and risk.

Most investment styles require a full market cycle to allow an investment manager to demonstrate his abilities. A full market cycle is generally defined as a three-to-five-year time period. As a result, performance results will be measured over a three-to-five-year period. Performance over shorter time periods will be monitored as a means of identifying the trend of results.

The specific investment objectives of the Boynton Beach General Employees' Pension Fund are as follows:

Absolute Return Objective: The goal of the Boynton Beach General Employees' Pension Fund shall be to achieve an average annual rate of return greater than **the applicable actuarial assumed rate of return** net of investment expenses, over the longer term (3 to 5 years).

Market Return Objective: In order to provide a reference of fund return and risk relative to a similar basket of passive assets, the board has developed a "Target Index". The fund's objective is to achieve a rate of return over the long term (3 to 5 years), which exceeds the return of a Target Index.

The Target Index for the Boynton Beach General Employees' Pension Fund is defined as a **35%** investment in the Russell 1000 Stock Index, a **15%** investment in the Russell 2000 Stock Index, a **10%** investment in the MSCI Europe, Australasia and Far East Stock Index, a **20%** investment in the NCREIF Property Index and a **15%** investment in the Bloomberg Barclays Capital Aggregate Bond Index.

Peer Return Objective: It is expected that the total rate of return earned by the Fund and the returns earned by the stock and bond portions of the portfolio will each rank in the top 50% when compared to a representative universe of other, similarly managed portfolios.

The above investment objectives have been established for the entire Boynton Beach General Employees' Pension Fund. The specific investment objectives for each investment manager will be outlined in Exhibit A.

INVESTMENT GUIDELINES

The Board of Trustees has established the following target asset allocation for the entire Boynton Beach General Employees' Pension Fund:

It may be necessary to rebalance the portfolio periodically to maintain policy targets and diversification. The Board of Trustees will monitor each component of the Retirement Plan (including asset class, mutual fund, and portfolio manager asset values) and will adjust as necessary at quarterly meetings. To implement this strategy, the Board has chosen to hire one or more professional investment managers. The following guidelines and restrictions apply to all fund investments.

How will this affect city programs or services? This amended Ordinance will update the necessary language so that proper implementation of the 8-year DROP for police pension plan participants can occur.

There is no fiscal impact to update the Ordinance. [Fiscal impact information was provided and approved in conjunction with the previous passage of the respective PBA collective bargaining agreements on September 22, 2022.]

Per the actuarial study provided, this Ordinance will not impact the cost of the Plan during the first year. It is projected to reduce the cost of the Plan in future years of approximately \$2.8 million in Total Present Value over the next 30 years.

119	unused sick and vacation leave shall be included in the compensation calculation;
120	provided however, that a minimum balance of 120 hours of sick leave and 120 hours of
121	vacation leave shall be maintained by the employee and excluded from this calculation.
122	The retained leave balance, including any additions, shall be distributed at the conclusion
123	of DROP participation and separation from service. DROP participants who remain in
124	the DROP beyond sixty (60) months will make a contribution of 3% during their
125	DROP participation beginning with the sixty-first (61) month of participation.
126	(f) Payment shall be made into the employee's DROP account as if the employee had
127	retired from the employ of the city. The amounts paid will be determined in accordance

132	methods to credit investment earnings to their account less any outstanding loan
133	balances. The method may be changed each year effective January 1, however, the
134	method must be selected prior to January 1 on a form provided by the Board of Trustees.
135	The methods are:
136	(1) Gains or losses at the same interest rate earned by the Pension Plan; or
137	(2) A guaranteed rate of 7%; or
138	(3) A percentage of the DROP account will be credited with interest gains or losses
139	at the same rate earned by the pension plan and the remaining percentage will be
140	credited with earnings at a guaranteed rate of 7%. The actual percentage shall be
141	selected by the member on a form provided by the Board of Trustees. The total of the
142	two percentages must equal 100%. Employee's DROP accounts will be assessed an
143	administrative fee that is based upon the ratio that the Employee's DROP account bears
144	to the fund as a whole.
145	(4) <u>One-Time Interest Rate Changes:</u>
146	$\underline{\mathbf{a}}_{\boldsymbol{\cdot}}$ Participants in the DROP, as of December 31, 2002, may change their method
147	for the crediting of earnings. This change in the crediting of earnings is a one-

150	effective February 1, 2003.
151 152 153 154 155	b. Participants in the DROP, as of October 1, 2022, may change their method for the crediting of earnings. This mid-year change in the crediting of earnings is a one-time opportunity. The election to change the method for crediting must be made within 30 days of the second reading of this Ordinance. The earnings method elected will be effective the first of the month following the election.
156	
157 158 159 160 161 162 163	(h) An employee's participation in the DROP shall terminate at the end of <u>eight</u> five years or <u>33</u> 30-years of service, whichever comes first. Failure to end DROP participation may result in penalties at the discretion of the Trustees, up to and including forfeiture of the DROP account. Upon entering into the DROP, an employee shall file with the Board a binding letter of resignation from city employment. The binding letter of resignation shall establish a deferred termination date in accordance with the limitations of this DROP, which may be amended.
164 165 166 167	(i) All interest shall be credited to the employee's DROP account less any outstanding loan balances on a quarterly basis with quarterly statements provided. Mr. Lou Penque Plan Administrator Boynton Police Officers' Pension Fund 2100 N. Florida Mango Road West Palm Beach, FL 33409

RE: Actuarial Impact Statement for Proposed Ordinance for the City of Boynton Beach Municipal Police Officers' Retirement Fund

Dear Lou:

We have reviewed the proposed ordinance amending the City of Boynton Beach Municipal Police Officers' Retirement Fund (Plan). This ordinance would amend the Plan as follows:

- Amending Section 18-164, Creation and Maintenance of fund and retirement system, to provide for member contributions of 3% of their salary after 5 years of DROP participation, beginning with the sixty-first month of DROP participation.
- Amending Section 18-175, Deferred Retirement Option Plan, to provide for a maximum DROP participation period of 8 years; to provide for member contributions of 3% of salary following completion of 5 full years in the DROP, beginning with the sixty-first month of DROP participation; to allow DROP participants to make a one-time mid-year change in the method of receiving interest credits on their DROP balances effective October 1, 2022; to change the maximum number of years of service with the City, including the number of years of participation in the DROP, from 30 years to 33 years; and to clarify that the required minimum distribution age under section 401(A)(9) of the Internal Revenue Code is now 72 instead of 70.5.
- Amending Section 18-300, Creation of consolidated deferred retirement option plan, to remove police officers from being covered by this Section.

It is our opinion that this Ordinance will not impact the cost of the Plan during the first year. However, it is projected to reduce the cost of the Plan in future years to the extent that participants in the DROP extend their DROP participation period beyond 5 years, contributing 3% of salary during such time and to the extent that this reduces the need to hire new police officers as soon (assuming a constant active employee head count is maintained including DROP participants).

We have included a 30-year projection of the required city contributions before and after reflecting the proposed Ordinance changes, in which it is assumed that all police officers will participate in the DROP for the maximum period (either 5 years in the baseline scenario or 8 years under the Plan changes scenario). If only a portion of members elect to remain in the DROP for the full 8 years, then the cost savings amounts we are projecting over the next 30 years will be commensurately lower, relative to the actual percentage of members who elect to remain in the DROP for 8 years (or for a period between 5 and 8 years). This projection was originally prepared at the request of the chairman of the Board of Trustees on July 20, 2022 to study the impact of extending the maximum DROP participation period.

Risks Associated with Measuring the Accrued Liability and Actuarially Determined Contribution

The determination of the accrued liability and the actuarially determined contribution requires the use of assumptions regarding future economic and demographic experience. Risk measures are intended to aid in the understanding of the effects of future experience differing from the assumptions used in the course of the actuarial valuation. Risk measures may also help with illustrating the potential volatility in the accrued liability and the actuarially determined contribution that results from the differences between actual experience and the actuarial assumptions.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: Plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions due to changing conditions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period, or additional cost or contribution requirements based on the Plan's funded status); and changes in Plan provisions or applicable law. The scope of an actuarial valuation does not include an analysis of the potential range of such future measurements.

Examples of risk that may reasonably be anticipated to significantly affect the Plan's future financial condition include:

- 1. Investment risk actual investment returns may differ from the either assumed or forecasted returns;
- 2. Contribution risk actual contributions may differ from expected future contributions. For example, actual contributions may not be made in accordance with the Plan's funding policy or material changes may occur in the anticipated number of covered employees, covered payroll, or other relevant contribution base;
- 3. Salary and Payroll risk actual salaries and total payroll may differ from expected, resulting in actual future accrued liability and contributions differing from expected;
- 4. Longevity risk members may live longer or shorter than expected and receive pensions for a period of time other than assumed;
- 5. Other demographic risks members may terminate, retire or become disabled at times or with benefits other than assumed resulting in actual future accrued liability and contributions differing from expected.

The effects of certain trends in experience can generally be anticipated. For example, if the investment return is less (or more) than the assumed rate, the cost of the Plan can be expected to increase (or decrease). Likewise, if longevity is improving (or worsening), increases (or decreases) in cost can be anticipated.

Mr. Lou Penque September 30, 2022 Page 3

The computed contribution amounts may be considered as a minimum contribution that complies with the pension Board's funding policy and the State statutes. The timely receipt of the actuarially determined contributions is critical to support the financial health of the Plan. Users of this report should be aware that contributions made at the actuarially determined rate do not necessarily guarantee benefit security.

Risk Assessment

Risk assessment was outside the scope of this report. Risk assessment may include scenario tests, sensitivity tests, stochastic modeling, stress tests, and a comparison of the present value of accrued benefits at low-risk discount rates with the actuarial accrued liability. We are prepared to perform such assessment to aid in the decision-making process.

Disclosures and Qualifications

This report was prepared at the request of the Board of Trustees for the City of Boynton Beach Municipal Police Officers' Retirement Fund, and is intended for use by the Board, and those designated or approved by the Board. This report may be provided to parties other than the Board only in its entirety and only with the permission of the Board. GRS is not responsible for the unauthorized use of this report.

The purpose of this report is to describe the projected financial effect of the proposed Ordinance to change the DROP plan provisions. This report should not be relied on for any purpose other than the purpose described.

The calculations in this report are based upon information furnished by the Plan Administrator for the October 1, 2021 Actuarial Valuation Report concerning Plan benefits, financial transactions, plan provisions and active members, terminated members, retirees and beneficiaries. We reviewed this information for internal and year-to-year consistency, but did not audit the data. We are not responsible for the accuracy or completeness of the information provided by the City or the Plan Administrator.

The actuarial projections shown herein are deterministic, meaning that throughout the projection period, Plan experience is expected to match the actuarial assumptions, including the assumed investment return on the market value of assets (except that the actual return is assumed to be 0.0% during the fiscal year ending September 30, 2022, and then 6.9% per year thereafter). Throughout the projections, new members are assumed to be hired each year at a rate sufficient to maintain a constant active headcount. New members are assumed to have the same average demographic characteristics (age, gender, salary – adjusted each year by the Plan's assumed rate of inflation, which is 2.5% per year) at their dates of employment as those of current members hired between October 1, 2016 and October 1, 2021 (during the five-year period ending on the most recent actuarial valuation / census data collection date).

Mr. Lou Penque September 30, 2022 Page 4

The calculations are based upon assumptions regarding future events, which may or may not materialize. They are also based on the assumptions, methods, and plan provisions outlined in this report and in the October 1, 2021 actuarial valuation report dated April 29, 2022. If you have reason to believe that the assumptions that were used are unreasonable, that the plan provisions are incorrectly described, that important plan provisions relevant to this proposal are not described, or that conditions have changed since the calculations were made, you should contact the author of the report prior to relying on information in the report.

This report was prepared using our proprietary valuation model and related software which in our professional judgment has the capability to provide results that are consistent with the purposes of the valuation and has no material limitations or known weaknesses. We performed tests to ensure that the model reasonably represents that which is intended to be modeled.

This report has been prepared by actuaries who have substantial experience valuing public employee retirement systems. To the best of our knowledge the information contained in this report is accurate and fairly presents the actuarial position of the Plan as of the valuation date. All calculations have been made in conformity with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board and with applicable statutes.

Peter N. Strong and Israel Bichachi are members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. The undersigned actuaries are independent of the plan sponsor.

Proposed Ordinance No. 22-021 - First Reading - An Ordinance of the City of Boynton Beach Florida amending Section 18-300 Creation of Consolidated Deferred Retirement Option Plan to exclude Police Officers and Firefighters and to update for recent changes to the IRS Code; providing for codification conflict, severability, and an effective date.

Explanation of Request:

Attachments:

With the passage of the recent IAFF and PBA collective bargaining agreements providing for an eight (8) year DROP and subsequent approval by the boards of the Police Pension and Fire Pension plans, the Consolidated DROP Ordinance needs to be amended to remove references to police and fire pension plan members.

The General Pension Plan attorney also advised that language needed to be updated to comply with new IRS regulations.

How will this affect city programs or services? This amended Ordinance will update the necessary language so that proper implementation of the 8-year DROP for Police and Fire Pension Plan participants can occur.

Fiscal Impact: There is no fiscal impact to update the Ordinance. [Fiscal impact information was provided and approved in conjunction with the previous passage of the respective PBA and IAFF collective bargaining agreements.]

Notwithstanding the foregoing, upon enactment of this section, employees who have reached normal retirement date and did not enter DROP may make their initial election to participate in the DROP no later than 90 days after the implementation date of this section.

- 33 (d) An election to participate in the DROP plan is irrevocable. 34 (e) Employees may elect to participate by submitting an election to enter DROP to the 35 city's Human Resource Department ("Department") on a form available from the 36 Department for that purpose. DEVELOPMENT DEPARTMENT PLANNING AND ZONING DIVISION MEMORANDUM NO. PZ 22-015

STAFF REPORT

TO: Chair and Members

Planning & Development Board

FROM: Amanda B. Radigan ABR

Planning & Zoning Director

DATE: September 21, 2022

RE: Approve modifications (CDRV 22-006) to Part III. LAND DEVELOPMENT

REGULATIONS amending Chapter 2 Land Development Process, Article II Planning and Zoning Division Services, Section 1.F to allow for an expiration of abandoned applications and Section 7.G to establish a process for Zoning Interpretations and; Chapter 3. Zoning, Article II General Provisions Section 11 to create an exemption for City-owned telecommunication towers used for essential services and; Article III. Zoning Districts and Overlay Zones, Section 2.B revising the parameters for permitted Administrative Adjustments; Article IV. Use Regulations, Section D, Footnote 23 to revise the regulations for industrial uses on arterial and collector roadways; Chapter 4. Site Development Standards, Article V. Minimum Off-Street Parking Requirements, Section 3.G to include a sustainable parking ratio for

select industrial uses.

PROPOSED CHANGES

Allow for the expiration of abandoned applications

Currently, the City's Land Development Regulations lack standards that allow Staff to formally close an application that has become dormant. The proposed amendment allows staff to close applications after six (6) months of inactivity. This amendment prevents applicants from submitting 'new' projects under abandoned applications and helps the City streamline processes in accordance with best practices for recoding keeping.

Create a process to request Land Development Regulation (Zoning) Interpretations

The Land Development Regulations currently contain a process for applicants to request a Zoning Verification Letter, however; no process is codified allowing for the Planning & Zoning Director to create a series of Code Interpretations. The proposed process is a valuable internal tool as it permits Staff to draft formal interpretations when code provisions conflict or lack clarity, or permits an applicant to request an interpretation for assurance in the applicability of certain code sections. This process also creates an alternative to requiring repetitive amendments to the Land Development Regulations.

 Allow for an exemption to the Land Development Regulations for emergency facilities and essential services

The current Land Development Regulations affords exemptions and flexibility to public entities when developing infrastructure such as emergency facilities and essential services. The proposed

amendment adds City-owned, essential-service telecommunication towers to the current exemptions.

• Adjust regulations for industrial uses permitted on Congress Ave

The proposed text amendment clarifies the current intent of requiring commercial uses on industrial properties on Congress Avenue. Industrial properties with building frontage on Congress Avenue will continue to be required to have commercial uses fronting the road. However, in certain occasions where buildings are not fronting or visible from Congress Avenue, commercial uses will not be required.

Adjust Sustainable Parking Reductions to include a reduction for industrial uses

The Sustainable Parking Regulations currently cannot be utilized by industrial developments. New industrial development typically contains vast amounts of impervious area and minimal pervious area. Additionally, industrial uses are modernizing with the use of technology and are reducing their needs for surplus parking areas. This proposal allows for industrial properties to take advantage of a reduced parking rate if the development complies with the sustainable criteria outlined in the Code.

Questions?

Commission Meeting Date: 10/18/2022

Requested Action by Commission: Proposed Ordinance No. 22-023 - First Reading - Amending Chapter 23, Taxation, Assessments and Fees, Article IV, Additional Homestead Exemption, Section 23-54 to increase the additional homestead exemption for low-income senior citizens from \$25,000.00 to \$50,000.00; and amending section 23-54 by creating a new Section 23-54(b)(3) to add an additional exemption for low-income long-term senior citizens.

Explanation of Request:

At the July 19, 2022 City Commission meeting the Mayor requested for staff to draft an ordinance increasing, to the greatest extent available, the additional homestead exemption for low income seniors.

Chapter 23, Article IV, Section 23-54 of the City's Code of Ordinance currently allows for a \$25,000.00 additional homestead exemption for low income seniors.

Florida Statutes Section 196.075 provides authority for a municipality to adopt an ordinance to allow an additional homestead exemption up to \$50,000.00 for a person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, who has attained age 65, and whose household income does not exceed \$20,000.00 (adjusted annually by the percentage change in the average cost-of-living index).

In addition to the above, Florida Statutes Section 196.075 (copy attached) provides authority for a municipality to adopt an ordinance to allow an additional homestead exemption for the amount of the assessed value of the property for a person who has the legal or equitable title to real estate with a just value less than \$250,000, as determined in the first tax year that the owner applies and is eligible for the exemption, and who has maintained thereon the permanent residence of the owner for at least 25 years, who has attained age 65, and whose household income does not exceed the income limitation prescribed in paragraph (a), as calculated in subsection (3) of the statute. This change will need to be approved by a super-majority vote of the City Commission.

How will this affect city programs or services?

Fiscal Impact:

- (Additional Homestead) 848properties x \$50,000= 42,400,000 value of the exemption.

 Difference is 42,400,000-21,202,503 approximately (21,197,497 it will cost the city in assessed value).

 Based on our current millage rate, it would be a cost in ad valorem revenues of about \$170k per year.
- (Low income Senior) 90 properties with an approximate total taxable value of \$464,084. Based on our current millage rate, it would be a cost in ad valorem revenues of about \$40k per year.

Alternatives:

- 1. Do not approve the additional homestead exemption for low income seniors; 2. Modify the additional homestead exemption provided in the Ordinance; or
- 3. Choose one of the two exemptions offered.

196.075 Additional homestead exemption for persons 65 and older.—

- (1) As used in this section, the term:
- (a) "Household" means a person or group of persons living together in a room or group of rooms as a housing unit, but the term does not include persons boarding in or renting a portion of the dwelling.
- (b) "Household income" means the adjusted gross income, as defined in s. 62 of the United States Internal Revenue Code, of all members of a household.
- (2) In accordance with s. 6(d), Art. VII of the State Constitution, the board of county commissioners of any county or the governing authority of any municipality may adopt an ordinance to allow either or both of the following additional homestead exemptions:
- (a) Up to \$50,000 for a person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, who has attained age 65, and whose household income does not exceed \$20,000.
- (b) The amount of the assessed value of the property for a person who has the legal or equitable title to real estate with a just value less than \$250,000, as determined in the first tax year that the owner applies and is eligible for the exemption, and who has maintained thereon the permanent residence of the owner for at least 25 years, who has attained age 65, and whose household income does not exceed the income limitation prescribed in paragraph (a), as calculated in subsection (3).
- (3) The \$20,000 income limitation shall be adjusted annually, on January 1, by the percentage change in the average cost-of-living index in the period January 1 through December 31 of the immediate prior year compared with the same period for the year prior to that. The index is the average of the monthly consumer-price-index figures for the stated 12-month period, relative to the United States as a whole, issued by the United States Department of Labor.
- (4) An ordinance granting an additional homestead exemption as authorized by this section must meet the following requirements:
- (a) It must be adopted under the procedures for adoption of a nonemergency ordinance specified in chapter 125 by a board of county commissioners or chapter 166 by a municipal governing authority, except that the exemption authorized by paragraph (2)(b) must be authorized by a super majority (a majority plus one) vote of the members of the governing body of the county or municipality granting such exemption.
- (b) It must specify that the exemption applies only to taxes levied by the unit of government granting the exemption. Unless otherwise specified by the county or municipality, this exemption will apply to all tax levies of the county or municipality granting the exemption, including dependent special districts and municipal service taxing units.
- (c) It must specify the amount of the exemption, which may not exceed the applicable amount specified in subsection (2). If the county or municipality specifies a different exemption amount for dependent special districts or municipal service taxing units, the exemption amount must be uniform in all dependent special districts or municipal service taxing units within the county or municipality.
- (d) It must require that a taxpayer claiming the exemption for the first time submit to the property appraiser, not later than March 1, a sworn statement of household income on a form prescribed by the Department of

Revenue.

- (5) The department must require by rule that the filing of the statement be supported by copies of any federal income tax returns for the prior year, any wage and earnings statements (W-2 forms), any request for an extension of time to file returns, and any other documents it finds necessary, for each member of the household, to be submitted for inspection by the property appraiser. The taxpayer's sworn statement shall attest to the accuracy of the documents and grant permission to allow review of the documents if requested by the property appraiser. Once the documents have been inspected by the property appraiser, they shall be returned to the taxpayer or otherwise destroyed. Annually, the property appraiser shall notify each taxpayer of the adjusted income limitation set forth in subsection (3). The taxpayer must notify the property appraiser by May 1 if his or her household income exceeds the most recent adjusted income limitation. The property appraiser may conduct random audits of the taxpayers' sworn statements to ensure the accuracy of the household income reported. If selected for audit, a taxpayer shall execute Internal Revenue Service Form 8821 or 4506, which authorizes the Internal Revenue Service to release tax information to the property appraiser's office. All reviews conducted in accordance with this section shall be completed on or before June 1. The property appraiser may not grant the exemption if the required documentation requested is not provided.
- (6) The board of county commissioners or municipal governing authority must deliver a copy of any ordinance adopted under this section to the property appraiser no later than December 1 of the year prior to the year the exemption will take effect. If the ordinance is repealed, the board of county commissioners or municipal governing authority shall notify the property appraiser no later than December 1 of the year prior to the year the exemption expires.
- (7) Those persons entitled to the homestead exemption in s. <u>196.031</u> may apply for and receive an additional homestead exemption as provided in this section. Receipt of the additional homestead exemption provided for in this section shall be subject to the provisions of ss. <u>196.131</u> and <u>196.161</u>, if applicable.
- (8) If title is held jointly with right of survivorship, the person residing on the property and otherwise qualifying may receive the entire amount of the additional homestead exemption.
- (9) If the property appraiser determines that for any year within the immediately previous 10 years a person who was not entitled to the additional homestead exemption under this section was granted such an exemption, the property appraiser shall serve upon the owner a notice of intent to record in the public records of the county a notice of tax lien against any property owned by that person in the county, and that property must be identified in the notice of tax lien. Any property that is owned by the taxpayer and is situated in this state is subject to the taxes exempted by the improper homestead exemption, plus a penalty of 50 percent of the unpaid taxes for each year and interest at a rate of 15 percent per annum. However, if such an exemption is improperly granted as a result of a clerical mistake or omission by the property appraiser, the person who improperly received the exemption may not be assessed a penalty and interest. Before any such lien may be filed, the owner must be given 30 days within which to pay the taxes, penalties, and interest. Such a lien is subject to the procedures and provisions set forth in s. 196.161(3).

Requested Action by Commission: Proposed Ordinance No. 22-024 - First Reading - Approve modifications to reduce building heights in MU-C and MU-4 Zoning Districts (CDRV 22-004) amending Chapter 3. Art III. Sec 1.E Table 3-4. Mixed Use Urban Building and Site Regulations.

Explanation of Request:

At the request of the City Commission, this staff report outlines information regarding amendments to the maximum permitted height in the Land Development Regulations. Specifically, lowering the maximum permitted building height City-wide to 85 feet. This would affect two zoning districts: MU-C which currently allows a maximum building height of 150 feet, and MU-4 which currently allows a maximum building height of 100 feet.

Upon the adoption of the accompanying Ordinance the current building height will be amended to be as follows:

MU-1	Urban Mixed Use	45'
MU-2	Urban Mixed Use	65'
MU-3	Urban Mixed Use	75'
MU-4	Urban Mixed Use	80'
MU-Core	Urban Mixed Use	85'

DEVELOPMENT DEPARTMENT PLANNING AND ZONING DIVISION MEMORANDUM NO. PZ 22-013

STAFF REPORT

TO: Chair and Members

Planning and Development Board

THRU: Amanda Radigan, AICP ABR

Planning and Zoning Director

FROM: Elizabeth Eassa, AICP, Senior Planner; Craig Pinder, Planner II

DATE: September 27, 2022

REQUEST: Approve modifications to reduce building heights in MU-C and MU-4

Zoning Districts (CDRV 22-004) amending Chapter 3. Art III. Sec 1.E

Table 3-4. Mixed Use Urban Building and Site Regulations.

OVERVIEW

At the request of the City Commission, this staff report outlines information regarding amendments to the maximum permitted height in the Land Development Regulations. Specifically, lowering the maximum permitted building height City-wide to 85 feet. This would affect two zoning districts: MU-C which currently allows a maximum building height of 150 feet, and MU-4 which currently allows a maximum building height of 100 feet.

EXPLANATION & PROPOSED AMENDMENTS

History of Height

Over the last 20 years, the City has embraced redevelopment planning which has been guided by recommendations adopted within CRA plans. The adopted plans focus on the development of a downtown which included specific emphasis on the topic of height. In the year 2000, when the height maximum City-wide was 100 feet, public workshops were held for the creation of the Federal Highway Corridor Community Redevelopment Plan ("FHCCRP"), which was later adopted in 2001. The City subsequently updated the Land Development Regulations (LDR) to implement the changes recommended in the FHCCRP and established the original MU-H and MU-L zoning districts which increased the maximum height allowed in the City to 150-feet for MU-H. Mixed use zoning districts were expanded to Boynton Beach Boulevard in 2006 following the adoption of the Boynton Beach Boulevard Corridor Plan, which established recommendations to increase intensity by adding residential components from Interstate 95 (being the lowest level of intensity) to downtown Boynton Beach (being the highest level of intensity).

Also in 2006, the FHCCRP was updated which led to further distribution of mixed use heights and densities and established three (3) new districts (MUL-1, MUL-2, and MUL-3) which created lower levels of intensity.

The City hosted a series of public workshops in 2016 to consolidate the various redevelopment

Page 2 Building Height CDRV 22-004

plans, into a single Community Redevelopment Plan (CRA Plan). The LDR was updated in both 2016 and 2017 to further distribute the mixed using zoning districts, per the CRA Plan recommendations. This amendment added MU-4, which provided an intermediate step between the height caps of 75-feet and 150-feet within the Mixed Use and Mixed Use Core classifications. There have been no amendments to height regulations since the adoption of MU-4. Currently the maximum height allowed in the City's Urban Mixed Use zoning districts are as follows:

MU-1	Urban Mixed Use	45'
MU-2	Urban Mixed Use	65'
MU-3	Urban Mixed Use	75'
MU-4	Urban Mixed Use	100'
MU-Core	Urban Mixed Use	150'

The establishment of the various Mixed-Use zoning districts assisted in the creation of the Downtown Transit Oriented Development ("TOD") District Overlay, which is outlined in and around the site that is anticipated to become a future commuter rail station. TOD's often include a mix of commercial, residential, office and entertainment centered around or located near a transit station. Dense, walkable, mixed-use development near transit attracts people and adds to vibrant, connected communities. Successful TOD's depend on access and density around the transit station. Convenient access to transit fosters development, while density encourages people to use the transit system.

On May 17, 2022, by the request of the City Commission, Staff gave a brief presentation at the City Commission Meeting on the City's current building height regulations. To further the discussion, on June 25, 2022, Staff held a public workshop on building height and again presented the materials to the Planning and Development Board. Staff presented four examples for discussion that could be used to address lowering the maximum height permitted City-wide. The four examples are as follows:

Example A:

Lower height maximum of MU-C from 150-feet to 85-feet Lower height maximum of MU-4 from 100-feet to 80-feet

Example B:

Lower height maximum of MU-C from 150-feet to between 110-feet and up to 149-feet

Example C:

Make no changes to LDRs;

Amend Downtown District portion of the CRA Plan;

Reduce proposed intensity on select parcels; for example, parcels slated to go to Mixed-Use High could be modified to be slated for Mixed-Use Medium.

Example D:

Make no changes.

The City Commission has provided direction to draft a Land Development Regulation Amendment to implement "Example A". On August 23, 2022, Staff presented the Planning and Development Board with the same presentation provided to the City Commission on June 25, 2022 and requested feedback. The Board's responses varied during discussion ranging from making no changes; lowering maximum building height from 150 feet to 120-125 feet; and

Page 3
Building Height
CDRV 22-004

reducing the maximum building height to 48 feet. Collectively, the Board generally supported a height reduction. Upon the adoption of the accompanying Ordinance the current building heights will be amended to be as follows:

MU-1	Urban Mixed Use	45'
MU-2	Urban Mixed Use	65'
MU-3	Urban Mixed Use	75'
MU-4	Urban Mixed Use	80'
MU-Core	Urban Mixed Use	85'

Considerations

In 1995, the State of Florida enacted the Bert J. Harris Jr. Private Property Protection Act that created a new cause of action for aggrieved property owners. If property owners can demonstrate that a governmental action "inordinately burdens" their property, they may be entitled to some form of compensation. Prior to the Harris Act, governmental agencies were not held liable for implementing zoning changes that had the potential to significantly reduce a property owner's rights and/or investment potential.

Reducing building height could potentially limit a property owner's ability to develop and/or redevelop their land to its existing potential under current regulations. In an effort to protect the City from being accused of inordinately burdening property owner's that will be affected by the accompanying Ordinance, Staff has included language which indicates that structures that were in lawful existence or lawfully approved as of the date of the adoption of the accompanying Ordinance will not be construed as nonconforming as a result of its adoption. Additionally, the structure would be permitted to continue until such time that a new Major Development Application or Major Site Plan Modification is approved or a Development Order or vested project expires.

Should this language be accepted, a structure would be permitted to continue and execute alterations and upgrades, however no additional height will be permitted. Any new structures proposed on site would be required to meet the new height requirements. The structure would also be permitted to be rebuilt, if necessary, so long as the proposal to rebuild does not stray from the vested approval.

Requested Action by Commission: Proposed Ordinance No. 22-017 - First Reading - Tenant Notice and Bill of Rights Ordinance. (Postponed at the October 4, 2022 City Commission Meeting.)

Explanation of Request:

At the July 19, 2022 City Commission meeting the Mayor requested that the Commission consider an Ordinance to assist individuals renting property. Several jurisdictions in Florida have recently adopted ordinances to enhance notice requirements above those required by state law. These requirements include notices for terminating leases and increases in rent. Some jurisdictions also adopted regulations for notices relating to late fees and to adopt a Tenant's Bill of Rights that requires landlords to provide written notice to tenants of their rights and resources should they have any concerns.

At its September 8, 2022, meeting, the City Commission provided direction for the preparation of an ordinance that provides for the City's own regulations.

The proposed ordinance provides for required notices for termination or non-renewal of residential leases without specific durations, for increases in rent and for late fee notices. In addition, the ordinance requires landlords to provide tenants with a "Tenants Bill of Rights" in a form developed by the City.

How will this affect city programs or services? Provide regulations and notice of rights to tenants in the City.

Fiscal Impact: None at this time; however, there could be costs relating to enforcement and printing of form Bill of Rights for tenants once any ordinance within the City comes into effect.

37	Section 2. City of Boynton Beach's Code of Ordinances, Chapter 13 "Licenses" is
38	hereby amended by creating Article V, "Rental Dwelling Units" as follows:
39	ARTICLE V. – RENTAL DWELLING UNITS
90	DIVISION 1. APPLICABILITY AND DEFINITIONS
91	Sec. 13-92. Title.
92	This ordinance, as fully set forth in Sections 13-92 through 13-99 of the City of
93	Boynton Beach Code of Ordinances, shall be known and may be cited as the "Boynton
94	Beach Residential Notice and Tenant's Bill of Rights Ordinance."
95	Sec. 13-93. Applicability.
96	(a) The provisions of this article shall apply citywide, unless in conflict with an
97	applicable municipal ordinance. Unless otherwise provided, nothing in this article shall be
98	construed to relieve a person from compliance with applicable county or municipal
00	regulations. The provisions of this article shall apply prospectively and shall apply to any

new Rental Agreement entered into after October 1, 2022, date and to any renewal or extension of an existing Rental Agreement with a term that commences after that date.

(b) This article only applies to residential tenancies subject to Chapter 83, Florida Statutes, and does not apply to rentals within mobile home parks governed under Chapter 723, Florida Statutes; short-term rentals of residential units with non-recurring rental terms of thirty (30) days or fewer; or rentals of transient public lodging establishments regulated under Chapter 509, Florida Statutes. This article only regulates the landlord tenant relationship under Chapter 83, Florida Statutes; nothing in this article shall be construed to constitute regulation of public lodging establishments.

Sec. 13-94. Definitions. The following definitions shall apply to this article:

Landlord means any individual, firm, corporation, or other organization or group of persons however organized that is shown as the lessor, landlord, or property owner under a Rental Agreement, or any individual or entity otherwise acting on behalf of a lessor, landlord, or property owner in the rental of a Rental Unit to a Tenant, including, but not limited to, owner, lessor, sublessor, assignor, manager, real estate licensee (either a broker, sales associate, or broker-sales associate), condominium association, homeowners' association, cooperative association, or any representative of any of the foregoing. A real estate licensee is not a Landlord within the meaning of this division if they are only involved with the marketing of a Rental Unit and are not involved with either the preparation of the Rental Agreement or communicating with a Tenant on behalf of a property owner during the term of a Rental Agreement.

Late Fee means a charge of any kind, levied against a Tenant, associated with a failure of the Tenant to timely pay rent pursuant to the terms of a Rental Agreement.

123	Rental Agreement means an agreement, whether written or oral, by which a Tenant
124	is entitled to possess a Rental Unit, or which is a "Rental Agreement" as defined in Section
125	83.43, Florida Statutes, as it may be amended.
126	Rental Unit means a residential housing unit in the City of Boynton Beach that (a) is
127	or may be occupied by a Tenant by virtue of a Rental Agreement, or (b) is a "Dwelling Unit"
128	as defined in Section 83.43, Florida Statutes, as it may be amended.
129	Tenant means a natural person or persons who will occupy, or who makes
130	application to occupy, a Rental Unit by virtue of a Rental Agreement, or who is a "Tenant" of
131	a dwelling unit in the City of Boynton Beach, as defined in Section 83.43, Florida Statutes, as
132	it may be amended.
133	DIVISION 2. RENTAL NOTICES
134	Sec. 13-95 - Required written notice of termination of monthly residential tenancy
135	without specific duration.
136	A residential tenancy without a specific duration in which the rent is payable on a
137	monthly basis may be terminated by either the landlord or tenant by giving not less than 90
138	days' written notice prior to the end of any monthly period.
139	Sec. 13-96 Required written notice of rental payment increases for residential
140	tenancies.
141	(a) A residential landlord that proposes to increase the current rental rate by
142	more than five percent (5%) at the end of a lease for a specific term, or during a tenancy
143	without a specific duration in which the rent is payable on a month to month basis, must
144	provide 90 days' written notice to the tenant.
145	(b) If the required 90 days' written notice has been provided and the tenant has

146	not agreed to the rent increase or an acceptable compromise, the landlord may increase the
147	rent, as noticed, or require the tenant(s) to vacate the residence.
148	DIVISION 3. TENANT'S BILL OF RIGHTS AND NOTICE OF LATE FEES
149	Sec. 13-97. Tenant's Bill of Rights; Landlord Notice Requirements.
150	(a) The Development Department shall create and maintain a Tenant's Bill of Rights,
151	which shall mean a paper or electronic document, available in English, Spanish, and Creole,
152	in at least 12-point font, and formatted to be printed on paper of 8½ by 11 inches or larger,
153	containing a notice of rights under applicable federal, state, and local law, and services
154	available to residential tenants in the City of Boynton Beach. The content of the Tenant's Bill
155	of Rights shall be as determined by the Boynton Beach City Commission ("Commission") by
156	resolution.
157	(b) It is unlawful for a Landlord of a Rental Unit to enter into a Rental Agreement for
158	a Rental Unit under the Landlord's control or authority, without first providing the
159	prospective Tenant with a copy of the Tenant's Bill of Rights. A Landlord may comply with
160	this requirement through an agent of the Landlord (e.g., a property manager, rental
161	manager, or real estate licensee).
162	(c) For existing Tenants already occupying a Rental Unit on or before the date set
163	forth in Section 13-93, the Landlord must provide the Tenant with the Tenant's Bill of Rights
164	prior to the commencement of a new rental term. For Tenants with rental terms of thirty
165	(30) days or less that are recurring in nature (e.g., ongoing month-to-month tenancies), the
166	Landlord must provide the Tenant's Bill of Rights prior to December 1, 2022, and thereafter
167	no less than once per year.
168	(d) There shall be a rebuttable presumption that a Landlord has complied with this

169	section if the Landlord can provide a written, dated, and signed affirmation from the Tenant
170	stating that the Tenant has timely received the Tenant's Bill of Rights. The signed
171	affirmation shall be retained by the Landlord for at least one (1) year after the Tenant
172	vacates the Rental Unit.
173	Sec. 13-98. Late Fee Notices; Landlord Requirements.
174	(a) At or before such time as a Landlord assesses a Late Fee against a Tenant, the
175	Landlord must provide written notice to the Tenant containing the information stated in
